Note: Later in the meeting, prior to consideration of Item I 8-3, Councillor Sanderson requested that Peter Robertson be added to the Agenda as a delegation regarding a sports complex for Brampton.

The Clerk outlined the process as provided in the Procedural By-law as follows:

- A motion requiring a 2/3 majority is required to reopen the “Approval of the Agenda” motion ;
- If the motion to reopen the “Approval of the Agenda” carries, a motion requiring a unanimous vote is required to add new business to the agenda;

A verbal motion by Councillor Sanderson to reopen the Approval of the Agenda was voted on and lost.

Subsequent to further discussion the Clerk advised as follows:

- Peter Robertson submitted a written request to appear before Council after the agenda deadline

Minutes City Council

- In a subsequent meeting, Mr. Robertson was advised of the requirements of the Procedure By-law and that he could attend a Committee of Council meeting. However, if he wished to speak on a matter that had been previously decided by Council, a Council Member would have to put a motion to reopen the question at a Council meeting, in accordance with the Procedure By-law Committee
- The current Procedure By-law was enacted in 2004 to require unanimous approval regarding new business matters to be added at a Council meeting.

The Clerk provided further clarification with respect to the Procedure By-law:

- If Council wishes to reconsider its vote to reopen the Approval of the Agenda motion, it would require a 2/3 majority
- A motion to add new business requires unanimous approval
- If the motion to add new business carries and the delegation speaks to a matter which has been decided by Council this term, a reconsideration of a decision of Council can be addressed through a Notice of Motion in accordance with the Procedure By-law
- Notwithstanding the new reconsideration provisions, Council may suspend its rules on a 2/3 majority vote
- A motion to reconsider a decision of Council requires a 2/3 majority vote.

G. Delegations

Item J2 was brought forward and dealt with at this time.

G 1 **A1 Buildings Design/Construction – Shiva Ganesh Mandir Temple – 739 Wanless Drive – south side of Wanless Drive between Chinguacousy Road and McLaughlin Road – Ward 6**

**Minutes
City Council**

The following individuals addressed Council regarding this matter:

1. Satnarine Bhansingh, a resident of Mississauga

Mr. Bhansingh advised that the application was filed in October 2011 and all requirements of the City have been addressed with respect to the development of a temple at this location. Staff recommended approval of the application; however, the Planning, Design and Development Committee recommended refusal. Mr. Bhansingh requested that Council reconsider and approve the application.

2. Shanita Agam, a resident of Brampton

Ms. Agam encouraged Council to approve the application as the congregation is in need of a new temple with improved amenities for administrative purposes, a residence for the priest and facilities for social functions.

3. Harnarine Dubar, a resident of Brampton

Mr. Dubar, Temple Priest, noted that the goals of the Hindu religion and culture are to unite people in a way of life with understanding and dignity. Mr. Dubar requested that Council approve the application.

4. Khem Permanand, a resident of Brampton

Mr. Permanand noted that this temple will serve a small group of families and restrictions are in place which will naturally restrict growth. The congregation has invested thousands of dollars to date and met all requirements requested. Mr. Permanand requested that Council approve the application and avoid an appeal to the Ontario Municipal Board.

5. Sham Mathura Maraj, a resident of Brampton

Mr. Maraj, as part of the project management group, reiterated the points with respect to the application and staff's recommendation of approval. A considerable amount of time and money has been invested to date and the proponents are committed to locating the temple on this site.

**Minutes
City Council**

6. Radhica Maharaj, a resident of Brampton

Ms. Maharaj noted that the congregation is in need of a new place of worship and will take pride in their temple and surroundings. Every effort will be made to respect the existing community and neighbourhood.

During discussion of this matter, the following delegation was added.

7. Jack Anderson, a resident of Brampton

Mr. Anderson, an area resident, advised that this is not the right location for a place of worship in the middle of a small hamlet of 11 residents. The proposed temple with a 6 foot fence around the property will not fit into this area of large lots, no fences and open spaces. Mr. Anderson strongly recommended that the application be refused.

Council consideration of this matter included:

- Inappropriate location for a temple on a 1 acre site as existing policies require a new site of 2 acres for a place of worship
- Incompatibility with the unique character of the existing neighbourhood
- Existing congregation membership and potential growth
- Rezoning and site plan provide controls on expansion and growth
- Possible appeal to the Ontario Municipal Board

Councillor Sprovieri requested that a recorded vote be taken on Recommendation PDD116-2012, separate from the remainder of the Planning, Design and Development Committee minutes.

PDD116-2012 Moved by Regional Councillor Palleschi

G 2 Taxicab Driver Training Program

Item J 1 was brought forward and dealt with at this time.

The following motion was considered to reopen a previous Council decision :

C132-2012 Moved by Regional Councillor Sprovieri
Seconded by Regional Councillor Hames

Whereas a new taxicab policy approved by Council on April 20, 2011 (Resolution C087-2011, Recommendation CW131-2011 and TC007-2011) approved a taxicab driver training program and required taxicab drivers to attend training courses provided by the City of Mississauga; and

**Minutes
City Council**

Whereas all City of Brampton taxicab drivers are required to complete or be credited with equivalencies for all components of the training program by December 30, 2012; and

Whereas the delivery of the training program by the City of Mississauga was delayed for reasons beyond the City of Brampton's control, including competing demands placed on the City of Mississauga's training program; and

Whereas training for existing Brampton taxicab drivers was scheduled to commence in May 2012, resulting in notification by City of Brampton staff in April 2012; and

Whereas the City of Mississauga trainers can only accommodate a small number of Brampton taxicab drivers per month; and

Whereas it is likely not possible for all of the Brampton taxicab drivers to obtain their training courses by December 2012; and

Whereas Members of Council can request Council to reconsider a decision of Council made during the current term, in accordance with the Procedure By-law 160-2004, as amended;

Therefore Be It Resolved that the matter of Resolution C087-2011 (April 20, 2011), in so far as it relates only to Council's decision to require existing taxicab drivers to complete or be credited for all components of the Taxicab Driver Training Program by December 30, 2012, and specifically Clause 5 of Resolution C029-2011 (Recommendations CW131-2011 and TC007-2011), be re-opened:

5. That all existing taxicab drivers in the City of Brampton be required to complete or be credited with equivalencies for all components of the Taxicab Driver Training Program by December 30, 2012.

1. Louis Gotzamanis, a member of taxicab industry

Mr. Gotzamanis requested that the driver training program and the deadline be referred back to the Taxicab Advisory Committee for clarification.

**Minutes
City Council**

2. Devinder Dhaliwal, a member of the taxicab industry

Mr. Dhaliwal requested that the driver training program be deferred until the economy improves as the cost is quite onerous for a taxi driver.

Council consideration of this matter included the following:

- Development of a “Made in Brampton” solution
- Probable deadline extension from December 2012 to December 2013
- Reiteration that the training is mandatory and will proceed

The following motion was considered:

Items I 9-1 and N 2 were brought forward and dealt with at this time.

Council discussion of this matter included the following:

- Chronology of the matter and the EA process

Members' duty to represent their constituents includes broadly representing their constituent's interests in the City Council, and in the community. In circumstances where the Integrity Commissioner has given the Member a qualified opinion, the Member of Council may remedy the situation in the manner specified by the Integrity Commissioner;

 - c) For greater clarity, this Code does not prohibit Members of Council from properly using their influence on behalf of constituents; and,

- 6. That the following procedural changes be made:
 - (a) The Integrity Commissioner By-law be amended to specifically reflect that if the Integrity Commissioner

- G 5. Delegations re: **Main Street North Development Permit System (DPS)** (File P09):
1. Peter VanSickle, President, Brampton Downtown Development Corporation;
 2. Angela Battiston, Downtown Property Owner.

Report I 8-13 and Correspondence L 4 were brought forward and dealt with at this time.

The delegations commented on this matter as follows:

Peter VanSickle, President, Brampton Downtown Development Corporation (BDDC):

- The BDDC recognizes the innovation the system represents, sees it as recognizing the heritage aspects of Main Street North while allowing for the logical densification of the street
- They appreciate that the system supports change and provides for an expedited application process with reduced costs
- They have concerns about heights that are limited between gateways, but understands that there are opportunities for reconsideration of these limits when an application is presented
- The BDDC reiterates its position that the boundaries are possibly too tight and redefinition of the intended areas should be made shortly after the by-law is passed
- They believe the DPS should be attractive to developers and investors looking for certainty in getting their projects to market
- The BDDC looks forward to the system facilitating growth in the Main Street North area

Angela Battiston, Downtown Property Owner:

- Indicated that she is also representing 10 owners of property on Thomas and Market Streets
- Expressed concern about notice that this matter was to be considered at this meeting, and requested that the matter be deferred to provide

**Minutes
City Council**

time for property owners to review the staff report and proposed by-laws

- Referenced objections she filed previously with the Planning, Design and Development Department
- Expressed her view that attracting retailers to the area will be difficult without higher density projects/population

Council consideration of this matter included:

- An overview of the process toward the implementation of the subject DPS, including consultation with residents and business owners through public meetings and open houses
- Indication that the subject DPS does not hinder property owners from submitting applications to amend the Development Permit by-law, an amendment that would follow typical City processes
- Acknowledgement of staff's efforts in the development of the DPS

In response to questions from Council, staff provided information on the proposed delegation of authority, tariff of fees, and provisions of the proposed Official Plan Amendment.

I 6-1 and Items K 1 and K 2 were brought forward and dealt with at this time.

Matthew Anderson, President and CEO, William Osler Health System, provided information on the redevelopment of the former Peel Memorial Hospital, which included progress of the project, activity on the site, timelines, and the components of Phase I.

Mr. Anderson referenced the City's commitment outlined in the Memorandum of Understanding, included in the staff report (Item I 6-1), and indicated that it represents a significant milestone in the development of the Peel Memorial Centre for Integrated Health and Wellness. He acknowledged and thanked Council for its ongoing support of this project.

Neil Davis, Vice Chair, Board of Directors, William Osler Health System, and Chair, Peel Memorial Community Partners Task Force, provided background on the quest for a second hospital for Brampton, and highlighted the need for two hospitals to meet the health care requirements of the community. He described the model for the new facility, components to be included in Phases 1 and 2 of the project, and services to be provided.

Mr. Davis outlined statistics supporting a second hospital, i.e. Brampton has the busiest emergency department in the province, the lowest ratio of family doctors resulting in 40% of residents seeking care outside the community, the highest number of births in the province, and a rapidly growing seniors population. Additionally, he highlighted the economic development benefits the new facility will bring to the City.

Mr. Davis introduced Kate Clair, Chair, William Osler Health System, and together they thanked Council, the Central West Local Health Integration Network, the Brampton Board of Trade, and the Brampton community for their efforts toward securing a second hospital for the City.

Council consideration of this matter included:

- Acknowledgment of the efforts of Mr. Anderson, Mr. Davis, Brampton business and residents
- Economic benefits for the City's downtown
- City's financial commitment to the new facility

Council acknowledged the efforts of staff in the preparation of the City's response to the proposed amendments to the Integrated Accessibility Standard Regulation.

The following motion was considered.

**Minutes
City Council**

C253-2012 Moved by Regional Councillor Hames
Seconded by Regional Councillor Miles

1. That the report from W. Hunter, Manager of Administrative Services and Elections, Corporate Services, dated September 10, 2012, to the Council Meeting of September 26, 2012, re: **Response to Proposed Amendments to Ontario Regulation 191/11 – Integrated Accessibility Standard Regulation – Design of Public Spaces** (File A21) be received; and,
2. That the following general comments be submitted to the Ministry of Community and Social Services on behalf of the City of Brampton:

1. Harmonization

The final standard components of the Accessible Built Environment Standard are still outstanding. Consequently, duplicated costs, efforts for policy development, training, and implementation are still possible, hence the full cost impact cannot be assessed.

Continued and ongoing harmonization efforts are needed prior to implementation of the proposed standards and the remaining Built Environment Accessibility Standard technical requirements.

2. Costing

The cumulative cost impact to implement the standards has not been addressed. Assessing the feasibility of implementing the requirements is difficult when the cost to do so is not defined, and when there are still significant unknowns with the interior built components. A thorough cost analysis is needed so that municipalities can balance the cumulative impact of all the provincial requirements with local needs and commitments.

3. Clarity

There is need for clarity in the definitions and requirements in the proposed amendments. There are some definitions and requirements and/or exemptions that are contrary to the requirements of existing accessibility legislation and other legislation such as the Ontario Human Rights Code. In some areas, changes to definitions have potentially created

**Minutes
City Council**

new barriers for people with disabilities notably the definition for mobility aid.

There are areas where the requirements are not particularly clear, or specific, and therefore are open to interpretation, which may result in enforcement difficulties.

4. Timelines and Implementation of Standards

The implementation of the technical requirements can be achieved only if used for the development of new public spaces. Allowance for unknown problems has not been addressed in public facility redevelopments.

Wording to encourage the application/implementation of the standards to the greatest extent possible should be incorporated in the standard.

If the intent is to release the interior built environment standards in the future mechanisms must be put in place to allow for a smooth and seamless transition with the exterior and interior components so as to avoid unnecessary duplicated costs.

5. Funding

Municipalities already face excessive challenges funding their current infrastructure requirements. Financial assistance from other levels of government is needed. Implementation of the proposed amendments will add increased financial pressure to an already significantly strained property tax base. For some municipalities the impact of these costs is more likely to result in direction to keep the status quo and redirection away from any new development. Provincial funding to assist with implementation of all standards is imperative; and,

3. That in addition to general comments stated in Recommendation #2, specific concerns addressed by staff in Appendix 2 to the subject report be submitted to the Ministry of Community and Social Services.

In addition, a determination will be made as to whether the final policy language under section 5.2.1.3 should apply solely to Block Plan Sub-Area 51-2 as a block plan policy, or whether it should also apply to the balance of the Secondary Plan (i.e. approved Block Plan Sub-Area 51-1).

vi.) Section 3.2 as it pertains to proposed revisions to existing Mount Pleasant Secondary Plan policies

Additional evaluation and analysis is needed to determine whether or not the potential wording changes to policy section 5.2.1.3 as it applies to maximum building heights in the mixed use area

Whereas contraband tobacco has negative public consequences and impacts such as unrestricted youth access to tobacco products, and an increase in criminal activity; and,

Whereas contraband tobacco products are easily accessible in our community; and,

Whereas small businesses are sometimes forced to close because of the sale of contraband tobacco; and,

Whereas small business in our community and government in general stand to benefit from the institution of tougher restrictions on contraband tobacco;

Therefore be it resolved that the Mayor of Brampton write a letter to the Ontario Minister of Finance in support of the Ontario Government's most recent Budget commitments to eradicate contraband tobacco through the implementation of additional regulatory, enforcement and other provisions in Bill 186 and amendments to the Tobacco Tax Act. Particularly, in support of measures such as:

- increased fines for those convicted of offenses related to contraband tobacco;
- more authority for law enforcement officials with respect to: forfeiture of items seized, and impounding of vehicles.
- drawing on the best practices of other jurisdictions and working collaboratively with the federal government and other jurisdictions to enhance contraband tobacco control through joint enforcement efforts; and,

That the provincial government be encouraged to continue to strengthen their strategies to address the manufacture and supply of contraband tobacco and maintain their commitment to introduce amendments this fall to implement these measures; and,

That a copy of this recommendation be circulated to local Members of Parliament, local Members of Provincial Parliament, the Federation and Canadian Municipalities and the Association of Municipalities of Ontario, and that they be made aware of the actions taken by this Council to address the concerns presented by contraband tobacco.

Whereas children's entertainers have the opportunity and ability to establish a relationship and rapport with children which, on very rare occasions, may put children in danger of becoming victims of abuse; and

Mayor Fennell indicated that this Special Meeting was called for a specific purpose, i.e. to consider the Planning, Design and Development (PDD) Committee Minutes of March 4, 2013 regarding Brasun Development's application at the northeast corner of Bramalea Road and Sandalwood Parkway. She highlighted that the Special Meeting was not for any other purpose and Council's rules prohibit Council from dealing with any other business except the Brasun application.

The Mayor outlined Council's role as the decision maker on this matter, and advised that the decision has not yet been made. She noted that at the March 4, 2013 PDD Committee meeting, the Committee considered a staff report and public delegations and passed a recommendation to refuse the original development application and the modified staff recommendations.

The Mayor indicated that at this meeting Council will consider the PDD Committee recommendations and may make a final City decision on this matter, although the development proposal has already been appealed to the Ontario Municipal Board (OMB).

Peter Fay, City Clerk, outlined the meeting procedures and rules for delegations, which included information on the following: order of

 - Need for employment lands in the area versus proposed townhomes

- Concerns about the amount of time for staff to present its recommendation report, and his view that staff could have recommended refusal of the proposal

- Concerns that employment land is being lost and the impact this may have on attracting future businesses to the area
- Request that City start thinking "outside of the box" when it comes to attracting businesses to the City

- Questioned the democratic process as it relates to consideration of this development proposal

- Applauded decision by the Planning, Design and Development Committee to refuse the application
- Indicated that jobs are needed in the area, such as a government building where their children can get future employment
- Concerns about inaccurate media depictions of residents' concerns about the proposal

Minutes City Council

- Indicated that the applicant is prepared to support the staff report, but in exchange requests that Council support the staff recommendations, so together they can move forward to the OMB toward getting approval for the modified application with the additional amenities

Regional Councillor Sprovieri introduced Don Given, Planning Consultant, Malone Given Parsons Ltd., retained by the City to provide a third-party evaluation of the application. He requested that Mr. Given be added as a delegation, and Council agreed to do so.

Minutes City Council

- Confirmed that he brings no bias to the process, that he is not a resident of Brampton, and that he has no direct interest in property or decisions in the City
- Highlighted that the application is typical of those before other municipalities in the Greater Toronto Area, where it is not unusual to find resistance due to potential traffic impacts, etc.
- Outlined his background as a planning consultant, working for the City of Brampton, other municipalities, and private developers
- Outlined his position that the staff report and recommendations present a good balance, and indicated he has outlined his position in a report to the City
- Provided an overview of his report, which he understands is to be publically released on April 19, 2013
- Outlined his conclusion that the application was handled well by staff, who found an opportunity to get more parkland and other amenities than the City was entitled to, while satisfying provincial legislation and policies and the City's Official Plan

During Mr. Given's delegation a request was put forward to grant him additional time, and Council agreed to provide Mr. Given with an additional five minutes.

In response to questions and concerns from the delegations: Council outlined changes to provincial legislation and policies to mandate municipalities to intensify; and, staff provided information on the designation of the subject lands under the City's Official Plan, Secondary Plan and Zoning By-law, and highlighted that the Official Plan is the overriding planning document for the City.
