Minutes City Council

Colleen Smith, Pockets The Clown:

- She is a resident of Brampton, has been a clown since 1986, and is President of Clown Alley
- As of September 1, 2013, new members of Clown Alley will be required to produce a police records check, a new policy resulting from the licensing issue
- Most members of Clown Alley have police records checks, which are good in any City they work in throughout the GTA
- She is opposed to licensing of children's entertainers as she does not believe licensing will prevent abuse
- It is unfortunate that a few "bad apples" are making all clowns look bad

Linda Beaudoin, Brampton Resident:

- Requested additional time and was granted 10 additional minutes
- Distributed materials highlighting abuse by children's entertainers and provided an overview of the materials
- She supports licensing of children's entertainers as she believes this would help protect children
- Presented a petition with approximately 700 signatures requesting that the City of Brampton license children's entertainers and require a criminal records check

Mark J. Brewer, President, Kiwanis Club of Brampton

- The Kiwanis Club of Brampton is concerned about the potential impact that licensing children's entertainers will have on its Celebrity Clowns Program, which includes clowns participating in the Santa Claus Parade fundraising event
- The Club fully supports the staff report, however, if a licensing system is put in place, it asks that entertainers at the Santa Claus Parade be exempted

Bev Parrish, aka "Petunia the Clown"

- Submitted correspondence outlining her position on this matter (Item L8-2), and provided an overview of the information within

Dan Stapleton, President, Golden Canadian Productions

- Referenced correspondence provided by Ben Parrish and indicated his agreement with the information outlined
- Does not support a licensing system for children's entertainment as he believes this would not prevent abuse

Council consideration of this matter included:

- Reiteration of its position that protection of children is a key concern
- Review of the staff report and accompanying results of the public consultation

**Minutes
City Council**

- Acknowledgement that the majority of legitimate children's entertainers obtain police records checks
- Benefits and challenges of a licensing system for children's entertainers
- Value of a public awareness campaign to encourage parents/guardians to request a police records check when hiring children's entertainers
- Parental responsibility for the protection of children
- City policies as they relate to employees working with children
- Suggestion that this matter be referred back to staff to identify tools available to the municipality to address children's safety concerns
- Role of the Federal and Provincial governments with respect to the protection of children

C208-2013 Moved by Regional Councillor Moore
Seconded by Regional Councillor Hames

Whereas City Council approved Resolution C053-2013 (February 20, 2013, approving Recommendation CW053-2013) to establish a licensing system for children's entertainers operating with the City of Brampton; and,

Whereas Members of Council can request Council to reconsider a decision of Council made during the current term, in accordance with the Procedure By-law 160-2004, as amended; and,

Therefore Be It Resolved That the matter of Resolution C053-2013 (Recommendation CW053-2013), in so far as it relates only to Council's decision to establish a licensing system for children's entertainers, and specifically Clause 3 of Recommendation CW053-2013, be re-opened.

3. Whereas on February 20, 2013, Brampton Committee of Council considered a staff report (dated February 7, 2013) regarding the licensing of children's entertainers, with such report responding to a 2011 request from Ms. Linda Beaudoin, Brampton resident and tireless advocate for child abuse prevention and awareness; and,

Minutes City Council

Whereas children's entertainers have the opportunity and ability to establish a relationship and rapport with children which, on very rare occasions, may put children in danger of becoming victims of abuse; and,

Whereas even one such crime against a child, or potential for such a crime, is one too many and steps need to be taken to protect children from potential threats; and,

Whereas steps can be taken by municipalities, in the absence of action by senior levels of government, to use available municipal tools, such as the municipal licensing system, to regulate children's entertainers to protect children; and,

Whereas a municipal licensing system, may permit a municipality to license children's entertainers operating within the municipality, and contribute to the protection of children by requiring children's entertainers to provide a mandatory police services vulnerable sector check (VSC) confirmation as a condition of a municipal licence to operate within the municipality; and,

Whereas a vulnerable sector check (VSC) is a common and normal requirement and condition for adults working with and in contact with children in sports associations and youth organizations; and,

Whereas notwithstanding the staff report recommendation not to license children's entertainer's under the provisions of the *Municipal Act, 2001*, due to reasons include definitional concerns regarding the scope of a children's entertainer, concerns regarding the requirements for police service vulnerable sector check (VSC) requirements and by-law enforcement issues, Committee of Council recommended the establishment of a licensing system for children's entertainers, to be a municipal leader in this area, and requested staff to report back to Committee of Council on an implementation plan and necessary Licensing By-law amendment;

Therefore Be It Resolved That Brampton City Council establish a licensing system for children's entertainers operating within the City of Brampton and that staff be requested to report back to Committee of Council on an implementation plan and necessary Licensing By-law amendment, with such implementation plan to include the development and execution of a public service campaign to create awareness about licensing children's entertainers in the City; and,

Be It Also Resolved That a copy of this Resolution be forwarded to the Provincial Government, the Federal Government, the Association of Municipalities of Ontario and the Ontario and

Whereas the Carnegie Library is a designated property, and it is necessary to obtain a Heritage Permit whenever significant changes are being made to the property, including large, permanent signage; and,

Whereas the Board is very reasonable, and its aim is to protect heritage resources, and when an appropriate application is presented the Board will support it; and,

G 1. John Cutruzzola, Brampton Resident, re: **Committee of Council Recommendation CW342-2013 – November 13, 2013 – Hurontario-Main Street LRT and Queen Street Rapid Transit Projects** (File T53).

Recommendation CW342-2013 and Correspondence L 1 were brought forward and dealt with at this time.

John Cutruzzola, Brampton Resident, outlined his views with respect to the portion of the proposed LRT route north of Steeles Avenue, which included:

- Concern about the potential negative impact on Brampton downtown given its unique character, and on Main Street South as one of only three commercial streets in the downtown
- Impact on downtown businesses during construction of the route, and post-construction reduction in curbside parking
- His view that a decision be made to either modify the plan or to request a time extension for further review
- Potential detrimental impacts from the route on Brampton’s economy, tax base, commercial development and growth, as a result of not being able to attract investments and jobs
- Suggestions for options for providing transit service in the downtown
- Details about the construction of the CN Rail bridge at Union Street and widening of bridges on the CN line toward future full day GO rail service for Brampton

**Minutes
City Council**

- Suggestion that the City's efforts concentrate on full day GO rail service
- Suggestion that if the City wants to move forward with the proposed LRT route north of Steeles Avenue, that it be done with the condition that Metrolinx provide full day GO rail service first
- Indicated he would like a motion at this meeting to exclude an LRT line on Main Street north of Steeles Avenue

Mr. Cutruzzola provided a copy of his remarks for the record, and responded to questions of clarification with respect to construction of the CN Rail bridge at Union Street, widening of bridges on the CN line toward future full day GO rail service for Brampton, his position about the detrimental impacts of an LRT line in downtown Brampton, suggested alternative options for transit in the downtown, and the Brampton Downtown Development Corporation's delegation on this matter at the Committee of Council meeting of November 13, 2013.

The following motion was considered.

C304-2013 Moved by Regional Councillor Moore
Seconded by City Councillor Callahan

1. That the delegation and information from John Cutruzzola, Brampton Resident, to the Council Meeting of November 20, 2013, re: **Committee of Council Recommendation CW342-2013 – November 13, 2013 – Hurontario-Main Street LRT and Queen Street Rapid Transit Projects** (File T53) be received; and,
2. That the following correspondence, to the Council Meeting of November 20, 2013, re: **Committee of Council Recommendation CW342-2013 – November 13, 2013 – Hurontario-Main Street LRT and Queen Street Rapid Transit Projects** (File T53) be received:
 1. Peter Robertson, Brampton Resident, dated November 15, 2013
 2. Robert and Karen North and Harry and Karen Lockwood, Brampton Residents, dated November 19, 2013

Carried

Council consideration of Recommendation CW342-2013 included:

- Questions about rail requirements for two-way all-day GO rail service, and information from staff in response
- Indication that Brampton is scheduled for increased GO rail service, but not two-way all-day service
- Development of the Mount Pleasant community such that two-way all-day GO rail service could be accommodated

**Minutes
City Council**

- Suggestion that this matter be deferred to the Council Meeting of December 11, 2013, to provide time for Council and/or the public to obtain more information about funding from Metrolinx as it relates to the LRT route north of Steeles Avenue

The following motion was considered.

C305-2013 Moved by Regional Councillor Sanderson
Seconded by City Councillor Callahan

That the matter of the Hurontario-Main Street LRT and Queen Street Rapid Transit Projects, outlined in Committee of Council Recommendation CW342-2013 from November 13, 2013, be **deferred** to the Council Meeting scheduled for December 11, 2013.

Carried

After the motion carried, concerns were expressed that deferral of this matter could result in the loss of Metrolinx funding for the project.

A motion was introduced to re-open the decision for deferral, and carried as follows.

C306-2013 Moved by Regional Councillor Sprovieri
Seconded by Regional Councillor Miles

That the decision to defer the matter of the Hurontario-Main Street LRT and Queen Street Rapid Transit Projects, outlined in Committee of Council Recommendation CW342-2013 from November 13, 2013, to the Council Meeting of December 11, 2013, be re-opened for further consideration.

Carried

Council's further consideration of Recommendation CW342-2013 included:

- Review of discussions at the November 13, 2013 Committee of Council meeting and overview of Recommendation CW342-2013
- The City's long-standing request for two-way all-day GO rail service
- Pros and cons of the proposed LRT route north of Steeles Avenue
- Suggestions for alternative routes for an LRT line in the downtown/central area
- Information from staff about the impact on the proposed LRT project, should Council delay its decision
- Clarification that approval is being sought to proceed to the Environmental Assessment (EA) stage, and not for final approval of the project

Minutes City Council

- Direction to staff in Recommendation CW342-2013 to undertake preliminary studies for all alternative routes north of Steeles Avenue to the downtown GO Station, and an indication from staff that the results of the preliminary studies and the EA process could be presented together as part of the City's response to the Province
- Confirmation that alternative routes are not part of the proposed Environmental Assessment process
- Concerns of downtown business owners with respect to disruptions during construction of an LRT line
- Benefits of an LRT line for Brampton versus Mississauga
- Brampton's priorities for transit versus those of the Province and Metrolinx
- Suggestion that should Council support the proposed LRT route north of Steeles Avenue, it be conditional upon Metrolinx reviewing all options for an LRT line in the central area

An amendment was introduced to Clause 2 of Committee of Council Recommendation CW342-2013 to add "subject to an agreement by Metrolinx to work with City staff on alternative routes for an LRT line north of Nanwood Drive".

In response to the proposed amendment to Clause 2, staff provided advice regarding an amendment to Clause 4 so that the EA process can proceed.

The motion, as amended, was considered as follows.

G 1. Ms. Rose Battaglia, Brampton Resident, re: **Committee of Council Recommendation CW366-2013 – November 27, 2013 – Retention of Open Space Land Adjacent to 68, 70 and 72 Mission Ridge Trail – Ward 10** (File L14).

See Item J 2 – Recommendation CW366-2013

Rose Battaglia, Brampton Resident, asked for reconsideration of the decision made at the Committee of Council Meeting of November 27, 2013 (Recommendation CW366-2013) to allow the purchase of open space adjacent to 68, 70 and 72 Mission Ridge Trail.

Ms. Battaglia provided the following in support of her request:

- Overview of her discussions with City staff and her delegations to Committee of Council on September 18 and November 27, 2013

Minutes City Council

- Details on information provided from the builder with respect to her property line, fencing and potential purchase of open space from the City
- Photographs of her property before and after the property line was designated
- Issues she encountered while seeking approval to build a shed on her property
- Concerns about the type of fencing installed by the builder (wooden fence instead of chain link), particularly since she paid a premium for her lot
- Safety concerns resulting from people loitering in the “nook” that was created as a result of the irregular shape of her property
- Indication that she would be willing to reduce the amount of property she wants to purchase to five or six feet only, and if the City cannot accept money for the land she would be willing to make a contribution to Toronto and Region Conservation for an amount equivalent to the purchase price
- Request that Council allow replacement of the wooden fence with a chain link one

Council consideration of this matter included:

- Concerns about the precedent that would result should Council agree to Ms. Battaglia’s request
- Information provided in sales offices
- Role of a lawyer in property purchases
- Requirement for noise attenuation on the subject lands as it relates to its proximity to major roads
- Suggestion that Ms. Battaglia consult a lawyer with respect to the information provided by the builder before she purchased her lot, and a request to staff to provide her with a copy of the subdivision agreement
- Request that staff review the noise study and location of the noise attenuation fencing to determine if the fencing meets Ministry of Environment requirements

In response to questions from Council, staff provided information on the following:

- Ministry of the Environment requirements for noise attenuation and buffers between homes and valleylands
- Noise studies that would have been undertaken during the development of the subdivision
- Potential violation of the subdivision agreement should the City allow replacement of the noise attenuation fencing with chain link
- Requirements for builders as they relate to the display of maps in sales offices

**Minutes
City Council**

- Premium rates for certain lots (this is within the jurisdiction of the builder not the City)
- Naturalization and flood line requirements

- G 2. Staff presentation by J. Hogan, Senior Advisor, Office of the Chief Administrative Officer, re: **City-Building For Our Future – Brampton's 2013 Strategic Plan** (File A23).

Delegation G 3 and Report I 1-1 were brought forward and dealt with at this time.

Minutes City Council

John Corbett, Chief Administrative Officer, acknowledged and thanked the staff team, led by Jill Hogan, Senior Advisor, Office of the Chief Administrative Officer, for its efforts in the development of Brampton's 2013 Strategic Plan.

Jill Hogan provided a presentation entitled "Brampton City-Building For Our Future", which included the following topics:

- Shaping the Future: We Heard You
- Strategic Priorities for City-Building
- Our Vision
 - Thriving
 - Growing
 - Serving
 - Preserving
 - Engaging
- Vision, Goals, Principles
- Overview of recommendations in staff report I 1-1

The following residents delegated Council on this matter, as noted below.

Chris Bejnar outlined his position that the Strategic Plan was prepared with too little stakeholder community input. He outlined differences he noted between the development of Brampton's and the City of Mississauga's Strategic Plans. He expressed his view that there was no rush for Council to approve the Plan at this meeting, and suggested that additional consultation be undertaken prior to approval.

Doug Bryden referenced the Plan title "City-Building" and expressed his view that there is a lack of understanding of this, particularly in relation to development of the downtown.

In response to questions from Council, Mr. Corbett outlined the consultation process, priorities that emerged through consultation, action items relating to the City's central area, and how other City programs, such as Façade Improvement, Downtown Beautification, fit into the priorities and actions set out in the Plan.

Mr. Corbett highlighted that the Plan is a living document that will be reviewed constantly and that public engagement will be an ongoing process.

C032-2014 Moved by Regional Councillor Hames
Seconded by Regional Councillor Miles

1. That the report from R. Beatty, Corporate Effectiveness Specialist, Corporate Services, dated January 16, 2014, to the Council Meeting of February 12, 2014, re: **Integrity Commissioner –**

**Minutes
City Council**

Transmittal of Annual Report – June 2012 to June 2013 (File L05) be received; and,

2. That Council continue to use the existing Office of the Integrity Commissioner (OIC) complaint protocol and reporting processes currently in place for the duration of 2014, subject to the following requests of the OIC:
 - a. That the OIC revise the complaint protocol to facilitate public accessibility of reports with no finding of contravention of the Code of Conduct instead of publishing such reports as part of a Council meeting agenda;
 - b. That the OIC insert a new article in the complaint protocol to address complaints received during an election year, with such article including a cut-off date (August 1 in a municipal election year) for complaints that would “stay” investigations until after the inaugural meeting of the newly elected Council; and,
3. That the newly elected Council be provided an overview of the OIC’s complaint protocol process relating to reporting and consider any revisions or refinements that best suit the new Council’s needs; and,
4. Whereas approximately 200,000 of taxpayers’ dollars has been spent on investigations through the Integrity Commissioner; and,

Whereas all complaints have not found any inappropriate breach of conduct;

Therefore Be It Resolved that staff be requested to investigate the appropriateness of charging a fee, including appropriate benchmarking, for persons filing a complaint with the Integrity Commissioner regarding a Member of Council in relation to the Council Code of Conduct, and that staff report back to Council accordingly, including possible options for charging fees for complaints.

Carried

A Member of Council asked Mr. Cameron if the outcome of a previous investigation would have been different had the complaint been worded differently. A Point of Order was raised that the line of questioning was inappropriate based on the matter before Council at this meeting. The Mayor, granted leave for the Point of Order, and subsequently ruled it valid. No further discussion occurred.

Minutes City Council

- G 2. Paramjit Singh Birdi, Brampton Resident, re: **Terms of Reference – Mayor and Members of Council Expenses Forensic Audit (RML #2013-049)** (File A05).

Paramjit Singh Birdi, Brampton Resident, referenced Council's November 2013 resolutions for a third party forensic audit, and outlined his comments on this matter as follows:

- Concerns about the amount of time being spent by Council on the same topics, and his view that time spent doing so results in a waste of taxpayers' money
- Inquired about penalties should a Member of Council be found to be in violation of City policies
- His view that should a Member of Council be found guilty, they should have to resign and not be allowed to run for office again, and that if a staff member were found guilty of violating City policies, they should have to resign
- Expressed concern that if there are no penalties for violations, then Council should not go forward with the forensic audit given the high costs to taxpayers for the audit

Mr. Birdi responded to questions of clarification from Council with respect to his comments about penalties for staff.

Report I 1-1 was brought forward and dealt with at this time.

Council consideration of this matter included:

- Proposed audit period and suggestion that it be extended to include all expenses from January 2008 to provide for comparison between expenses under the former policy and those under the current one
- Concerns about the costs for the forensic audit as proposed, and additional costs should the scope be extended to include expenses back to 2008
- Oversight of expenses within the existing system, given that receipts must be provided for all expenses, and information on Members of Council expenses is published on the City's web portal
- Suggestions for items to be included in the proposed terms of reference for the forensic audit, including review of attendance at conferences, regional expenses, etc.
- View of some Members of Council that the audit is required to "clear the air" given concerns that have been raised about Members of Council spending and conduct
- Reporting timelines and reporting of the results in public session, except for matters subject to consideration in Closed Session

Minutes City Council

- Concerns about a possible conflict of interest should the City's Auditor of Record be hired to undertake the audit
- Suggestion for potentially reducing the cost of the audit through the hiring of a smaller firm
- Suggestion that the selection of the forensic Auditor be undertaken through an RFP process
- Staff review and reporting on a rules-based versus trust-based policy for Members of Council expenses

Staff responded to questions from Council on the following:

- What is and is not included in the proposed scope and terms of reference for the forensic audit (including clarification that the audit would cover Members of Council expenses, not those of City staff)
- Comparison between compliance and forensic audits
- Audit procedures, including interviews with Members of Council, review of every expense item and use of City resources, follow up with Members of Council, City staff, external organizations, where required
- Proposed audit period of December 1, 2010 to January 31, 2014
- Roles of Council and the Integrity Commissioner as they relate to addressing any violations by Members of Council

The following motion was considered.

See By-law 52-2014

Report I 4-1 was brought forward and dealt with at this time.

Minutes City Council

Brian Johnston, Brampton Resident, spoke about the number of applications to date for exemptions under Interim Control By-law 35-2013, and outlined concerns about the lack of an application fee. He referenced the proposed extension to the by-law and asked that should Council extend the by-law, consideration be given to applying an application fee for exemptions.

At the request of Council, staff provided details on the purpose of Interim Control By-law 35-2013, the reasons for the proposed extension, and rationale for staff not recommending an application fee at the time the by-law was passed and currently. Staff indicated that a fee could be a future possibility when the study on infill development in the City's mature neighbourhoods is considered.

Council consideration of this matter included the applicable building permit fees for exemptions to Interim Control By-law 35-2013.

The following motions were considered.

C049-2014 Moved by Regional Councillor Palleschi

G 3. John Kalverda, Holland Christian Homes, re: **Funding Request – Holland Christian Homes – 7900 McLaughlin Road South – Ward 4** (File F65).

John Kalverda, Holland Christian Homes, provided details on the subject funding request, indicating that municipal funding support is a requirement for provincial funding, and the provincial deadline is fast approaching.

Mr. Kalverda responded to questions of clarification from Council with respect to the amount of funding requested, provincial funding requirements, circumstances that led to the short notice for this request, and financial versus in-kind support.

Council consideration of this matter included:

- Concerns about the short notice and lack of information relating to this funding request
- Potential precedent should Council approve the funding request
- Indication that staff will provide additional details before any funds are disbursed

The following motion was considered.

C052-2014 Moved by Mayor Fennell
Seconded by Regional Councillor Sanderson

Whereas Holland Christian Homes provides much needed long term care services and facilities for senior Brampton residents; and,

Whereas, since the late 1980's, Holland Christian Homes has been receiving Provincial funding from the Ministry of Health and Long-Term Care Elderly Persons Centre (EPC) funding program in order to offer recreational programming, out-of-home excursions, access to speakers on issues of interest to seniors and other recreational and social activities; and,

Whereas this funding program has always required the municipality to cost-share funding in the amount of 20%, but Provincial inadvertent program administrative oversight, has resulted in Holland Christian Homes receiving full provincial program funding without municipal funding; and,

Minutes City Council

Whereas, it has been confirmed through review and interpretation of the legislation governing this funding program that the Region of Peel is not an eligible cost-sharing municipality, and the cost-shared municipal funding must come from the lower tier municipality (i.e., the City of Brampton); and,

Whereas, since learning of its administrative oversight, the Province has advised Holland Christian Homes that funding will no longer be provided unless cost-shared funding is provided by the lower tier municipality; and,

Whereas the City of Brampton has never received a request to cost-share the program funding application by Holland Christian Homes, and the current funding request of \$13,832.00 by the lower-tier municipality is required to secure over \$40,000 in program funding by Holland Christian Homes from the Province; and,

Whereas the Province has advised Holland Christian Homes that, as of March 2014, further funding will not be provided for fiscal year 2014/2015 unless cost-shared funding is secured with the lower tier municipality, and the next regular Council meeting is scheduled for March 26, 2014; and,

Whereas Council Procedure By-law, 160-2004, as amended, includes rules regarding delegations on matters for which there is no staff report on the agenda (Section 4.5 (7)) or delegations seeking financial assistance from the Corporation (Section 4.5 (6) (d));

- (1) Therefore Be It Resolved That the delegation of Mr. John Kalverda, Holland Christian Homes, be received; and
- (2) Be It Resolved that Council Procedure By-law 160-2004, as amended, be waived in accordance with Section 14 on a temporary basis only in order for Council to address this specific matter; and
- (3) Be It Resolved That the funding request from Holland Christian Homes, in the amount of \$13,832.00 for 2014, be approved in principle, on a one-time basis only, subject to a budget amendment in accordance with Council procedures and Corporate policies; and
- (4) Be It Resolved That staff be requested to report back to Committee of Council on an analysis and program for addressing future funding requests of this type to be accommodated within existing Corporate programs, policies and procedures and/or a new Corporate program and/or policy.

WHEREAS Justice Adams issued his report in December 2004, therein recommending the Province of Ontario implement a change to regional representation at Region of Peel Council based on:

- (a) Increasing Mississauga's regional representatives from ten (10) to twelve (12),
- (b) Retaining Caledon's regional representatives at five (5), and
- (c) Increasing Brampton's regional representatives from six (6) to eleven (11), based on an agreement between all municipalities on a weighted vote at Peel Region Council to accord additional weight to the votes of Mississauga and Caledon representatives to counteract the appointment of additional Brampton regional representatives; and

- (a) adding two (2) additional members for Mississauga for a total of 12 members,

J. Committee Reports

J 1. Minutes – Committee of Council – April 2, 2014
(Chair – City Councillor Dhillon)

The following motion was considered.

C092-2014 Moved by City Councillor Dhillon
Seconded by Regional Councillor Miles

1. That the **Minutes of the Committee of Council Meeting of April 2, 2014**, to the Council Meeting of April 9, 2014, be received; and,
2. That Recommendations CW098-2014 to CW126-2014, outlined in the subject minutes, be approved.

Carried

The recommendations were approved as follows.

CW098-2014 That the agenda for the Committee of Council Meeting of April 2, 2014 be approved, as amended to add the following item:

H 5. Discussion at the request of Regional Councillor Palleschi, re: **Naming of Municipal Assets – Terry Piane, Former Member of Council.**

CW099-2014 1. That the following delegations to the Committee of Council Meeting of April 2, 2014, re: **Canada Post Door-to-Door Postal Delivery Service** be received:
1. Motilall Sarjoo, President, Peel Regional Labour Council

**Minutes
City Council**

2. Mark Brown, Campaign Coordinator, Canadian Union of Postal Workers (CUPW); and,
2. That staff be requested to report back to Committee on City and Region of Peel costs to clean up paper, litter and debris in and around Canada Post community mail boxes across the municipality; and,
3. Whereas local governments in Canada have a direct financial interest in the security and stability of Canada's postal system, to ensure reliable communications with rate-payers and certainty in the timely payment of taxes and other fees; and,

Whereas the elimination of door-to-door mail delivery will disproportionately effect and isolate seniors, low-income Canadians, people with disabilities or people with mobility issues and the most vulnerable in society; and,

Whereas Canada Post, a public sector success story, has announced its intention to eliminate residential door-to-door mail delivery in Canada, calling into question the stability of Canada's postal system, the certainty of communications and payments, and the reliability of business transactions; and,

Whereas this proposed change would entail the downloading of responsibilities, costs, and liabilities to local governments, including requirements for municipal land and rights-of-way, infrastructure such as paving and lighting, and policing related to vandalism, graffiti and mail theft; and,

Whereas this fundamental change to Canada's communications system is unprecedented in the G7 countries and has been announced in the absence of any meaningful consultation with local governments, Canada Post customers or postal workers;

Therefore Be It Resolved that the Federation of Canadian Municipalities request that the Federal Government direct Canada Post to maintain the current system of residential door-to-door postal delivery in Canada.

 - Prohibit the use of fireworks on public property (parks, streets, sidewalks)

Minutes City Council

- Requires a Fireworks Permit issued by the City of Brampton on New Year's Eve, Victoria Day, Canada Day and Diwali
 - Restricts the hours of discharging fireworks between dusk and 11:00pm for all approved fireworks days
 - Introduces safety requirements that are to be followed by property owners who hold the fireworks permit that includes set-up and the discharge of fireworks
 - Class 7.2.2 fireworks (Display Fireworks) and Class 7.2.5 fireworks (Pyrotechnic Special Effects) would still require approval and permit issued by the Chief Fire Official
 - Continue to perform proactive enforcement patrols
4. That Fireworks By-law 147-2006 and Business Licensing By-law 332-2013 not be amended to prohibit the sale and discharge of Roman candles and single-shot aerial noise makers, because the name on the actual fireworks device does not indicate what type of effect it is and it would be difficult to identify, as product labeling varies and therefore difficult to enforce; and,
5. That staff continues with the Communication and Education plan regarding fireworks safety, which will be further enhanced through a fireworks online permit requirement whereby the eligible property owner (60 foot frontage) will need to complete the application form that includes a step-by-step process of completing mandatory fields that acknowledges that the property owner has read and understood the by-law, set-up and discharge of fireworks safety requirements, completion of an online questionnaire that confirms understanding and the viewing of a safety video; and,
6. That staff throughout 2014 focus on educating the public on the changes to the amended By-law and permit process with full enforcement beginning in 2015, and that staff monitor and measure all relevant aspects of the amended By-Law including compliance and complaints and report back to Committee after one year; and,

K. Unfinished Business

K 1. Proposed motion re: **Great Lakes Nuclear Waste Dump** (File N08).

Peter Simmons, Chief Corporate Services Officer, referenced discussions on the proposed motion at Committee of Council on April 2, 2014, at which time the motion was referred to staff to provide additional information at this meeting.

Mr. Simmons indicated that staff reviewed the proposed motion and supporting material from the requestor. He outlined staff's position that there is not enough information on this matter for staff to recommend Council's support, and expressed staff's position that Council receive the motion only.

As mover of the motion, City Councillor Hutton requested Council's support for it. He indicated that the only request in the motion is that Ontario Power Generation consider other locations for a Great Lakes Nuclear Waste Dump.

An amendment to the motion was introduced to provide that a copy of it be forwarded to the Association of Municipalities of Ontario (AMO) and the Federation of Canadian Municipalities (FCM). The mover and seconder of the motion agreed to incorporate the amendment in the motion.

The motion was considered as follows.

C094-2014 Moved by City Councillor Hutton
Seconded by Regional Councillor Miles

WHEREAS Ontario Power Generation (OPG) proposes to manage current and future low and intermediate level waste from its Bruce, Pickering, and Darlington facilities in a Deep Geologic Repository (DGR) near Kincardine, 680 metres below the surface of the ground in limestone one kilometre from Lake Huron;

AND WHEREAS OPG asserts that the DGR is more secure than the current near-ground storage;

**Minutes
City Council**

AND WHEREAS the United States of America has identified and constructed a permanent depository for nuclear waste and the Government of Canada has not;

AND WHEREAS this proposal will set a precedent for the long term management of low and intermediate level radioactive waste from nuclear power generating facilities in the Great Lakes and St. Lawrence basin;

AND WHEREAS the Municipality of Kincardine came forward as a willing DGR host in 2002, and there has been extensive community outreach in the immediate area as well as extensive information available online, OPG did not sufficiently consult with the broader Great Lakes and St. Lawrence community;

AND WHEREAS there are concerns that Kincardine is the right location as no other sites were considered;

AND WHEREAS the Great Lakes and St. Lawrence Cities Initiative (Cities Initiative), an organization of over 100 cities from Canada and the United States representing over 16 million people that work together for the protection, restoration, and long-term sustainability of the largest body of surface freshwater, opposes the DGR proposal by OPG in Kincardine at this time;

NOW THEREFORE BE IT RESOLVED that the City of Brampton support the Cities Initiative's position and oppose OPG's proposal for a DGR for low and intermediate radioactive waste in Kincardine at this time;

AND FURTHER that the City of Brampton call upon the federal government to find an appropriate location and funding for a safe and permanent nuclear depository in Canada;

AND FURTHER that this resolution be forwarded, for immediate attention and action, to: the Cities Initiative, Chair, Mr. Keith Hobbs, Mayor of Thunder Bay as well as Joint Review Panel Deep Geological Repository for Low and Intermediate Level Radioactive Waste Case Reference Number 17520, Panel Co-Manager, Ms. Debra Myles and all local Members of Provincial Parliament;

AND FURTHER that a copy of this resolution be forwarded to the Association of Municipalities of Ontario (AMO) and the Federation of Canadian Municipalities (FCM).

Mayor Fennell left the meeting during consideration of this matter citing that both she and Regional Councillor Sanderson are candidates for the position of Mayor.

City Councillor Dhillon chaired the meeting during consideration of this matter.

Regional Councillor Sanderson extended an apology for the use of corporate resources for municipal election purposes, and indicated he did not realize he was breaking any rules as he was not a registered candidate at that time.

Councillor Sanderson outlined his research relating to potential costs for his use of corporate resources. Council acknowledged that any associated cost to the Corporation would be nominal, and considered the following motion.

- G 2. Dr. Maureen Harper, Brampton Resident, re: **Committee of Council Recommendation CW128-2014 – April 16, 2014 – Noise Attenuation Wall Policy Amendment – Retrofit Policy and Road Widening** (File N07).

See Item J 2 – Committee of Council Minutes – April 16, 2014

Dr. Maureen Harper, Brampton Resident, referenced her delegation to the Committee of Council Meeting of April 16, 2014, and provided background on the issue of concern to her (widening of Williams Parkway and resulting requirement for a noise wall in her area), and an overview of her comments at Committee.

Dr. Harper outlined concerns about the requirement outlined in Committee of Council Recommendation CW128-2014 that 66% of affected home owners must sign a petition to opt-out of a noise wall. She requested Council's reconsideration of this requirement, and an amendment to the Committee Recommendation to require a simple majority of homeowners.

Dr. Harper raised concerns about the Environmental Assessment (EA) undertaken with respect to the widening of Williams Parkway, which led to the requirement for a noise wall in her area. She outlined her position that the EA should be re-evaluated by Credit Valley Conservation (CVC) and the City because there is a new habitat and eco system in place.

In response to questions from Council with respect to notification about the noise wall to affected residents, staff advised that notification was provided by registered mail.

With respect to the requirement for an amended EA, staff indicated its position that this is not required as the proposed location for the noise wall

Minutes City Council

would not impact the creek valley. Additionally, staff confirmed it is working with CVC on this matter.

Council consideration of this matter included:

- Need for a measured approach, given that this is the first instance of a community wanting to opt out from noise wall requirements
- Indication from area councillors and staff of their willingness to work with Dr. Harper in an effort to achieve the required 66% support from homeowners

The following motion was considered.

Whereas City Council approved Resolution C331-2013 (December 11, 2013, approving Recommendation CW367-2013) regarding the Brampton Downtown Development Corporation (BDDC) Strategic Review – Findings and Forward Plan;

Whereas the staff report considered by Committee of Council at its November 27, 2014 meeting, originally recommended the composition of the Ad-Hoc Transition Committee (i.e., BDDC Transition Committee) to include the President and representatives of the BDDC Board of Directors, the three Council representatives on the BDDC Board of Directors, two Councillors representing the Central Area, the CAO and senior City staff;

Whereas Committee of Council, during consideration of this matter, resolved to establish an Ad-Hoc Transition Committee comprised of only the Chair and President of the BDDC, plus the three Council representatives on the BDDC Board of Directors, the interested area Councillors representing the Central Area, the CAO and senior City staff;

Whereas Members of Council can request Council to reconsider a decision of Council made during the current term, in accordance with the Procedure By-law 160-2004, as amended; and,

Therefore Be It Resolved That the matter of Resolution C331-2013 (Recommendation CW367-2013), in so far as it relates only to Council's decision to establish the Ad-Hoc Transition Committee, and specifically Clause 5 of Recommendation CW367-2013, be re-opened.

- Questions about the proposed timelines for the transition committee to fulfill its mandate, and information from staff in response

A motion was introduced to amend the composition of the BDDC Transition Committee to add an additional three members from the BDDC, representing the Owners category, the Tenant category and the Merchant category, plus the BDDC Chair and BDDC President, and incorporate a consultation process. Subsequently, the consultation process requirement was withdrawn from the motion after clarification that a consultation process is already incorporated into the workplan of the BDDC Transition Committee.

Questions were raised about a representative from the Merchant category, as this category is not a part of the composition of the BDDC Board.

An amendment was introduced to remove the Merchant category, and to provide for a designate for the BDDC Chair.

The amendment was voted on and carried.

The motion, as amended, carried as follows.

C112-2014 Moved by Regional Councillor Miles

N. Notices of Motion

N 1. Notice of Motion – Retirement Pensions and Health Benefit Program for Elected Officials

The following motion was considered, with the required two-thirds majority vote obtained.

C144-2014 Moved by Regional Councillor Hames
Seconded by City Councillor Callahan

Whereas City Council approved Resolution C055-2013 (February 27, 2013, approving Recommendation CCC005-2013) regarding the total compensation package for elected officials;

Whereas as part of Council's February 2013 decision, Council resolved that the RRSP program for elected officials be replaced with a retirement pension cash amount, based on the City's annual OMERS contribution rate and the current formula for determining the income base, subject to statutory deductions, representing the annual retirement pension contribution for all elected officials regardless of their circumstances, effective January 1, 2010;

Whereas subsequent analysis by staff has determined that the City would realize an annual savings if elected officials joined OMERS with the current RRSP/Pension payment program being eliminated and the 1/3 tax free compensation status remaining the same;

Whereas Council's participation in the OMERS plan would provide current and future elected officials with a predictable retirement pension that would assist in continuing to retain and encourage the best and brightest to take a leadership role in our community through direct involvement on City Council;

Whereas as part of Council's February 2013 decision, Council also resolved to establish a retirement health benefits program for elected officials based on age and length of service;

Whereas staff has since identified the need for a housekeeping amendment to the retirement health benefit program for retiring elected officials to ensure fair application of the program for both pre and post 65 years of age retiring elected officials; and,

Whereas Members of Council can request Council to reconsider a decision of Council made during the current term, in accordance with Procedure By-law 160-2004, as amended;

**Minutes
City Council**

Therefore Be It Resolved That the matter of Resolution C055-2013 (Recommendation CCC005-2013), in so far as it relates only to Council's decision regarding its retirement pension program and retirement health benefits program, and specifically Clauses 3 (b) and (c) and 4 of Recommendation CCC005-2013, be re-opened.

3. That the retirement allowance/severance provisions for elected officials, effective with the 2010-2014 term, be established based on the following:
 - b. for elected officials who have achieved 55 years of age, at time of retirement, and have served three (3) consecutive terms of Council, a continuation of the corporate group benefits program until age 65;
 - c. for elected officials who have achieved 65 years of age, and have served four (4) consecutive terms of Council, a Health Care Spending Account administered through the Corporation's benefits provider, of up to \$5,000 per year (indexed annually based on the Ontario Consumer Price Index for Health and Personal Care) for a coverage period of one (1) year for each two (2) years of service, with such Health Care Spending Account program to be reviewed by staff every two years to ensure adequate coverage;

except that such provisions do not apply where a Member of Council leaves office as a result of a judicial determination;

4. That the City of Brampton replace the RRSP program and provide a retirement pension cash amount, based on the City's annual OMERS contribution rate and the current formula for determining the income base, subject to statutory deductions, representing the annual retirement pension contribution for all elected officials regardless of their circumstances, effective January 1, 2010.

Ms. Reader read from a letter received in the Office of the Chief Administrative Officer on this date from the Ministry of Municipal Affairs, as follows:

- The Ministry will consider costs that are incurred after June 22, 2014 (Provincial deadline) on a case-by-case basis
- The costs must meet the eligibility criteria, be clearly a result of the ice storm and be incurred to protect public health and safety or secure access
- While timing may differ by municipality, depending on the complexity and size of the claims, it is anticipated that payments could be made in the spring and summer of 2015

Council consideration of this matter included:

- Confirmation that Council will hear first from registered delegations followed by other interested speakers
- Concerns about incorrect information on social media with respect to the purpose of this Special Meeting

D. Delegations

The following individuals put forward comments regarding the December 2013 Ice Storm Emergency Response, Recovery and Costs as noted below.

1. Gurpreet Dhillon, Brampton Resident and Provincial Candidate:
 - Five months after the storm debris is still being collected
 - Brampton was the hardest hit municipality
 - Does not want a tax hike to deal with storm clean up
 - The Provincial Government should honour its promise to provide disaster relief funding

2. Vic Dhillon, Brampton Resident and Provincial Candidate
 - Costs of this size qualify for federal assistance, and the Province plans on seeking funding under the federal program
 - It is important that municipalities work with Federal and Provincial Governments, as they continue with finalizing reimbursement of expenses incurred
 - Agrees that Brampton must be treated fairly, and receive funding like that provided in the past to other municipalities recovering from disasters
 - Believes the request from municipalities for extension of the deadline is reasonable
 - Will forward Brampton's concerns and the staff presentation to the Minister of Municipal Affairs and Housing
 - It is important to keep politics aside on this matter and that all three levels of government work together

3. Jagmeet Singh, Brampton Resident and Provincial Candidate
 - Does not believe that Brampton and Peel Region are being treated fairly by the Provincial Government
 - Brampton was hardest hit by the ice storm, and should be given the emergency relief it requires
 - Agrees that trees are an asset, that need to be replaced
 - We need to "stand up for Brampton" and make sure the message is clear that it is not acceptable to place the burden on residents of Brampton to cover the costs for ice storm clean up and recovery

4. Harkanwal Thind, Brampton Resident
 - Concerned about impact on property taxes as a result of costs related to the ice storm
 - Brampton has never been treated fairly by the Province
 - Local MPPs must stand up and demand that the Federal Government provide financial assistance
 - Concerned that Brampton was not prepared to deal with the natural disaster

Minutes City Council

- Raising property taxes should not be on the table to deal with ice storm costs
 - Funding should be provided by the Provincial Government for cleanup and recovery costs
5. Paramjit Singh Birdi, Brampton Resident
- Brampton was the hardest hit City, such that the costs of the damage and recovery add up to \$81 million
 - Appreciates efforts by City staff and residents with cleaning up the debris
 - Questioned cost estimates for replacement of trees outlined in staff reports, and expressed his view that the estimates are too higher
6. Cecil Bechamp, Brampton Resident
- Attended meeting to get information and “stand up for Brampton”
 - Appreciates information provided
7. Bhupinder Sidhu, Brampton Resident
- Thanked staff for its efforts with the ice storm clean up
 - Residents cannot afford a property tax increase to pay for ice storm costs
 - Urged all residents to talk to Provincial election candidates about funding for ice storm costs
 - It is important for Brampton to be supported at Queen’s Park and for the Province to provide funding for ice storm costs
8. Parminder Singh Grewal, Brampton Resident
- Other avenues should be explored to cover the costs of the ice storm, including approaching the Federal Government or affecting impacting City services
 - Asked if the cost of inflation would be included in the recovery cost, should clean up and recovery be undertaken over a number of years
9. Heather Guerin, Brampton Resident
- Suggested that regular tree maintenance may have limited the impact of the ice storm, and asked if Brampton has a program for this
 - Asked about potential reduced costs for trees through quantity ordering
 - Asked if Brampton is the only municipality that cannot meet the Province’s June 22, 2014 application deadline
 - Suggested that a poll be undertaken to seek input from residents about the types of replacement trees to be planted
10. Larry Zacher, Executive Director, Brampton Safe City Association
- Commended City and Hydro staff for their response to the ice storm
 - Highlighted the City’s level of emergency preparedness, and the fact there were no fatalities as a result of the ice storm

Minutes City Council

- Complimented residents for their “neighbours helping neighbours” response
 - Indicated we all feel a responsibility when a disaster occurs, and now we are asking the Province to share in this responsibility and provide funding
11. Cassian Joseph, Brampton Resident and Municipal Candidate
- Referenced a slide from the staff presentation indicating the Province’s incorrect evaluation that the most severe area impacted is Mississauga, when it is actually Brampton
 - Asked if the City will be correcting this information with the Province to ensure we get the appropriate assistance
 - The City should contact the Federal Government for funding to lessen the impact on Brampton residents
12. Steve Kerr, Brampton Resident
- Asked the City to consider planting fruit trees in City parks, to provide food and other benefits
13. Zorah Smith, Brampton Resident
- Does not want any increase in property taxes to deal with ice storm costs
 - Cited her personal experience and that of her daughter during the ice storm
14. Manan Gupta, Brampton Resident
- Outlined calls received at Brampton Safe City during the ice storm
 - Asked how long the City will wait to address Phases 3-6 if funding is not received from the Province
 - Asked if the City has contacted the Federal Government for assistance with ice storm costs
15. Sukhjot Naroo, Brampton Resident
- Highlighted the need for residents to talk to their Provincial election candidates about funding for ice storm costs
 - Suggested that contingencies be developed should Provincial funding not be provided
 - Indicated that some streets have not been cleaned up and inquired about the timelines for this work
16. Christine Massey, Brampton Resident
- Referenced the suggestion for fruit trees in City parks, and indicated that there are currently mulberry and service berry trees growing in Brampton, and that these trees do not require spraying

Minutes City Council

17. Amarjit Grewal, Brampton Resident
 - Complimented City and Hydro staff for their efforts in responding to the ice storm
18. Paul Vicente, Brampton Resident
 - Inquired about the schedule for stump removal and replanting
19. Allison Brown, Brampton Resident
 - Inquired about avenues other than tree canopy replacement for “heat mapping”, given unstable weather and the possibility of future ice storms
20. Helen Warner, Brampton Resident
 - Suggested the involvement of youth to assist with clean up and/or recovery efforts
21. Harjit Khalsa, Brampton Resident
 - Outlined concerns with respect to clean up work by City contractors
 - Suggested supervision of contractors to ensure the City is aware of what work they are doing, what equipment is being used, and for what purpose

In response to comments and questions from the delegations, Council and staff provided the following:

- Confirmation that the Federal Government cannot provide funding directly to municipalities, i.e. any funding must flow through the Provincial program
- Information on the estimated cost for tree replacement, that the estimate represents an averaging and includes all related costs, such as labour, tree purchase, etc.
- Confirmation that Brampton has a regular tree maintenance program, and that it is among many municipalities that have requested an extension of the Provincial deadline
- Confirmation that the City employs a competitive bid process for purchases, and details on factors that would impact costs for trees, such as availability of species, size of trees required, competition with other affected municipalities for supply
- Indication that the Province will be contacted to correct its evaluation that the most severe area impacted is Brampton, not Mississauga
- Outline of difficulties in maintaining fruit trees, including the need for spraying
- Indication that work will continue on the ice storm recovery through to Phase 4b, while the City waits for funding from the Province, and proposed timelines for completion of this work
- Indication that it is difficult for staff to determine the schedule for stump removal and replanting at this time, particularly in the absence of confirmation of Provincial funding, and that staff expects to know the schedule later in the year

- A motion to refer the recommendation to staff for a report back to Council on June 18, 2014 with respect to a transition plan
- Action outlined in the recommendation to terminate the services of ADR Chambers as the City's Office of the Integrity Commissioner (OIC) and whether it constitutes a reopening of this matter

A Point of Order was raised to seek advice from the City Clerk with respect to the question of whether Recommendation CW226-2014 constitutes a reopening of this matter. The Mayor granted leave for the Point of Order.

The City Clerk distributed copies of reports and Council decisions relating to the Office of the Integrity Commissioner. The Clerk provided his advice that the recommendation does not constitute a reopening of this matter as the Integrity Commissioner serves at the pleasure of Council.

In response to a question from Council, Brian Johnston, Brampton Resident, indicated his interest in addressing Council on this matter,

- Referenced Council's decision for a forensic audit of Council Member expenses, which included a recommendation to refer the results to the Integrity Commissioner, and asked where the results would be referred to if the OIC is terminated in advance
- Requested Council's consideration to defer its decision with respect to the OIC until the end of the current Council Term of Office on November 30, 2014

Mr. Johnston responded to questions of clarification from Council with respect to his opinion as it relates to costs for the OIC and whether an OIC is needed.

Ms. Wallace acknowledged changes that have been made to the subject proposal in response to residents' concerns, and outlined her views with respect to the subject application, which included:

- The proposal does not meet parking and density tests
- Redevelopment of the east side of Kennedy Road, rather than the west side, would minimize impact on the existing residential area and would allow for higher density
- Inquired about the possibility of reducing the height and density of the proposed development
- Asked if redevelopment has to be residential only or if it could include commercial as well

Barbara-Anne Smith, Cornwall Road, Brampton, outlined her views about the subject application, which included:

- Clarification of statements she made at the Planning, Design and Development Committee meeting on June 16, 2014
- Area residents agree that revitalization is necessary for Kennedy Road, however, they are opposed to the subject development
- In the last five years, there has been a lot of development in the area, and this proposal could extend that to 10 years
- Asked that this matter be adjourned to provide an opportunity for a meeting of all parties, so that residents can have meaningful input

Minutes City Council

- The community requires recreation services, aging infrastructure needs to be addressed, and if over 300 new homes as well as businesses are added to the area, those problems will grow
- Meaningful traffic infrastructure must be in place prior to the addition of over 300 new homes, traffic will filter through the neighbourhood and drivers will shortcut through Cornwall Road and other neighbourhood streets

Roger Howard, Eldomar Investments Limited, outlined his position with respect to the subject application, as follows:

- The application was developed on a sound and solid land use planning basis, with objective technical and information back-up
- The development will provide a catalyst for redevelopment on Kennedy Road
- He is willing to meet with area residents
- Request that the application be approved at this time, and that concerns be addressed through the site plan process

Council consideration of this matter included:

- Need for more recreational and community facilities in the area
- Potential opportunity for partnership with the School Boards toward recreational programs/community space
- Requirement for additional traffic signalization
- Suggestion that prior to enactment of the Official Plan Amendment and Zoning By-law, staff facilitate a meeting between the applicant and neighbourhood residents

The following motion was considered.

2. That the correspondence from Peter Robertson, Brampton Resident, dated September 2, 2014, to the Committee of Council Meeting of September 3, 2014, re: **Proposed Hurontario-Main LRT** be received.

CW282-2014

Whereas by resolution of August 11, 2010 Council approved the Hurontario-Main Street Corridor Master Plan with Light Rail Transit (LRT) endorsed, in principle, as the recommended rapid transit solution and that a final decision on LRT for the segment between Steeles Avenue and Downtown Brampton be subject to further study and exploration of alternative alignments that benefit the downtown;

And Whereas by resolution of May 22, 2013 Council advised Metrolinx that the priority order for Brampton transportation infrastructure projects under the Big Move is as follows:

1. Queen Street Rapid Transit;
2. GO Rail Service enhancement to achieve 2-way all-day services as soon as possible;
3. Hurontario-Main Street LRT;

And Whereas the design team presented a surface route for the LRT along Main Street through the Main Street South Heritage Area and Downtown Brampton to the Brampton GO station as the preferred alignment for that segment;

And Whereas by resolutions of November 20, 2013 Council directed that a study be undertaken of alternative routes north of Steeles Avenue including to the Peel Memorial Hospital site and report back to Council prior to conclusion of the environmental assessment process (TPAP); that further consultations and planning studies be undertaken; and that the final decision on the alignment and configuration of rapid transit in the Hurontario-Main Corridor north of Steeles Avenue and any commitment to construct the Hurontario-Main LRT in Brampton be subject to Council approval;

Minutes City Council

And Whereas a Notice of Completion of the TPAP process was issued on June 19, 2014 for a 30-day review period and the Environmental Project Report was submitted to the Minister of the Environment on July 19, 2014, with the alignment being a surface rail route on Main Street through the Main Street South Heritage Area and Downtown Brampton, without a further report to Council or consideration by Council;

And Whereas the Main Street South Heritage Area and Downtown Brampton are unique civic areas and the cultural centre of Brampton;

And Whereas the nature of the Main Street South Heritage Area and Downtown Brampton and the enjoyment of them by the citizens of Brampton would be severely negatively impacted by a surface rail line along Main Street;

Now Therefore Let It Be Resolved That:

1. The Hurontario-Main LRT alignment north of Nanwood Drive, as contained in the Transit Project Assessment Process (TPAP), not be studied further as a surface route;
2. The studies undertaken for alternative routes and alignments north of Steeles Avenue, including an alternative north of Nanwood Drive to connect to the Peel Memorial Hospital site and GO transit line, be finalized and reported to Council;
3. A recommendation on a Hurontario-Main rapid transit alignment north of Steeles Avenue be informed by further input from consultation and ongoing planning and design studies for the Downtown and Central Area;
4. A final decision on the configuration of rapid transit in the Hurontario-Main Corridor north of Steeles Avenue, and any commitment to construct the Hurontario-Main LRT project within Brampton, be subject to the approval of City Council;
5. It is a priority of this Council that the Main Street LRT alignment continue north to the City's northern boundary;
6. The City Clerk is directed to forward a copy of this Council Resolution to the Minister of the Environment as a supplement to the Environmental Project Report, the City of Mississauga, and Metrolinx for information.

**Minutes
City Council**

The subject correspondence was received at the Council Meeting of August 6, 2014, pursuant to Resolution C229-2014.

- D 2. Correspondence from Robert Swayze, Integrity Commissioner, dated September 5, 2014, re: **Forensic Audit of Mayor and Members of Council Expenses**

A motion was introduced to:

- Require that Mayor Fennell repay the amount of \$144,150.25 for driving services, identified in Schedule 11 in the July 2014 Deloitte forensic audit (Item D1), until or unless satisfactory documentation is produced; and,
- Impose on the Mayor a maximum penalty of 90 days' pay suspension, as permitted under the *Municipal Act*, for breaching the Code of Conduct as outlined in the Integrity Commissioner's report (Item D2).

An amendment to the motion was introduced to require that Councillors Callahan and Hutton be subject to the same penalties and requirements as Mayor Fennell for breaching the Code of Conduct.

Discussion on the amendment included:

- The position of the Integrity Commissioner (IC) as it relates to violations of the Code by the Mayor and the two Members of Council
- The IC's report being silent on a penalty to be applied to the Mayor
- The IC's position that the two Members of Council reimburse the City for expenditures that were unrelated to City business

At the request of Council, Robert Swayze, Integrity Commissioner, responded to questions with respect to the findings outlined in his correspondence, and information that was available subsequently (proposed reimbursement amounts, review of policies and dispute resolution process by Janet Leiper). Mr. Swayze indicated that he stands by the findings in his correspondence.

Note: City Councillor Hutton and City Councillor Callahan declared conflicts of interest with respect to the amendment, and abstained from voting on it.

**Minutes

The amendment was voted on and lost as follows:

 - Inclusion of repayment for the Mayor's driving services
 - Procurement process for the driving services
 - Provisions in the driving services contract for detailed reporting
 - Definition and determination of "satisfactory documentation"
- Suggestion that the matter of repayment for the Mayor's driving services be deferred pending information from staff with respect to the provisions of the contract
- Findings in the Deloitte Canada forensic audit relating to the Mayor's driving services
- Costs to date for services provided by an auditor and arbitrator
- Council's "lame duck" status as it relates to making decisions on financial matters
- Potential liability to the City and taxpayers if the motion is passed
- Dispute resolution process and related consent form
- Previous value based expense policy for the Mayor and Members of Council

A correction to the motion was noted to clarify that the report by Janet Leiper is to be received and not to be approved.
