In addition, Mr. Rhodes advised that he supports the review of the Business Development and Marketing Advisory Team and the Downtown and Queen Street Corridor Advisory Committee and requested that the Brampton Board of Trade have an opportunity to participate in this review.

E 2. In response to questions from Mr. John Moulton, resident of Brampton, in regard to the Norval Quarry Rezoning Application and the appointment of an Integrity Commissioner, Mayor Fennell advised that, in accordance with the Procedure By-law, Public Question Period is reserved for questions pertaining to items listed on the agenda.

Mayor Fennell invited Mr. Moulton to attend the December 15, 2010 Council meeting, advising that these matters would be addressed at that time.

1. A representative from the Brampton Board of Trade

Mr. Stephen Rhodes, President, Brampton Board of Trade (BBOT), was present to speak to the noted matter. Mr. Rhodes indicated that the BBOT supports the proposed model of governance for the Advisory Committee on Economic Development. Mr. Rhodes noted that the former Business Development and Marketing Advisory Team (BDMAT) had lost some functionality and suggested that the proposed model would bring expertise to a new advisory committee and would help strengthen the bond between municipal government and business. Mr. Rhodes recommended that Council allow the Brampton Downtown Development Corporation (BDDC) to comment further on the proposed advisory committee.

(See Delegation Item G 2)

Regional Councillor Miles requested that she provide an overview of the subject matter. Councillor Miles indicated that the proposed advisory committee mandate was established through a consultative process, including participation of 32 agencies. The purpose of this process was to establish best practises and review pros and cons of potential models.

Councillor Miles noted that everyone present during the consultation process felt that the governance structure was good and agreed that the City of Brampton must strengthen the downtown core, facilitate the development of new business and clearly define roles and responsibilities of those members contributing to the economic development of the City.

Councillor Miles noted the recommended structure and indicated the need for:

- A committee which blends public and private input, including business leaders, academia, and Council
- Incorporating knowledge and expertise to focus on attracting and retaining business in the vital central corridor in Brampton
- Integrating input from the Brampton Downtown Development Corporation (BDDC)

Minutes City Council

- A stream-lined approach to Advisory Committee approvals i.e. through the Committee of Council
- Communication of the Advisory Committee's plan and to align multi-year plans with budget considerations
- Removing duplication, by way of replacing existing committees with the proposed advisory body

Council discussed the following:

- The advantages associated with the proposed model
- The need to move forward with the report swiftly, as it is Council's responsibility is to be responsive to the economic needs of the community
- The boundaries of the Queen Street Corridor within this new advisory committee model and the mandate of the Downtown and Queen Street Corridor Steering Committee
- Member composition of the proposed committee
- Administrative matters regarding the new committee i.e. staffing impacts and budget considerations
- How members are appointed to Committees i.e. role of the Citizen Interview Committee and appointments

Staff confirmed that the BDDC was presented with, and responded to the report on the proposed committee when it was circulated during the consultation process. Council further noted that it is sensitive to needs of BDDC but must move towards approval of the mandate of the proposed committee.

Commissioner Cutajar clarified the proposed member composition of the Committee, noting that the composition would provide 3 seats to represent the downtown core. In response to questions from Council with respect to the appointment of members to the Committee, Commissioner Cutajar indicated that former committees have blended processes of citizen selection and appointments. He recommended that the Chair and Vice-Chair of the proposed committee select the appropriate recruitment process.

Commissioner Cutajar also responded to questions respecting staffing impacts for the new committee. He advised that the current staffing complement will manage proposed committee requirements and if additional needs are to develop, a report to Council through the budget process would be brought forward.

Regional Councillor Moore requested that the matter be referred to the Committee of Council so as to permit additional time for the BDDC to comment on the proposed governance, mandate and functions of the Economic Development Advisory Committee.

- The BBT is a strong proponent for further downtown revitalization
- Suggested that Council should immediately engage in the RFP, as further delaying the matter would create risk that nothing will be done in the downtown
- The project should be cost effective and utilize best practises
- No objection to the City's Preferred Respondent: Dominus Construction Group
- Expressed concerns with respect to the cost of the project
- Encouraged the City to ensure minimal impact to taxpayers

2. Mr. Christopher Bejnar, Howland Crescent, Brampton Resident

Mr. Bejnar requested that Council permit additional time for the delegation. Council permitted the additional time.

Mr. Bejnar highlighted concerns and opinion with respect to the following:

- The competitive dialogue process used
- The use of a Fairness Advisor, as consultant who also recommended the process to the City
- Lack of openness and transparency in the RFP process
- The circumstances surrounding the disqualification of one of the bidders on the project
- Key elements of the RFP not being addressed
- The buildings proposed are only of an "average" quality
- The quoted cost per square foot of the proposed Phase 1
- Discrepancies in interest and borrowing rates as quoted by the City
- How the proposals were scored
- The below-average quality of proposal submitted by Morguard
- The credentials and qualifications of the Preferred Respondent, Dominus
- Potential Conflicts of Interest with regard to election campaign donations associated with the Preferred Respondent
- Lack of public involvement in the process

Minutes City Council

Mr. Bejnar requested that Council defer the matter to permit the opening of all three (3) proposals to public comment and input.

3. Mr. J. Douglas Bryden, Brampton Resident

Mr. Bryden appeared before Council and indicated that he was disappointed with the recommended proposal. Mr. Bryden advised Council that he has spent his career working as a project manager for major municipal developments, reiterating his dissatisfaction with the proposal.

Mr. Bryden noted that he provided advice to one of the respondents. Mr. Peter Fay, City Clerk, recapped his earlier statement with respect to respondents and/or their agents of representatives delegating to Council. Mr. Colin Grant, City Solicitor and Mayor Fennell indicated that it was up to his discretion as whether to continue to address Council.

Mr. Bryden advised that he wished to continue. He highlighted the following:

- RFP was new and complex thus discouraging developers from bidding
- Proposal extends beyond the Southwest Quadrant of the downtown which was not the original intention of the project
- The proposed pedestrian walkway from existing City Hall to the proposed new section and the proposed library situated mid-block on George Street prevents comprehensive redevelopment of the downtown
- The proposed phases, as noted as a 5-minute walk from existing City Hall is outside recognized downtown core
- Estimated cost of the first phase is very high and the City's financial arrangements require more explanation
- The proposal does not provide optimal additional parking
- The proposed project compromises future downtown development
- No mention of the cost and design of floodplain requirements
- The recommendation should be deferred for 30 days to allow for analysis and public opinion or call another RFP

4. Mr. Don Naylor, Landscape Architect and Business Owner, Don Naylor and Associates Inc, 245 Main Street North

Mr. Naylor indicated that he was speaking as Chair of the Brampton Downtown Development Corporation (BCDDC) and downtown business owner and requested that Council permit additional time for the delegation. Council permitted the additional time.

Mr. Naylor thanked the Evaluation Steering Team for their professionalism and dedication in the execution of the project.

Mr. Naylor indicated that he recognizes the merits of the proposal and supports it. He further noted:

- Trusts the City's judgement in the use of the competitive dialogue process
- The City is fortunate to have received this calibre of proposal, citing the achievements of the architects connected to the Preferred Respondent
- It is positive that expropriation will not have to take place
- It is positive that urban renewal will be spread throughout the downtown and provide opportunities for businesses to expand
- The proposal will support a friendly walking environment which is an important renewal opportunity
- New and heritage architecture will be a unique signature of the downtown core

Mr. Naylor requested that the Evaluation Steering Team clarify the following:

- Estimated cost per square foot for subsequent phases including parking
- Total net gain of parking spaces
- Any restrictions on adjacent land owners from developing their properties in concert with the proposal or with other parties
- Commitment to delivering the complete project in a timely fashion
- Any safeguards in place for a fixed financial plan

The delegation indicated that the following should happen in conjunction with the development:

- Flood protection plans
- Secure approval for Secondary Plan for the downtown
- Meet province's goal for intensification
- Move new condominium applications forward

5. Mr. Edwin G. Upenieks, Partner, Lawrence Lawrence Stevenson LLP, 43 Queen Street West

Mr. Edwin G. Upenieks commended the staff project team. He further indicated that he supports the proposal and believes that this is a very exciting opportunity for the City of Brampton. He added that Council should seize the opportunity before it and approve the recommendation.

**Minutes
City Council**

6. Mr. Michael J. Luchenski, Partner, Lawrence Lawrence Stevenson LLP, 43 Queen Street West

Mr. Luchenski indicated that he was present to speak on behalf of the downtown law firm Lawrences, located on Queen Street.

The following was highlighted in Mr. Luchenski's delegation:

- Pleased that the proposal does not threaten expropriation of downtown properties
- Identified benefits of the proposal, including:
 - Meets administrative space requirements
 - Land already owned by the City would be redeveloped
 - Not utilizing valuable leasable land
 - The private property rights of those already invested in the downtown would be protected
- Commented on the RFP process, noting that the selected respondent will meet the objectives as set out in the RFP
- Execution of the RFP was completed with the highest standards of professionalism and conduct
- Commented on the estimated cost of the project, noting that the construction cost is the purchase price and the balance is related to the occupancy and maintenance costs and to debt servicing
- Noted that the cost per square foot appears to be reasonable and projected annual cost that is subject to negotiation
- Identified the project as creative and exciting and urged Council to move forward with it

7. Ms. Susan Laberge, Brampton Resident

Ms. Laberge noted the following:

- The plan is too elaborate
- A new building on George Street with a pedestrian walkway to City Hall would be sensible but all other proposed development is excessive
- Taxpayers are unable to support an extra tax burden which the project would impose
- Suggested that Council entice a grocery chain to locate in the downtown

8. Mr. Gregory Schwarze, Business Owner, We Love Tennis

On a unanimous vote, the Approval of the Agenda was opened and Mr. Schwarze was added as a delegation.

Minutes City Council

Mr. Schwarze advised that he has met many retailers since the opening of his business and trusts that the proposed project will be beneficial for all downtown businesses.

The following motion was considered:

C044-2011 Moved by City Councillor Dhillon

2. Mr. Christopher Bejnar, Howland Crescent, Brampton Resident

Carried

Council asked questions of staff and provided the following comments during discussion:

- Requested clarification on the financing of the project, in particular the questions raised by Mr. Bejnar, pertaining to costs per square foot and rates of return
- Cost differences in the City financing the project versus an external partner providing financing
- The number of information packages picked up by potential respondents
- Whether staff have consulted with Conservation Authorities, re: flood proofing requirements

Minutes City Council

- The degree of flexibility in entertaining the proposed subsequent phases with the same developer
- Whether decisions made now would bind future Council decision-making
- The cost of staff time to compile and execute the RFP
- Any penalties associated with not entertaining the development of subsequent phases after the completion of Phase 1
- Concerns whether the proposed pedestrian walkway in Phase 1 would obstruct roadway activity
- Whether consideration has been given to development of an underground path system
- Request for number of net new parking spaces, by phase and total for all phases
- Opportunities for downtown businesses to further develop
- The role that Council would play in making design changes to the proposed developments
- The possibility of establishing a steering committee, like in other large scale projects entertained by the City
- Construction costs as proposed in 2009 versus current costs
- Clarification with respect to “expiry” dates on the time the property can be acquired by the Preferred Respondent to develop
- Potential benefits to the City in selling property instead of developing it
- Election campaign contributions and potential Conflicts of Interest
- Timelines for Phase 1

Some concerns were identified, including the following:

- Disappointment that the proposal failed to provide a “signature” building
- Affordability of the project
- The non-traditional approach taken to entertain the RFP process and implications associated with the process
- The current proposal divides the block on Queen Street, segregating sections of the downtown
- To have a Fairness Advisor, both recommend and evaluate the RFP process
- Lack of transparency and public input
- High costs for Phase 1 could impact funding available for subsequent phases

Some Members of Council indicated that more time should be provided to effectively assess the proposal, ensure all pertinent questions are answered and to further investigate the qualifications of the Preferred Respondent.

Minutes City Council

Some Members of Council indicated that they were very satisfied with the proposal, noting that it provided four areas of development/redevelopment, not just one. It was suggested that the proposal would be very beneficial to downtown revitalization and private sector involvement. Further, Council Members in support of the proposal indicated that City Staff had provided all information Council had requested and would provide further options for viable financing of the project. A preference was stated for minimal to no tax increase to fund the project.

Staff provided the following information in response to questions from Council:

- A breakdown of costs related to pricing per square footage
- Rates of Return on investment would be safe and modest based on the proposed financing arrangements
- Clarified that both respondents were deemed to have the financial and technical capacities to execute the project based on a series of tests and requirements each had to meet
- A Fairness Advisor was used, as the procurement process was new to the City
- Advised that Council, in earlier discussions, approved the new procurement process which was used
- Acknowledged that flood proofing requirements would be addressed satisfactorily
- In approving the recommendation, Council would be signalling to the preferred respondent that all phases would be pursued and Council would determine the timing of the phases
- There would be some “fit-up” costs associated with the development but it would be executed to City specifications
- Clarified that the drawings presented by both respondents were conceptual only
- Clarified the amount of parking spaces proposed and cost of construction
- Competitive Dialogue process addressed the objectives set-out by Council and one of few options available based on requirements as stipulated by Council
- The difference in costs proposed in 2009 versus current costs attributed to incorporation of amenities not proposed in 2009
- The opportunity for other downtown land owners to develop their properties and possibilities to partner with the Preferred Respondent
- The confidential nature of the Respondent’s timelines for acquisition of property
- Staff confirmed that legal and confidentiality agreements have been signed by all parties required to do so, and by all accounts, all parties have complied with the agreements

**Minutes
City Council**

- Council will be provided the opportunity to make further decisions on the project, as it proceeds in keeping with the approved procurement process
- Staff would establish a workplan and milestones for execution of the project and report to Council accordingly

Staff advised that the City has not, at this point, entered into any contracts. The contracts need to be negotiated, then those contracts would come back to Council for approval, then negotiation on subsequent phases, including cost and timelines, would be addressed.

Regional Councillor Moore indicated that she would like to put forward a motion of deferral so as to permit additional time for clarification of the proposal and to allow Council to gauge public input on the project.

The following motion was put forward, voted on, and lost:

*C045-2011 Moved by Regional Councillor Moore
Lost Seconded by Regional Councillor Sanderson*

*That the report dated March 21, 2011, re: **Southwest Quadrant Renewal Plan, Request for Proposal (RFP) 2009-072, Final Evaluation Document of the Evaluation Steering Committee (Part 1) and Staff Report on Corporate Implications (Part 2)**, be deferred to a future Regular Council Meeting, not prior to April 27, 2011.*

4. That although the first lease-to-own payment will not be made by the City until 2014, that, during the 2012 budget process, City staff present options for Council's consideration on the manner in which this significant investment in Downtown Brampton will be financed in the context of the City's financial capacity, the long-term Funding Strategy and other Council service priorities.

Staff indicated that cost savings have been looked at but currently there are not any operational efficiencies studies underway.

- E 3 Mr. Peter Kuipers appeared before Council and indicated that, as a real estate agent, he is of the opinion that Council should defer the recommendations before them, as to permit more time for understanding the details of the project proposed.

CW096-2011

1. That the report from W. Hunter, Manager of Administrative Services and Elections, Corporate Services, dated February 18, 2011, to the Committee of Council Meeting of March 2, 2011, re: **Response to Proposed Integrated Accessibility Regulation** (File G25) be received; and,
2. That the following comments be submitted to the Ministry of Community and Social Services on behalf of the City of Brampton:

Harmonization

Efforts made to harmonize the three standards and the streamlining of requirements for the Information and Communication and Employment requirements are appreciated. The draft Regulation eliminates some of the need to duplicate efforts related to policy development and training.

In some areas, such as training, there are still inconsistencies and conflicts with timing of training deadlines and compliance requirements. New conflicts have also been introduced with respect to the filing and updating of accessibility plans and this is of particular concern for accessible transportation.

As the final standard, the Accessible Built Environment Standard, is still outstanding, duplicated costs and efforts for policy development and training will still be present.

Continued and ongoing harmonization efforts are needed prior to implementation to address the impact of all the standards, including the final Built Environment Accessibility Standard and other current provincially legislated requirements.

Costing

The cumulative cost impact to implement the standards has remained unaddressed. Assessing the feasibility of implementing the requirements is difficult when the cost to do so is not defined. A thorough cost analysis is needed so that municipalities can balance the cumulative impact of all the provincial requirements with local needs and commitments.

Addressing local needs and priorities

The proposed Regulation requirements and implementation timeframes are very prescriptive. The broad brush, province-wide approach being proposed provides for little or no flexibility in allowing municipalities to identify, prioritize and address local needs. There is no room for "made in the community" solutions to ensure a more planned and cost effective approach to creating an accessible environment.

Implementation and compliance with specific requirements is possible if communities have the opportunity to prioritize implementation in response to the needs of people with disabilities living there and based on their capacities.

Planning and Implementation Timelines

As proposed, the implementation timelines are front-end loaded with the bulk of the municipal requirements to be implemented in the next 10 years. Many of the proposed requirements would have to be implemented within the next 4 year planning cycle (2011 - 2014).

These aggressive timelines do not take into consideration or account for commitments that municipalities may have made as part of their short and longer term planning processes. Many municipalities have already approved, or are in the process of approving, Capital and Operating budgets for 2011.

When the AODA was first introduced and enacted, the Premier of Ontario assured municipalities that they would have appropriate time to implement and fund the standards. He committed to an "accessible" Ontario by 2025 not 2020.

The implementation timelines need to be set out so as to allow full utilization of the next 15 years. Spreading out the implementation over the longer time frame will allow municipalities to utilize business planning cycles, maximize their human and financial resource capacities and provide opportunities to utilize lessons learned from the Ontario Public Service as they implement the standards.

Funding

Municipalities already have a great deal of difficulty funding their current infrastructure requirements and actively seek financial assistance from other levels of government. Implementation of the proposed Regulation will add increased financial pressure to an

already significantly strained property tax base. For some municipalities the impact of these costs is more likely to result in the discontinuation of services offered and deeper service cuts.

Provincial funding to assist with implementation of all standards is imperative.

Compliance

Dates for compliance and fines and penalties for non-compliance have been clearly spelled out. The issues of how non-compliance will be dealt with and who will be responsible for enforcing non-compliance have not been addressed.

It appears the Province's intent to work in the spirit of cooperation with municipalities to achieve accessibility and compliance has been withdrawn, particularly in the area of accessible transportation.

This leaves municipalities in a very vulnerable position of facing potentially heavy fines and possibly having to redirect valuable and limited resources away from addressing accessibility needs. In some cases this approach may lead to service level and program cuts.

Note: This item was added at Approval of the Agenda. **See Resolution C101-2011**

Council asked staff whether it would be possible to meet with those individuals appealing to the OMB in regard to By-law 109-2011, to ascertain their concerns and specific interests. Council further inquired as to whether this process could be completed in a two-week timeframe.

Mr. D. Kraszewski, Director of Development Services, Planning, Design and Development, indicated that it would not be possible to meet with all appellants in the suggested timeframe. He advised that information with respect to the appellants' concerns are contained on individual OMB appeal forms. Mr. Kraszewski agreed to provide Council with a summary of appellant concerns.

Council suggested that a communications strategy be developed.

Mr. J. Patteson, Commissioner of Buildings and Property Management, Acting City Manager, clarified that the City's Corporate Communications staff has published a fact sheet to the City of Brampton website which provides clarification on this matter.

Mr. D. Kraszewski, Director of Development Services, Planning, Design and Development, noted that he could contact the ethnic media if requested.

Whereas Kathy Zammit joined the City of Brampton in May 1991, as a Deputy Clerk, enthusiastic and eager to take on new opportunities facing a progressive and growing city, after having had a distinguished career with the City of Mississauga; and

Whereas Kathy was immediately recognized as an emerging leader within the City who possessed a "get things done" attitude to work and an honest, fun and caring approach when dealing with Members of Council, employees and the public, resulting in her subsequent promotions to the role of Manager of Administration, followed by Director of Council and Administrative Services and Acting City Clerk in December 2000, and then her official appointment to the position of City Clerk in February 2006; and

Whereas Kathy's effective and extraordinary leadership skills and value to the City was further recognized in October 2008, when she was promoted to the position of Commissioner of Corporate Services, leading a new Department of more than 170 staff with responsibility in the areas of Enforcement and By-law Services, Legal Services and Council and Administrative Services; and

Whereas Kathy is a model civic leader, fair to everyone she deals with, dedicated in her work ethic, involved in her community, determined in her will to overcome obstacles, always consistent in her approach and

practical in finding solutions, who has developed the confidence and trust of Members of Council, as well as City management and union staff alike, and is respected by all who deal with her; and

Whereas Kathy has served seven different Councils in the City of Brampton, including 33 different Members of Council, with exceptional integrity, skill, experience and balance; and

Whereas Kathy's achievements in the City are too many to list but which have all left an endearing and enduring positive imprint and legacy on this City and the Corporation; and

Whereas Kathy has now decided to leave the City to, as she puts it, "trade in her dress shoes for topsiders" to spend more time with her husband Chris enjoying their boat up north and travelling; and

Whereas Kathy leaves this City a much richer place after 20 years of public service with a legacy of great processes and good people to continue serving this City; and

Whereas Kathy is the consummate professional leader, trusted advisor, fair and balanced administrator, honest and effective City Clerk, and friend and colleague to so many Brampton citizens, employees and Members of Council;

Therefore be it resolved that Brampton City Council does hereby express its sincere appreciation and thanks to Kathy Zammit for her exceptional career serving the City of Brampton and extends its heartfelt best wishes to Kathy as she retires and seeks out new adventures in life.

G. Delegations

- G 1 Delegations from the following, re: **Review of Fireworks By-law 147-2006** (File G02).
- a. Mr. Colin Kelly, Member of the Canadian Pyrotechnics Council and employee of Mystical Fireworks appeared before Council and highlighted the following:
 - Display and consumer fireworks fall under vastly difference categories
 - Extensive training and expertise are required for supervised shows
 - Consumer fireworks do not require as much technical training
 - Consumer fireworks designed and approved with the “occasional” user in mind
 - Requiring the general public to hold a license to use fireworks would be very time consuming, taking up to three years to complete a course and would therefore be an “excessive decision” by Council
 - Council would have to consider insurance costs to the fireworks user, if the general public would require a license
 - Promotion of safety and awareness of consumer fireworks should be undertaken, not making fireworks illegal or imposing strict conditions of their use

 - b. Mr. Lovedeep Grewal, Resident and Business Owner, 49 Hillcrest Avenue, Phatboy Fireworks appeared before Council and made the following remarks:
 - If the by-law is passed as proposed, he would be out of a job
 - Insurance costs would be high and training would be lengthy if the general public was required to be licensed
 - Street parties and celebrations would decline
 - Convenience stores which sell fireworks would lose money
 - Several communities have indicated that they are willing to sign a petition in support of not changing the by-law
 - Fireworks bring families together and the proposed by-law changes are excessive

 - c. Mark Phillips, Member of the Canadian Pyrotechnics Council, Trenton, Ontario, appeared before Council and highlighted the following:
 - Residents enjoy fireworks
 - Every neighbouring city of Brampton in the Greater Toronto Area permits the sale and use of fireworks less regulated than what the City of Brampton is proposing
 - Some cities permit year-round sale of fireworks
 - Council could consider regulations to be met by the public prior to the sale of the fireworks to them

**Minutes
City Council**

- Requiring the use of a licensed fireworks supervisor to set off fireworks would be equivalent to the ban of fireworks
 - It is unlikely that the average fireworks user would pay a large sum of money to hire a licensed fireworks supervisor to set off a minimum amount of fireworks
 - Approximately 25 fireworks supervisors are trained per year in Canada – it would be unreasonable to locate licensed supervisors to support setting off fireworks in a City the size of Brampton
 - Offered to work with Council to find better solutions to the City's concerns
 - Encouraged Council to keep the Canadian tradition alive and permit the use of fireworks unchanged
- d. Robyn Ferris appeared before Council and noted that she was in attendance to speak on behalf of the President of the Canadian Fireworks Association, Mr. Bill Raynault. Ms. Ferris noted the following in her delegation:
- Encouraged Council to maintain the “status quo” and not amend the by-law
 - Suggested that retailer and consumer education become priority
 - Suggested the use of a permit system, whereby consumers complete a “permit” prior to the purchase of fireworks and provide the document to the retailer

The following motion was considered:

C124-2011 Moved by City Councillor Gibson
Seconded by Regional Councillor Moore

- G 1 That the Delegations from the following, re: **Review of Fireworks By-law 147-2006** (File G02), to the Council Meeting of June 22, 2011 be received:
- a. Colin Kelly, Member of the Canadian Pyrotechnics Council
 - b. Lovedeep Grewal, Resident and Business Owner, 49 Hillcrest Avenue, Phatboy Fireworks
 - c. Mark Phillips, Member of the Canadian Pyrotechnics Council, Trenton, Ontario
 - d. Robyn Ferris, on behalf of the President of the Canadian Fireworks Association.

Carried

- G 2 Delegation from Charles Harnick Counsel Public Affairs Inc., on behalf of Bhulesh and Chuck Lodhia, Developer, Hilton Garden Inn located at 2648 Steeles Avenue East, re: **Item I 6-4 – Draft Amended Roads Development Charges By-law to Extend the Industrial and Office Development Charge Discount** (File F16-2011)

(See Report Item I 6-4)

Note: The above noted item was received by the City Clerk's Office after the agenda was printed and circulated, and was considered by the Committee in accordance with Procedure By-law 160-2004, as amended.

Mr. Harnick provided background information, noting that before his clients entertained a building permit, the City of Brampton entered into a Development Charge Deferral Agreement and were advised that that there may be a development charge discount available to them. He noted that the staff report has now come forward and suggests that the City recommends discounts for hotels locating in the central core. Mr. Harnick requested that in the spirit of the agreement with his clients, if discounts were provided to hotels, then Hilton Garden Inn should be included.

Mr. Harnick advised that development charges are based on 100% hotel occupancy and that the City should strive to find a development charge which reflects the use of the hotel. Mr. Harnick urged Council to provide support to his clients.

Council discussion included the following:

- Extension of the Deferral Agreement with Hilton Garden Inn
- Charges paid to the Region and School Boards
- Comparison summary of development charges with comparable municipalities
- Incentives and the status of attracting hotels to locate in the central corridor
- The potential impact on other city business if incentives are provided to hotels

M. Lewis, Commissioner of Financial and Information Services and Treasurer, provided clarification with respect to the two matters addressed in the staff report. He noted that that Industrial and Office discount is renewed on an annual basis and this matter has been supported by the development industry. The second matter addresses hotel discounts – which have not been offered in the past. The City conducted a review on

a possible incentive for hotels city-wide. It has been recommended, however, that a hotel discount not be offered city-wide.

Mr. Lewis further advised that Council should give consideration to use the mechanism offered in the Development Charges Incentive Program (DCIP) rather than using a Development Charges (DC) discount.

In response to questions from Council, M. Lewis, Commissioner of Financial and Information Services and Treasurer, indicated that the City of Brampton's DC rates differ from neighbouring municipalities as the City of Brampton is in a different growth cycle. M. Lewis also provided further clarification with respect to the recommendations contained in the staff report.

G. Delegations

- G 1 Delegations from the following , re: **9 Wellington Street West Heritage Impact Assessment – Ward 4.**

a. Paul Willoughby, Co-Chair, Brampton Heritage Board

**Minutes
City Council**

- b. Paul Dilse, Heritage Planning Consultant
- c. Heather M. Picken, Solicitor for Myrtle Freed – Owner of 9 Wellington Street West, Lawrences LLP

(See Item I 8-6 and Item J 1)

Note: Ms. Picken requested to speak last. Council permitted her request. Items (a) and (b) were received by the City Clerk's Office after the agenda was printed and circulated, and were considered by the Committee in accordance with Procedure By-law 160-2004, as amended.

- a. Paul Willoughby, Co-Chair, Brampton Heritage Board

Mr. Willoughby requested that Council permit additional time for the delegation. Council permitted the additional time.

Mr. Willoughby appeared before Council and indicated that he was present on behalf of the Brampton Heritage Board and noted that the Board is of the position that the house in question should not be demolished, advising that the property does have historic value and that Council has listed the property as having historic value. He suggested that Council designate the property under the Ontario Heritage Act. Mr. Willoughby stated that the proposed memorial garden for the site would not be suited for the site. Mr. Willoughby provided the following reasons as to why the house should be preserved:

- In 1924, the lot was purchased by Thomas B. Coombs, first Commissioner of the Salvation Army in Canada, noting that the Coombs were a well-established Brampton family
- The house is a well-preserved representation of the Dutch Revival style and one of the few remaining examples in the City of Brampton
- The house is in excellent condition
- The subject house was the first house built on the block and has unique features, including a back lane
- The property adds to the prevailing character of the streetscape and has been recognized as a long-established streetscape
- Too many older homes in Brampton are eliminated due to accidental loss; purposeful demolition should be discouraged
- Removing the house to create a park lot is fabricating history – retaining the house helps tell a story of Alderlea and downtown Brampton
- Concerns that the City will set a new precedent to demolish long-standing homes in downtown Brampton
- Concerns with respect to the maintenance of the proposed memorial garden
- Concerns about the use of the property in the future

Minutes City Council

- Concerns with respect to the views of the Alderlea site
- Concerns with respect to the Main Street South conservation district values and how this decision would be contrary to those values

Mr. Willoughby advised that the Heritage Board did not support the demolition of 11 Wellington Street West, as this demolition created a gap in the streetscape and does not support the demolition of 9 Wellington Street West and requested that the City initiate the heritage designation process.

b. Paul Dilse, Heritage Planning Consultant

Mr. Dilse, Heritage Planning Consultant, appeared before Council and indicated that since 2000 he has collected historical information of the City's heritage inventory, completing 7 Heritage Impact Assessments (HIAs) in Brampton. It was noted that between 2005-2009, Mr. Dilse identified perspective conservation districts in the City. Well before the Freed family (property owners of 9 Wellington Street West) had requested an HIA, properties numbered 9, 11, 15, 17, and 19 Wellington Street West were excluded from the perspective heritage district because the streetscape had a different character.

Mr. Dilse provided a brief background on the history of 11 Wellington Street West, which is also owned by the Freed family. The HIA determined at the time that the house did not merit heritage designation and it was suggested to the Brampton Heritage Board that based on the similarities between numbers 11 and 9 Wellington Street West that 9 Wellington West would unlikely be designated.

Mr. Dilse noted that in the assessment of 9 Wellington Street West he applied the criteria outlined by the province in the Ontario Heritage Toolkit as to whether it merits designation. Mr. Dilse completed a report, dated June 3, 2011, which contained the following findings:

- Detailed historical research does not meet any of the provincial criteria to identify 9 Wellington Street West as a significant heritage building
- Under the Ontario Heritage Act, the house would not represent a loss, and the garden proposed to fill the lot would be value added to the downtown
- The Dutch Revival style of the home is not especially distinguished and there are other examples in the downtown
- View of Alderlea site would be widened with the demolition of 9 Wellington Street West and the design of the garden
- A brief description of the families that previously owned the property, noting that their contributions to Brampton were moderate
- The subject property is isolated from other houses on the street, therefore not a complete streetscape at this time

**Minutes
City Council**

- c. Heather M. Picken, Solicitor for Myrtle Freed – Owner of 9 Wellington Street West, Lawrences LLP

Ms. Picken appeared before Council and noted that she was present to speak on behalf of Myrtle Freed and her family, the property owners of 9 Wellington Street. She noted that her client is requesting a demolition permit for 9 Wellington Street West to install a memorial garden on the lots from both 9 and 11 Wellington Street West. Ms. Picken advised that the subject property was listed on the City of Brampton Register of Cultural Heritage Resources to provide time to ensure heritage due diligence. Once a leading heritage expert was retained, it was determined that the subject property does not have heritage value under the Ontario Heritage Act and recommends that the house could be demolished. The Heritage Board disagrees with the opinion of the heritage expert and with City staff, who also recommend that a demolition permit could be issued.

Ms. Picken noted that her client is disappointed with the opinion of the Heritage Board and also noted the some of the concerns expressed by the Heritage Board, suggesting that such concerns are not warranted.

Ms. Picken ended her submission to Council, advising that the house at 9 Wellington Street West has insufficient heritage attributes to be designated. If the final outcome is not to support staff's recommendation to allow a permit for demolition, then her client's legal property rights have been infringed upon.

The following motion was considered:

- C148-2011 Moved by Regional Councillor Sanderson
Seconded by City Councillor Callahan

That the Delegations from the following, to the Council Meeting of July 13, 2011, re: **9 Wellington Street West Heritage Impact Assessment – Ward 4** be received:

Minutes City Council

Mr. Lewis's portion of the presentation "Value for Money – A Financial Overview" included the following topics:

- How the city will pay for the project
- Partner responsibilities
- City costs – effective 2014
- Funding options
- Recommended option
- 2011 Capital Budget funding sources
- Benefits of recommended funding option
- Project financing summary – City obligations (one-time costs) and annual costs starting in 2014
- Value for money overview
- Partnership activities – Phases 2 and 3
- Long-term economic impact
- Next steps
- Dominus solution and conceptual design – image and specifications provided

Mr. Peter Fay, City Clerk, Corporate Services, provided a brief overview of the applicable sections of the City's Procedure By-law 160-2004, as amended, with respect to delegations.

Delegations were invited to address Council at this time.

- i. Mr. Peter VanSickle, President, Brampton Downtown Development Corporation (BDDC) appeared before Council and indicated that a representative from the BDDC appeared before Council on March 28, 2011 when the matter of the Southwest Quadrant Renewal Plan was before Council. He noted that at that time, the BDDC supported expansion and indicated that their position is consistent and they support the momentum as directed in the staff report. Mr. VanSickle noted that the project cost proposed falls within industry norms and staff have successfully recognized and addressed the commitment from the preferred respondent – Dominus Construction Group, in the associated staff report.

Mr. VanSickle advised Council that Dominus Construction Group has indicated its willingness to meet with all adjacent property owners to discuss cross-easements for the free flow of customers in the downtown. Mr. VanSickle offered the assistance of the BDDC in this process, if required.

Council asked questions of the delegation pertaining to the following:

- Whether the matter of the Southwest Quadrant Renewal Plan was brought forward at the Annual General Meeting of the BDDC
- The amount of funding the BDDC receives from the City and whether this had any influence on their position

Minutes City Council

- Facilitation of conversations by City's partner with adjacent landowners for other development opportunities
- Potential inconveniences caused by the construction of the project
- Whether the BDDC was made aware of the potential issues regarding soil remediation

Mr. VanSickle advised Council that he was in attendance at this Council meeting to support the investment for the revitalization for the downtown.

Staff provided clarification on the estimated costs for environmental remediation, noting that \$500,000 has been incorporated in the financial plan for this process.

- ii. Mr. Stephen Rhodes, President, Brampton Board of Trade (BBT) appeared before Council and indicated that at the March 28, 2011 meeting about the same matter, the BBT attended and supported the plan contingent upon the proposal being cost effective and the process transparent. Mr. Rhodes noted that the BBT did not receive a response from the City, when it inquired about cost per square foot of the project, the Request for Proposal (RFP) process and other related matters. Mr. Rhodes requested that the matter be deferred until September.

Ms. Dubenofsky, City Manager, advised that the City did provide a response to the Brampton Board of Trade, noting that information provided at today's meeting further clarifies questions raised.

- iii. Chris Bejnar, Brampton Resident, requested that Council permit additional time for the delegation. Additional time for the delegation was approved by a majority vote of Council.

Mr. Bejnar indicated that he was disappointed that the decision regarding the Southwest Quadrant Renewal Plan would be made during the summer season. Mr. Bejnar noted the following in his submission to Council:

- The plan:
 - does not redevelop the downtown
 - does not take design into account
 - scatters office amenities
 - does not benefit residents
 - is too expensive
- concerns with respect to information requests for square footage construction costs and parking component costs
- concerns with respect to soil remediation
- discussion about the City's borrowing rates

Minutes City Council

- competitive dialogue process has been a complete failure

Staff provided the differences in parking garage construction costs for comparable municipalities. Clarification was also provided with respect to Dominus' responsibilities, including all proprietary costs (i.e. all construction costs, including escalation and labour costs etc.) It was further noted that to aggregate potential costs or hypothesize on any one component cost of the project is misleading. It was highlighted that the City is responsible for occupancy costs and the risk of other costs are the responsibility of Dominus.

The delegation began speaking about matters not before Council at the meeting. Mayor Fennell brought the delegation to order and requested the delegation speak to the agenda item before Council.

The following motion was considered:

C158-2011 Moved by Regional Councillor Miles
Seconded by Regional Councillor Hames

That the staff presentation from D. Dubenofsky, City Manager and J. Patteson, Commissioner of Buildings and Property Management and M. Carried

Report Item I 7-4 was brought forward and dealt with at this time.

Council discussion included the following areas:

- Project Costs
 - parking garage construction costs
 - borrowing rates
 - fixed term costs
 - comparison of unrelated constructions costs with other projects, and need to consider such on a case-by-case basis
 - differences between occupancy costs and construction costs
 - the break fee and inclusion in RFP addendum
 - project cost to taxpayers and need for sustainable downtown revitalization solution
 - the Council approved 1% property tax infrastructure levy and which projects the revenue will fund
 - administrative costs (i.e. staff labour, consultants, etc.) to execute project planning and procurement delivery
- Risks to the City
 - interest rates and interest rate fluctuations
 - risks to City and risks to Dominus Construction Group
 - history of environmental remediation on sites scheduled for redevelopment
 - construction risk, financing risk and the omission of references to management and legal risk
 - lawsuit launched by Brampton developer
 - a building proposal as opposed to a quadrant renewal
 - factors considered by financial institutions for financing options
- Benefits to the City
 - projected net revenue to the City from the planned retail space component
 - success of other downtown projects i.e., Gage Park, Rose Theatre
 - need for departmental Commissioners in one location
 - the competitive dialogue process for the RFP

Minutes City Council

- the fixed price agreement
- support of downtown Brampton revitalization
- Implementation Matters
 - Retail management of the new retail space
 - Dominus role in Phase 1 and 1a construction and/or construction management
 - securing the George Street site by Dominus and the agreement of purchase of sale
 - the timing and development of Phases 2 and 3
 - exclusion of other elements for downtown renewal including a pedestrian mall, transit terminal, ring road, etc.
 - move-in day and penalty costs if not completed in time
 - Toronto and Region Conservation Authority (TRCA) approval for the project
 - additional staffing requirements for the new space
 - use of the City's tax funded capital for funding the plan
 - expropriation requirements for Phase 1 and 1a
- Terms of the Agreement
 - addendums and appendices to the RFP, including the break fee

Staff provided the following information in response to questions from Council:

- annual occupancy cost will be \$8.2 million for 25 years
- the City would be involved in discussion with lenders and Dominus on how to move forward if there was a catastrophic impact to interest rates
- indicated that the interest rates provided to Dominus by lenders were likely determined by a few factors, including the City's AAA credit rating and consideration that occupancy would be by a single tenant
- update about the site conditions for affected lands – remediated twice in the past; indicating it is normal practice for the lessor to be responsible for site conditions, including remediation, prior to conveyance
- the City has the ability to release Phases 2 and 3 any time during the process
- the break fee is a normal industry practice and is tied to Council approval
- administrative costs (i.e. staff labour, consultants, etc.) to execute the planning and delivery of the project up to this point are built into the regular functions and responsibilities of staff (i.e. part of core assignments). Further, the method of procurement chosen for the project did not impact the costs associated with execution of the RFP
- risk has been transferred to the private sector – construction risk, financing risk, management risk and legal risk will be borne by Dominus
- speculated that Dominus would retain a professional firm/experts to manage the retail component of the development

Minutes City Council

- confirmed that the total cost to the City, effective 2014, would amount to \$8.2 million
- the construction sign which will be erected when the work is being completed will note “Dominus Construction Group”
- Mr. Paul Blundy, Partner, Bennett Jones LLP, lawyer for the City of Brampton, advised that Dominus is a construction management contractor and that the construction management function will be performed by Dominus. Further, it was noted that the project will be design-build (design and construction services contracted by a single entity)
- Mr. C. Grant, City Solicitor, confirmed that the City is involved in a lawsuit with Inzola Construction Group, which should not influence Council’s decision on the agreement.
- it was noted that the City’s Process and Fairness Advisor could not prevent legal action against the City
- the George Street site has been secured by Dominus through an agreement of purchase and sale, there are conditions that need to be satisfied and work is underway to close the transaction. In terms of lend and direct agreements, in case of default by Dominus, and at the discretion and decision-making of the City, the City could work with the financial institution and could take over construction of the project and ownership of the assets
- ultimately, risk lies with Dominus, if the job is not completed properly and within the established arrangements; Dominus will be responsible
- addendums to the RFP are issued as part of the RFP – provided to respondents in response to questions of clarification from them.
- honorariums and break fees were contemplated at later stages in the project and referenced in the RFP documents
- the move-in day for the first phase is targeted for January 2014, delay penalties would be charged at \$5000 per day
- the plan to hire 11 new staff to manage building maintenance for the new building
- the Council approved 1% property tax levy of 2010 was implemented to fund other infrastructure projects, not the Southwest Quadrant Renewal Plan
- the City will use tax funded capital to fund the SWQ project. This funding is assigned every year during budget deliberations. The City will not participate in direct external financing for this project
- the City negotiated a 50% share of revenue generated from retail with Dominus. This would amount to net revenue estimated to be approximately \$200,000
- Council is not being asked to sign any contractual agreements at this time regarding Phases 2 and 3. Council will decide the scope and timing of these phases at a later date
- TRCA approval is still a condition to be satisfied, however, meetings to date with the agency have been positive

R. Public Question Period

Mr. Brian Johnston, Brampton Resident, appeared before Council and asked a question with respect to the amendments proposed to Traffic By-law 93-93, as amended (See Report I 9-3). He inquired as to whether motorized scooters are regulated by the City for use on sidewalks, etc. Mr. Johnson asked that restrictions for this type of equipment be taken into consideration. He also asked about laws pertaining to helmet usage.

T. Mulligan, Commissioner of Works and Transportation, advised that motorized scooters are included under the definition of “wheelchair” as contained in Traffic By-law 93-93, as amended, and further noted that a “pedestrian”, as defined in the By-law, includes a person in a wheelchair. Mr. Mulligan clarified that regulations on helmet usage are contained in the Highway Traffic Act and enforceable by police services and not the City of Brampton.

- Barbara Leja-Plaza, 31 Kirkhaven Way, Brampton
- Juanita Celenza, 66 Kirkhaven Way

Ms. Harpreet Biln, 34 Damatta Drive, Brampton, withdrew her delegation before the meeting.

(See Item J 2, Recommendations PDD163-2011, PDD164-2011 and PDD165-2011, pages 5 to 11)

Regional Councillor Palleschi provided an overview of the matter before Council, advising that correspondence from the applicant requested a referral of the matter. He also noted that correspondence received from a resident of the area cited that a referral of the matter would be supported by the community.

Council expressed its support for referring the matter and advised the delegations present that if a motion was put forward to refer the matter then further discussion would not take place at the meeting.

Ms. Leja-Plaza joined by Mr. Latchman Sandu came forward and indicated that they wished to delegate.

Ms. Barbara Leja-Plaza, 31 Kirkhaven Way, Brampton, appeared before Council and noted that she was present on behalf of her neighbours and community. Ms. Leja-Plaza advised Council that she was aware that the developer (Weston Consulting Group Inc.) had submitted correspondence to the City, requesting that additional time be provided for a full consideration of the issues presented. Ms. Leja-Plaza stated that she was “cautiously optimistic” about this request and questioned why the developer did not come forward sooner with the proposition to provide further time for public input.

Ms. Leja-Plaza indicated that representatives from the community were present at the Planning, Design and Development meetings of January 17, 2011 and September 7, 2011 and raised the following key concerns:

- The proposed development is inconsistent with the area

Minutes City Council

- The commercial component is neither wanted nor needed and is supported through existing and planned development
- The impact on the neighbouring elementary school and community park located directly across the street from the subject land
- The impact of increased traffic and congestion and the concern for public safety

Ms. Leja-Plaza maintained that these are still the communities' concerns and advised that the neighbourhood would accept a referral of the matter, only if the developer meets the following conditions:

- No condominium or commercial development
- The withdraw of the current proposal and submission of a revised proposal, consisting of one or a combination of single-detached homes, semi's, of maximum 3-storey executive town homes

Ms. Leja-Plaza asked that Council support this direction to help maintain the health and protect the future of the community.

Ms. Juanita Celenza, 66 Kirkhaven Way, Brampton, appeared before Council and indicated that her position echoes that of Ms. Leja-Plaza's. She noted her opposition to the proposed condominium development, adding that such a building would take away valuable physical space and increase congestion in the area.

Council discussion included:

- Concerns with respect to the amount of time it took for the applicant to respond to resident requests for further discussion on the matter
- Concerns with respect to the proposed development
- The need to have more public input
- Referral of the matter to a future Planning, Design and Development meeting.

Staff advised that if Council directed further public consultation on the matter, then interested persons from the Planning, Design and Development meeting of September 7, 2011 would be contacted. It was requested that if the matter was referred to a future meeting, that it be included on the agenda as the first item of business.

C179-2011 Moved by Regional Councillor Palleschi
Seconded by City Councillor Dhillon

Whereas at the Planning, Design & Development Committee of September 7, 2011, residents raised strong negative concerns about the approval of the development outlined in the recommendation report from Kathy Ash, Manager of Development Services, dated August 18, 2011, re: Recommendation Report Weston Consulting Group Inc. – Radiat Ryaasat Ltd. (File: C04W09.006);

And whereas, the applicant has requested a deferral in a letter dated September 13, 2011 to allow for a full consideration of the issues presented and additional time to consider the comments and suggestions of the residents;

It is therefore resolved that,

1. That the report be **referred** to the October 3, 2011 Planning Design & Development Committee on the condition that the applicant meet with staff, the area Councillors, and representatives of the concerned area residents, to fully explore the concerns of the residents and investigate the potential for improvements to the plan including modifications to the plan as raised by the residents at the September 7, 2011 Planning Design & Development Committee.

- G 2 Delegation from Mike Henry, President, and Hank Verschuren, Parade Commander, Royal Canadian Legion, Branch 15, re: **Remembrance Day Ceremony and Parade.**

(See Report Item H 1)

Note: This item was added at Approval of the Agenda.

Mayor Fennell noted that the purpose of the presentation before Council was to secure endorsement from Council for long-term changes to the format and frequency of the Royal Canadian Legion, Branch 15, Remembrance Day ceremony and parade.

Mr. Hank Verschuren appeared before Council and highlighted the following in the presentation:

- The history of Remembrance Day in Brampton
- The ongoing and changing trends of attendance and parade participation
- Branch 15 Plan for 2011:
 - Remove barriers for participation of veterans including the addition of military jeeps and tanks to carry veterans
 - Commemorate a special year – November 11, 2011 and 145th anniversary of The Lorne Scots (Peel Dufferin and Halton Regiment)
 - Reduce event expenditures

To attain the above, Branch 15 proposed to cancel the established Sunday parade (which has customarily been hosted on the Sunday prior to Remembrance Day) and reallocate resources to the November 11th parade, making it a much larger parade.

Mayor Fennell indicated that she would be pleased to support the proposal and questioned whether the reduction to one parade would be continued from now forward. Mr. Verschuren confirmed that Branch 15 would like to host only one ceremony and parade from this year forward.

- P 1 Discussion at the request of Regional Councillors Hames and Moore, re;
Relocation of Taxi Stand from Downtown Brampton Transit Terminal.

Note: This item was added at Approval of the Agenda.

Regional Councillor Moore advised that this matter was addressed at a recent Taxicab Advisory Committee meeting (September 12, 2011), at which time, members of the taxi industry indicated that the relocation of the taxi stand in downtown Brampton is not favourable. To expedite an investigation by staff, the matter was brought forward today.

Seconded by Regional Councillor Hames

That staff be requested to investigate options for short-term and long-term solutions to address the concerns raised by the taxicab industry regarding the relocation of the taxicab stand at the Downtown Brampton Bus Terminal.

Note: This item was removed from Consent.

Concerns were raised with respect to the following:

- The large discrepancy between total price proposed from the two approved respondents
- The large discrepancy in the amount budgeted for the project versus the recommended bid
- Costs associated with possible contamination of land

Staff provided the following information with respect to the questions raised:

- The amount budgeted for the project was based upon the cost of depositing silt (collected from the stormwater management ponds) into municipal landfill versus the deposit of material on private land
- The lower bid accounts for costs associated with depositing on private land, which is more economical than other options
- Bonds are posted prior to commencement of the project to address unforeseen work – such costs would be borne by the preferred respondent
- Silt will be tested for toxicity levels prior to its disposal

The following motion was considered:

Minutes City Council

Note: This item was removed from Consent.

Regional Councillor Miles requested that the calendar be amended to move the proposed March 19, 2012 Planning, Design and Development Committee meeting to March 26, 2012 at 1:00 p.m. and that the March 21, 2011 Committee of Council be deleted. The amendment was proposed to keep in line with the Region of Peel's recently approved meeting schedule.

Concerns were raised with respect to whether the cancellation of a Committee of Council meeting would impact city business and how delegation requests would be handled.

Mr. P. Fay, City Clerk, Corporate Services, advised that if the amendment carried, then any business tracking for the March 21, 2011 Committee of Council meeting would be brought forward to the following Council meeting. Mr. Fay clarified the Rules of Procedure for how delegation requests are processed, noting that the cancellation of the Committee of Council meeting would not significantly impact business.

Mayor Fennell requested that the proposed August 8, 2011 Council meeting be identified as a Regular meeting and not a Tentative meeting, as historically, Council has met consistently during the month of August.

It was suggested that the recommendation in the staff report be amended as follows:

- (1) move the March 19, 2012 Planning, Design and Development Committee meeting to March 26, 2010 at 1:00 p.m.; and
- (2) delete the March 21, 2012 Committee of Council meeting

Note: This item was removed from Consent.

With respect to the Parks and Recreation component of the Municipal Performance Management report, it was questioned whether costs can be recuperated from area conservation authorities from the naturalization of the City's valley land. Mr. Lowery, Commissioner of Community Services, advised that many initiatives are completed in conjunction with conservation authorities and much of the programming is consistently carried out with conservation authority assistance.

Further, a question arose as to how and where the City's partnerships with external agencies are presented in the Performance Management report document on the city's website. Mr. Lewis, Commissioner of Financial and Information Services and Treasurer, advised that the Performance Management report as published will be how it appears on the website. Mr. Lewis added that with feedback from the Community Services department, further details/comments could be included on the live document, noting external agencies where appropriate.

L. Correspondence

- L 1 Correspondence from The Honourable Donald R. Cameron, Q.C., ADR Chambers, Integrity Commissioner for the City of Brampton, date submitted October 20, 2011, re: **Advice to Mayor Susan Fennell, at her request about the Mayor's Gala and Golf Tournament – Report File No. BIC-08-0711.**

Mayor Fennell thanked The Honourable Donald R. Cameron, Q.C., ADR Chambers, Integrity Commissioner for the City of Brampton, for the review and reports (as listed as Items L 1 and L 2). She noted that she has been cleared of all allegations, and, in both cases, there has been no contravention of legislation or Brampton's Code of Conduct. Mayor Fennell thanked the residents of Brampton who supported her and had confidence in her leadership as these matters were being investigated. She noted that Council must move forward and focus on the work that the Council was elected to do.

Members of Council congratulated Mayor Fennell on the results of the inquiries.

Regional Councillor Miles noted that any Member of Council is vulnerable to reputational harm by unfounded allegations, noting that while the Mayor was under scrutiny, the City suffered the effects.

Regional Councillor Moore raised concerns with respect to the format of the reports. The amount of municipal expertise held by the Integrity Commissioner and how ADR Chambers was selected as the preferred firm were questioned.

Ms. D. Dubenofsky, City Manager, advised that ADR Chambers in an internationally recognized firm composed of retired judges and lawyers who specialize in various areas of law. She noted that this particular subject was not for Council debate, as a previous report was brought to Council recommending The Honourable Donald R. Cameron, Q.C., of ADR Chambers and approved without reservation.

It was further questioned as to whether ADR Chambers employs forensic auditors.

Ms. Dubenofsky recommended that anyone who wished to obtain further information about ADR Chambers should consult the firm's website.

**Minutes
City Council**

City Councillor Callahan noted that he was pleased that, through the process of the inquiries, the City of Brampton further developed the City's Code of Conduct. He began to discuss information provided at a recent Council Workshop and matters relating to the City's Southwest Quadrant Renewal Plan.

Mr. P. Fay, City Clerk, Corporate Services, advised that the matter before Council was the correspondence received from ADR Chambers and not the recent Council Workshop or matters in relation to the approval to move forward with the Southwest Quadrant Renewal Plan.

Regional Councillor Hames requested that Council return to being a cohesive unit and focus on City business.

The following motion was considered:

- C220-2011 Moved by Regional Councillor Miles

- Summary

Regional Councillor Miles, as Chair of Budget Committee, invited Council to comment on the recommendations before them.

Regional Councillor Palleschi thanked staff for preparing and presenting a responsible budget. He requested that Council support him in an amendment to the budget to commit \$1 million into a reserve fund for the redevelopment of the Peel Memorial Hospital site. Councillor Palleschi

reminded Council of its previous pledge to reserve a total of \$60 million for the project, contingent on provincial funding.

Later in the meeting, Mayor Fennell proposed a friendly amendment to Councillor Palleschi's motion to commit an amount equivalent to an additional 1% tax levy in place of \$1 million, but it was subsequently withdrawn.

Council discussion included the following points:

- The need for clarification with respect to clause (11) of the recommendations contained in the staff report, questioning whether the proposed merit increase for City of Brampton non-union staff was contingent upon the Region of Peel and other municipalities undertaking similar measures. Staff indicated the proposed merit increase is contingent upon the Region of Peel funding, as approved during its budget process
- The benefit that additional hospital services would provide to seniors in Brampton and the need to continue to request the Province of Ontario to move forward with the redevelopment
- The reserve fund previously established by Council, its pledge to the project and necessity to start building reserves for the hospital now, as opposed to a large tax increase in the future
- The need to signal to other partners (i.e. Provincial Government) that the City of Brampton is serious about the hospital project
- The potential economic benefits from the hospital redevelopment for the Queen Street corridor
- The need to consider offsetting the additional reserve fund commitment with budget reductions in others areas previously considered by Committee of Council – Budget
- Concern by some Members regarding the timing of the proposed budget amendment and additional budget impact considering other items proposed for approval as part of the 2012 budget
- The redevelopment of the hospital is a provincial responsibility and the Province, at this point, has not fully committed to the process, although a business plan has been prepared and historically hospital re-development has included a local government share of some of the costs
- The possibility of introducing a special tax levy after the annual budget is approved
- Suggestion that the Region of Peel consider an regional tax levy for hospital funding as a hospital would serve the entire region

Commissioner Lewis, Financial and Information Services, provided clarification to Council regarding revised budget figures based on the amendment proposed by Councillor Palleschi, including the different financial impacts of a \$1 million budget increase versus a 1% tax levy increase for a hospital redevelopment reserve fund.

Minutes City Council

In response to questions from Council regarding specific Senior Management Team priorities, if additional tax room was available, Commissioner Lowery, Community Services and Commissioner Mulligan, Works and Transportation, provided information with respect to the differences in costs associated with employment of part-time staff versus contractors.

Ms. D. Dubenofsky, City Manager, acknowledged Council's interest to commit reserve funds for the hospital redevelopment and noted some offsetting measures:

- eliminate the service measure changes proposed at Committee of Council – Budget, which were contingent on sufficient tax room resulting from the Region of Peel budget decisions, as set out in staff recommendations (4) to (11) of staff report Item I 6-2;
- eliminate further consideration of the original mitigation measures, as set out in staff recommendations (12) and (13) of staff report Item I 6-2

Mayor Fennell assumed the Chair from Councillor Miles.

Mayor Fennell called a recess at 4:15 p.m. Council reconvened at 4:33 p.m.

At this time, Mayor Fennell called for the vote on the recommendation to amend clause (11) of the report recommendation.

The following amendment was considered:

C269-2011 Moved by Regional Councillor Moore

Note: Mayor Fennell and City Councillor Callahan declared Conflicts of Interest on this item and left during consideration of this matter. Regional Councillor Palleschi assumed the Chair.

That the 2012 Current Budget and the Property Tax Levy be amended to increase the budget by \$1 million to fund a future City contribution, contingent upon provincial funding, for the redevelopment of the Peel Memorial Hospital, with the funds to be transferred to the Reserve Fund established in 2011 for that purpose and that staff recommendations (12) and (13) in item I 6-2 be deleted to offset this contribution and the budget be adjusted accordingly.
