City of Brampton, Central Area - Downtown Precinct

Display of Wares and Services

By-Law 318-2012

Program Guidelines

This program was approved by Brampton City Council on November 9, 2012 in order to:

Improve the appearance and functionality of the downtown core by facilitating the installation of flower pots and planters, small patios where no alcohol is served, street furniture with tables and chairs, benches and other items

To facilitate and allow display of private wares and services within the public right of way as part of the Downtown Revitalization and Beautification Program

Key issues to take in consideration when applying for the program:

The display has to be of **good quality** and improve the appearance and functionality of the downtown core

The wares and displays have to be temporary in nature (the approval is for March 1 to January 2), **removable**, non-intrusive, and not to impede the pedestrian circulation, snow removal and street cleaning

A **minimum clearance** of 1100mm (44") is required , which is conditional to an on-site evaluation to permit barrier free accessibility for people with disabilities

The Display of Wares and Services By-law **does not permit A-frame type signs**

A **permit** must be obtained from the City of Brampton in order to display **A-frame signs**

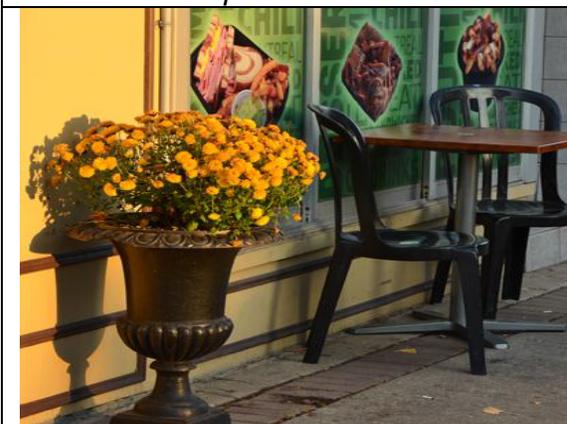

Arrange a pre-consultation before you apply by Emailing Ryan Lynn, Ryan.Lynn@brampton.ca
