CW486-2019

Whereas residents in the City of Brampton are growing more and more concerned about the number of speeding vehicles on their neighbourhood streets, compromising their sense of safety;

And Whereas Ontario's Ministry of Transportation has confirmed (as of Friday, November 29, 2019), they will be filing enabling regulations under the 'Safer School Zones Act' that will provide municipalities the ability to adopt new and enhanced tools to promote safety in school and community safety zones;

And Whereas Council needs to act now to curb the increasing number of motor vehicle infractions on our roads and reduce the potential for traffic accidents and fatalities in the City of Brampton;

And Whereas the Attorney General of Ontario is required to approve the Certificate of Offence forms required to introduce photo radar, provide the appropriate signs to municipalities, and requires a 90-day warning period to install photo radar cameras, detectors and equipment;

And Whereas the Ministry of Transportation will allow the decision to employ photo radar to be made by each municipality;

**Minutes
City Council**

And Whereas photo radar cameras will register drivers' speed and license plate, and trigger the issuance of a speeding ticket, by mail, under the Highway Traffic Act with an initial period where speeders get only a warning;

And Whereas implemented photo radar has had a significant effect on motor vehicle speeds and is an effective method to encourage drivers to slow down and be aware of their surroundings, vulnerable pedestrians and consider other safety issues;

Therefore, Be It Resolved;

- a) Mayor Brown and Members of Council agree to send a request to the Attorney General of Ontario, strongly suggesting to waive the 90-day posting period of warning signs prior to the induction of photo radar equipment and begin implementation within 45 days;
- b) Associated costs of implementation are to be included in the 2020 budget requests by the appropriate department(s);
- c) City staff report back with recommendations and an implementation plan by Q1 2020.
