

## NOTICE OF STUDY COMMENCEMENT

### Bram West Secondary Plan Transportation Master Plan Study

#### The Study

The City of Brampton is conducting a review of the Bram West Secondary Plan Area. The intent of the study is to identify the infrastructure needed to support the growth and land uses envisioned for the area. As part of the review, the City of Brampton is carrying out a Transportation Master Plan to support the growth envisioned for the Bram West Secondary Plan Area (see figure for study area).

The Transportation Master Plan (TMP) will provide the long-range planning necessary to identify a transportation network that supports the land use plan and the forecasted travel demand while encouraging more sustainable travel choices (such as transit, walking and cycling) and behaviours in the Bram West Secondary Plan Area.

#### The Process

This study is being undertaken in accordance with Approach #2 of the Master Planning process as set out in the Municipal Class Environmental Assessment (MCEA, 2024), which is an approved process under the Ontario Environmental Assessment Act. As such, the TMP will address Phases 1 and 2 of the MCEA process for any Schedule B project and will form the basis for the recommended Schedule C transportation infrastructure projects arising from the TMP report. The EA process includes the completion of technical studies to determine existing conditions, the development and evaluation of alternatives, an assessment of the impacts of the proposed alternatives, and the development of a preliminary preferred transportation network.

#### We want to hear from you

The City wishes to ensure that anyone with an interest in this study has the opportunity to be involved and to provide input. To better engage City residents and stakeholders in the Bram West Secondary Plan Area Review, the City of Brampton has launched the Bram West project webpage ([www.brampton.ca/bramwest](http://www.brampton.ca/bramwest)). All project news, past reports and updates will be available on the project webpage. Questions and comments regarding the project are encouraged.

For more information about the studies mentioned above or to be added to the project mailing list see:
