P 1. Retention of a Procurement Expert to assist the Interim Auditor General – SWQ Project (at the request of Councillor Sprovieri)

Staff requested Council consideration of this matter in Closed Session as it is subject to legal advice (added Item T 4).

P 2. Administrative Support for Members of Council (at the request of Councillor Palleschi)

Council consideration of this matter included:

- Current recruitment for Councillors' Administrative Assistants on a contract versus permanent basis
- Concerns that offering these positions on a contract basis may:
 - have an impact on recruitment of the best candidates
 - create a two-tiered system in the Council Office which could have a negative effect on the office environment
 - discourage current City employees from applying
- Suggestion that the positions be offered on a permanent basis for all candidates or as a secondment for current City staff
- Possibility of postponing the current recruitment process

**Minutes
City Council**

- Potential benefits of flexibility in offering these positions on a contract basis

In response to questions from Council, staff provided the following:

- Status of the current recruitment process for Councillors' Administrative Assistants
- Details on the rationale for hiring on a contract versus permanent basis: provides flexibility for Members of Council (particularly newly elected), prevailing model for municipalities as positions tend to be political in nature
- Indication that the posting noted the position was "under review" (because Council had not made a decision about its administrative support model and there was a need to fill existing vacancies as soon as possible)
- Advisory that the recruitment process does not preclude permanent City staff from applying
- Suggestion that this matter be deferred to further discussion at the next Member Services Committee meeting

The following motion was considered.

C010-2015 Moved by Regional Councillor Palleschi
Seconded by Regional Councillor Sprovieri

That a discussion regarding the hiring for the positions of Administrative Assistants in the Council Office be **referred** to the next Member Services Committee for a recommendation.

Report H 1-1 was brought forward and dealt with at this time.

Council agreed to change the order of business to hear the presentation from Lee Parsons, Principal, Malone Given Parsons (MGP), then the delegations, and then consider staff report H 1-1.

Mr. Parsons provided a presentation entitled “Brampton Downtown Development Corporation Transition – Recommendations for Delivery of BIA & Development in the Downtown”, which included the following:

- Background Context
- Challenges of a Hybrid Organization

Minutes City Council

- Stakeholder Workshops 2014 – Outcomes
- Recommendation
- Recommendation Details
- Benefits

The following delegations addressed Council.

Don Naylor, Director, Brampton Downtown Development Corporation:

- spoke on behalf of Andrew Mackenzie, BDDC Chair
- believes primary reason the BDDC faces extinction is because of the City Hall expansion project
- the expansion project was to be in three stages, and in his opinion, it is regrettable that Council decided to abandon the other sites
- outlined the time commitment in the creation of the BDDC, and named those who were involved in its development, including Richard Prouse and Neil Davis
- the BDDC is a corporation with letters patent, by-laws and a healthy bank account, and he believes it is not an organization that deserves to be abolished by the municipality
- the BDDC was created by the private sector, and the private sector should be involved in the decision about its future
- commended Peter VanSickle, BDDC President, and the BDDC Board for their efforts to make downtown a better place
- indicated the BDDC did everything it could, and that Council should not make a rash decision on this matter

Scott Goodison, Brampton downtown business owner:

- thinks it is time that Council does what is recommended in the staff report, i.e. to put the BIA back to where it was, and consider creating a development corporation for the Queen Street corridor and central area
- expressed his opinion that the BDDC was hampered by not having expropriation powers
- expressed appreciation for the work of and challenges faced by Peter VanSickle and the BDDC Board
- indicated agreement with the dissolution of the BDDC and reverting back to the BIA, providing there is an ability for the BIA to advocate to Council on behalf of downtown businesses
- looks forward to the creation of a development corporation for Queen Street, and proposed that it include the entire Queen Street corridor, given that it is a key street for commercial and residential development and one that should be developed in a comprehensive way

Staff responded to questions from Council with respect to the following:

- Financial impact to the City as a result of reactivation of the Brampton Downtown Business Association (BIA)

Minutes City Council

- Consultation with the BDDC Transition Committee and BDDC Board with respect to the subject report and recommendations

R. Regional Council Business

Deb Reader, Executive Assistant, Government Relations, Office of the Chief Administrative Officer, outlined items on the Regional Council agenda for February 26, 2015 that may be of interest to Members of Council.

Ms. Reader advised that one of the items before Regional Council on February 26th is a City of Mississauga resolution pertaining to Canada Post's decision to discontinue door to door mail delivery services in favour of transitioning to community mailboxes. She indicated that representatives from the Canadian Union of Postal Workers will be delegating Regional Council on February 26th.

A motion was introduced to outline requirements of the City of Brampton with respect to discontinuation of door to door mail delivery, including that the existing mail delivery system be retained, that public engagement sessions be undertaken, that City approval be required for locations for future community mailboxes in Brampton, and that all costs for maintenance in and around the mailboxes be borne by Canada Post.

**Minutes
City Council**

Council consideration of this matter included:

- Concerns raised previously with respect to the cost of litter pick up around community mail boxes
- Other issues relating to community mailboxes, including costs for clean up of graffiti, costs for recycling bins, impact on seniors, etc.

The following motion was considered.

C056-2015 Moved by Regional Councillor Gibson
Seconded by Regional Councillor Medeiros

WHEREAS Canada Post has announced the discontinuation of door to door mail delivery services in the City of Brampton in favour of transitioning to community mailboxes and has started this transition in other municipalities; and

WHEREAS Canada Post has not provided the City of Brampton with a specific date for the transition to community mailboxes; and

WHEREAS Canada Post has not provided the City of Brampton with proposed locations of new community mailboxes; and

WHEREAS all existing community mailboxes in the City of Brampton were planned and integrated into communities while new proposed community mailboxes were not planned for and will be difficult to situate in many neighbourhoods; and

WHEREAS the transition to community mailboxes will be especially hard on seniors and people living with mobility and health challenges and could undermine their ability to live independently; and

WHEREAS the transition to community mailbox delivery will have a negative impact on existing communities requiring increased maintenance for litter pick up, snow and ice control, graffiti cleaning, vandalism repair and potentially cause parking and traffic issues resulting in higher costs for the municipality;

THEREFORE BE IT RESOLVED THAT:

Prior to Canada Post making efforts to replace the door to door mail delivery service with community mailboxes within our boundaries, the City of Brampton requires:

1. Canada Post to conduct public engagement sessions with impacted communities for all concerned residents; and

**Minutes
City Council**

2. The public engagement sessions are to be hosted by the local Member of Parliament (M.P.) and Canada Post representatives to discuss the transition and what kind of postal services City of Brampton residents need; and
3. That the City of Brampton will not endorse Canada Post's actions prior to the consultation process being satisfactorily completed; and
4. That in the event that Canada Post proceeds with removing the door to door mail delivery in the City of Brampton in spite of the opposition of City Council, the City of Brampton will have complete approval over where any future community mailboxes will be located and all costs for maintenance in and around the mailboxes will be borne by Canada Post;
5. That the City of Brampton send a letter to Deepak Chopra, Chief Executive Officer Canada Post, to inform Canada Post that the City of Brampton supports the existing delivery system and wishes to retain this valuable service for our communities; and
6. That the City of Brampton send a copy of this motion to the Honourable Lisa Raitt, Minister Transport, Peel Regional Council and all other municipalities in the Region of Peel and the GTA for endorsement and to the Association of Municipalities of Ontario, the Federation of Canadian Municipalities, and all Peel Region M.P.'s and M.P.P's.

E. Reports

- E 1. Report from P. Honeyborne, Executive Director, Finance/Treasurer, Corporate Services, dated April 7, 2015, re: **2015 Operating and Capital Budget** (File EH.x).

A motion was introduced to amend Recommendation 3 in the subject report to reduce the 2015 Budget in the expenditure category of staffing, wages and benefits by \$1 million and 10 staff positions (excluding Transit Division positions).

Council discussion on the motion included:

- concern that a reduction of 10 proposed new staff positions would negatively impact service levels, particularly since the proposed positions were rationalized and recommended through budget deliberations
- potential opportunity for a reduction of 10 staff positions through attrition, rather than a reduction in new positions
- consensus that a reduction of \$1 million in the staffing, wages and benefits category is reasonable and achievable
- suggestion that the motion be amended to remove reference to a reduction of 10 proposed new staff positions and retain reference to the reduction of \$1 million

In response to questions from Council, staff outlined its position that the proposed new positions are required to meet service levels, and that the rationalization study to be undertaken by September 2015 should be the impetus for a reduction in staff positions.

The motion, as amended, was voted on as follows.

Whereas the City of Brampton is attempting to keep its budget impact on the taxpayers to the lowest possible increase; and,

Whereas Interim Auditor General McCarter referenced a high staff to tax revenue ratio; and,

Whereas the 2015 budget as presented allows for an increase in 179 staff persons; and,

**Minutes
City Council**

Whereas 79 positions are required by Brampton Transit to continue to improve our public transit system; and,

Whereas there are budget requests for 100 new positions across all other departments of the City; and,

Whereas staff is starting a staff rationalization study due to the reorganization;

Therefore be it resolved that the 2015 Budget be reduced by \$1 million in the expenditure category of staffing, wages and benefits as determined by the Executive Leadership Team.

A recorded vote was requested and the amendment carried as follows:

Minutes City Council

Council discussion took place with respect to Clause 8 (i) of Recommendation BC022-2015 (Corporate Ethnic Media Program), and included:

- concern about the cost of the program, particularly when it includes just 10 of the 89 languages spoken in Brampton
- acknowledgement that providing the program for all 89 languages would be cost prohibitive
- suggestion that the matter be referred to staff for a detailed report, including justification for the program
- suggestion that a public meeting be held to get input on the program from residents
- suggestion that the amount budgeted for the program be reduced and in the meantime staff be requested to report back in June 2015 with a strategy for going forward
- need to measure the effectiveness of a such a program
- need for community engagement with all residents, particularly with Brampton's large ethnic population

Minutes City Council

Whereas The City of Brampton 2015 Budget Process has been delayed to provide for a comprehensive public engagement process;

Whereas Council's consideration of funding requests from external groups has subsequently been delayed, creating a level of financial uncertainty for these groups;

Whereas staff recommendations for criteria to evaluate budget submissions from external groups will not be before Council for a decision for several more weeks;

Therefore be it resolved that Council approve the following in advance of Council's full consideration of the external funding requests:

That the Treasurer be authorized to:

- Provide the Brampton Canadettes with a grant of \$36,000, being the full amount of their 2015 funding request, and

Therefore be it further resolved this resolution is adopted to facilitate a transition from the 2015 Community Grant Process to a new 2016 Community Grant Process; and further that if this resolution is inconsistent or in conflict with previous Council resolutions and past practices regarding the funding of the groups affected by this resolution, this resolution shall prevail over such previous resolutions and past practices.

“as long as the amount does not exceed the compensation paid to Councillors in the City of Mississauga.”

In response to questions from Council staff confirmed that a decision on this matter has to be made before the end of 2015 in order to be in effect for 2016; and, that the citizens committee would be a Council Compensation Committee, established by Council with staff interviewing and selecting the citizen members.

A motion was subsequently introduced to refer the amendment and Clause 27 of Recommendation BC022-2015 to the Council Compensation Committee for a recommendation to Council for a decision on this matter before the end of 2015.

Whereas, grant-making can serve as an incentive to attract international sporting tournaments and multi-cultural events leading to increased spending in the local tourism sector; and,

Whereas, Brampton City Council supports these principles and recognizes that community grant-making should be more accessible, open and transparent to all community groups in Brampton; and,

Whereas, Council has a strong desire to invest in building the capacity of community organizations and to support the core principles of self-sustainability, whereby community organizations are not financially reliant on the City of Brampton as a source of medium to long-term financial support; and,

Whereas, on February 4, 2015 the City of Brampton Budget Sub-Committee received and referred to the Budget Committee meetings of March 30, 31 and April 2, 2015 a policy paper entitled "Community Grant-making: Discussion Paper on Options, Analysis and Recommendations"; and,

That the following be added to the final paragraph of Clause 27:

Whereas the City of Brampton strives to attract the best and the brightest to seek political office;

Whereas Council recognizes the need for sound fiscal management;

Therefore Be It Resolved that the Mayor and Council permanently repeal the One-Third Tax Exempt Status effective January 1, 2016 and that the By-law confirming the proceeding of these budget deliberations be considered the necessary authority to repeal the One-Third Tax Exempt Status pursuant to the requirements of subsection 283 (6) of the *Municipal Act, 2001* and

D. Reports

D 1. Report from George Rust-D'Eye, Interim Auditor General, re: **Final Report of the Interim Auditor General on the South-West Quadrant Renewal Plan**

Council agreed to the following order of business:

- remarks from Marilyn Ball, Acting Chief Administrative Officer (CAO)
- remarks from George Rust-D'Eye, Interim Auditor General (AG)
- comments from the delegations (see Item C 1 above – Resolution C137-2015)
- Council discussion

Ms. Ball provided background on the appointment of George Rust-D'Eye as Interim AG, reiterated the purpose of the special meeting to consider the Interim AG's report and the report on costs associated with the investigation.

Ms. Ball cautioned that the City's procurement process for this project is the subject of a lawsuit and reviewed with Council and members of the public the ground rules around matters before the courts. She requested strict adherence to the rules, indicated the City Solicitor would interject where necessary, and requested respect for and decorum from all parties.

Mr. Rust-D'Eye provided background on his appointment as Interim AG, outlined the scope of his review, and provided an overview of his investigation and final report on the South-West Quadrant Renewal Plan.

Council discussion on this matter included:

- concerns about:
 - the delay in completion of the investigation and report
 - cost for the investigation and the inability to get information from staff about the cost
 - questions and expectations from Council Members that were not addressed in the report
- overview of specific questions posed to the Interim AG during his investigation on topics including the role of Professor James McKellar, cost per square footage, resulting debt, sidewalk set back requirements
- comments provided by Fay Booker, Booker and Associates, versus those provided by Paul Emanuelli, Procurement Law Office Professional Corporation, and the Interim AG
- availability of the full reports prepared by Ms. Booker and Mr. Emanuelli

Minutes City Council

- need for greater transparency and accountability in Council decision-making
- authority of staff as it relates to the option payment and property acquisition of 20 George Street North, and request for additional information, including the total cost for acquisition of this property

Throughout Council's discussion on this matter, the Deputy City Solicitor raised concern that some topics were beyond the scope of the subject matter for the Special Council Meeting (i.e. Final Report from the Interim AG) and strayed into litigation matters currently before the court.

In response to questions from Council, Mr. Rust-D'Eye provided information on the following:

- clarification and confirmation of no conflict of interest on this matter due to previous employment with a law firm that worked with the City during the early part of the procurement process
- timelines for the completion of his report
- total cost of the investigation versus cost estimate provided by staff
- availability of information on the cost of the investigation

In response to questions from Council, Mr. Emanuelli, provided information on the following:

K. Unfinished Business

K 1. Accommodation Space Options for Council

Note: Council agreed to vary the order of business to deal with this item after Item N 1.

Dale Pyne, Manager, Facility Support Services, Public Services, provided a presentation entitled "Mayor and Council Space Accommodations", which included:

- Presentation Agenda
- Existing Council Suite
- Existing Space
- 2015 Programming
- Looking Forward
- The Options
 - Option 1
 - Option 2-A
 - Option 2-B
 - Option 3
 - Option 4
 - Option 5
- Scheduling
- Timelines
- Options Summary
- Decision Points

Mr. Pyne indicated that staff's recommendation is for Option 2-B, as it provides the greatest flexibility for the future.

The following motion was presented.

That staff be directed to proceed with a phased approach as proposed in option two presented by Facility Services Division in May 2015 subject to further consultation with Members of Council, their staff and the Office Manager for Council Office.

A Member of Council questioned the presentation of a motion before discussion on the matter, and requested clarification from the City Clerk.

Peter Fay, City Clerk, Corporate Services, indicated that the presented motion was moved/seconded but not formally introduced, and that, in keeping with past practice, Members of Council could introduce other motions by presentation to the Chair.

Minutes City Council

The following motion was introduced.

That Option 3 be supported for Council needs, and that staff proceed with the necessary capital work for this option.

The Mayor ruled that the motion in support of Option 3 would be voted on first.

Council consideration of this matter included:

- review of the options and associated costs presented
- benefits of Option 2, including meeting standards under the *Ontarians with Disabilities Act*, providing for future growth and addressing heating, ventilation and air conditioning requirements in a cost-effective manner, all elected officials could potentially be located on the same floor, least disruptive for Council Members and staff
- benefits of Option 3, including lower cost, particularly given Council's recent budget cutbacks, provides the space required at this time
- variance in costs between Options 2 and 3
- concern that break-out models and expanded diagrams were only provided for Options 2-A and 2-B
- suggestion that Council Members and staff may require less space in future, given the current trend toward working outside the office (i.e. from home, on the road)
- concern about the temporary nature of the office space included in all options
- need for professional office space for all Members of Council

In response to questions from Council, staff provided the following:

- confirmation that funding is in the approved budget
- potential financial impact of starting with Option 3 and transitioning to Option 2 at a future time
- details on the type of input to be provided by Members of Council (design principles, features)
- information about accommodations for new staff during construction

A motion was introduced to support Option 5, as construction would be completed in the current year (2015), and the cost is lower than Options 2 and 3. The motion was subsequently ruled redundant by the Mayor, following approval of Resolution C170-2015 below.

The following motions were considered.

Whereas there is an increasing sentiment amongst Councillors that their offices are best served by allowing each set of Councillors to work with each set of new and current staff to determine what is the best functional approach to meet their support needs;

1. That the following additional positions be approved, to support the Council Office (\$300,000 budget impact):

- b. hired in accordance with City hiring policy and procedures;

Minutes City Council

- c. hired with direct involvement by each Councillor in the process to interview and choose their own Assistant, including any secondments, as may be necessary; and,

A point of order was raised by Regional Councillor Gibson to request that the City Clerk outline the difference between the new motion and Resolution C113-2015 (Recommendation BC022-2015 (Clause 25)). The Mayor granted leave for the point of order.

Peter Fay, City Clerk, Corporate Services, outlined differences between the approved Resolution (2 to 2 model) and the proposed motion (1 to 1 model, with flexibility for the pairs of Councillors to determine the best functional approach for them).

Council consideration of this matter included:

- opinions in support of the model outlined in the original Resolution
- opinions in support of the model outlined in the proposed motion

- job descriptions will be the same for all assistants, with enhanced functions based on discussions with Councillors in April 2015
- there are no provisions for Executive Assistant positions
- there is flexibility to allow the pairs of Councillors to determine a 2 to 2 model or 1 to 1 model, and how they choose to utilize their assistants and divide responsibilities (e.g. one administrative assistant, and one constituency assistant)
- core functions for the assistant positions have been determined and staff is ready to proceed with recruitment

An amendment to the motion was introduced, as follows:

That the motion be amended to include a Communications Advisor and Receptionist position;

And further that staff report back on how to amend the budget;

And further that the job description come back to Council for approval.

Council discussion on the amendment included:

- concern about additional spending on Council Office, given recent budget cutbacks
- reminder that the intention of the original model outlined in the approved resolution was for net two new positions, and concern that the amendment would result in additional budget requirements

The Mayor called for a vote on the amendment. The mover of the amendment clarified that the intention was that it be considered only if the proposed motion passed.

The mover subsequently withdrew the amendment following approval of Resolution C173-2015 below.

The following motion was considered.

N 2. Notice of Motion re: **Improving Accountable Government – Closed Meeting Audio Recordings**

The following motion was considered.

C174-2015 Moved by Mayor Jeffrey
Seconded by City Councillor Bowman

Whereas City Council continues to make strides to improve its meeting effectiveness and accountability, commensurate with a responsible level of government;

Whereas there are limited circumstances where City Council, or its committees, must meet in closed session in accordance with the Municipal Act, 2001;

Whereas while there are reasonable precautions, rules and processes currently in place to protect and manage the confidentiality of Council's closed session discussions, there are always opportunities for improving meeting rules and processes;

Whereas the Ombudsman of Ontario has long recommended that municipalities need to improve the overall transparency and accountability in their meeting practices by keeping better records including making and properly storing audio and/or video recordings of closed session meetings;

Whereas Brampton is always seeking best practices to improve its decision-making meetings;

Therefore Be It Resolved That the City Clerk be requested to initiate the practice of making digital audio recordings of all closed session meetings in order to demonstrate the City of Brampton's commitment to good governance, and that the City Clerk report back to Council or Committee on the implementation of appropriate security and records management practices to safeguard such closed session records.

Personal matters about an identifiable individual, including municipal or local board employees.

CS083-2015 Whereas Council has agreed on a Council Office staffing model to retain five new administrative assistants and,

Whereas Council has approved a recruitment plan in accordance with city-approved procedures and,

Whereas the recruitment process is expected to begin in early June of this year and,

Whereas it is anticipated the recruitment and hiring could be completed by mid to late August depending on council member availability and providing temporary office accommodation and technology and,

**Minutes
City Council**

Whereas it is reasonable to assume there will be a transitional period as new staff learns their duties and responsibilities and,

Whereas as the existing positions are funded within the approved budget and the five new positions will not exceed the amount allocated in the approved budget (\$300,000) since they will be full time employees for fewer than five months and assuming each is paid at full job rate the total commitment would be less than half of the \$300,000 approved having no budget impact,

Therefore be it resolved, that in order to minimize service disruption to the Council members and Brampton residents during this hiring/transition period, the current staffing model and complement (two Council Office Assistants and an Advisor, Council Communications) be retained and, where necessary, existing contracts be extended.

F. Delegations

F 1. Don Arthur, on behalf of the property owners (Guy Vanderbroek and Ivy Ng), re **Heritage Permit Application – 45 Church Street – Ward 6** (File BH.c).

Report H 4-4 and Item K 1 were brought forward and dealt with at this time.

On behalf of the property owners of 45 Church Street (Guy Vanderbroek and Ivy Ng), Don Arthur requested Council's reconsideration of Brampton Heritage Board Recommendation HB045-2015 (outlined in Item K 1) recommending refusal of the Heritage Permit Application for the subject property, and outlined reasons for his request.

Mr. Arthur provided copies of previous Heritage Permits issued for the subject property and Committee of Adjustment consideration, outlined discussions at a meeting with staff on June 25, 2015, provided details on the owner's Heritage Permit Application, and indicated the property owner's commitment to maintain the 16 inch opening in the porch enclosure.

Minutes City Council

Staff provided an overview of the provisions of the Churchville Heritage Conservation District Guidelines and Zoning By-law as they relate to the subject Heritage Permit Application, and outlined staff's position and that of the Brampton Heritage Board, that the application should be refused as the proposed porch enclosure does not conform to the District Guidelines and the Zoning By-law.

In response to questions of clarification from Council, Mr. Arthur confirmed the property owners' agreement with the City placing an easement on the property to allow inspection of the 16 inch opening in the porch enclosure in order to ensure that it remains open.

Staff responded to questions from Council with respect to the subject application, the position of staff and the Board, and the provisions of the District Guidelines and Zoning By-law.

Council consideration of this matter included a suggestion that it be referred back to staff to work with Mr. Arthur to reach an agreement, or that the subject application be approved with the condition that the owner agree to an easement.

- Recommendations 2 and 3 of P&IS159-2015 be deferred to allow for the initiation of public input and consultation and the re-engagement strategy for Heritage Heights, and for staff to consider the input of residents and stakeholders and engage those residents and stakeholders in serious consultations about the implications of the proposed allocations (population and employment); and,
- staff disclose to stakeholders all of the background information and assumptions that were used in preparing the Initial Report and the Recommendation Report.

Mr. Snider responded to questions of clarification from Council with respect to the concerns about the population and employment allocations.

Report H 5-5 was brought forward and dealt with at this time.

Glenn McFarlane, President, Brampton Folk Club (BFC), outlined the history of the BFC in the Brampton community, and highlighted assistance provided by the Brampton Arts Council (BAC).

Mr. McFarlane indicated that while the BFC is financially self-sustaining, it will be impacted by the close out of the BAC in areas such as promotion of concerts, loss of affordable insurance coverage, loss of initiatives such as the Bravo Awards, Business of the Arts, Art in the Open, Adjudication Program.

He highlighted the valuable resource that the BAC was to not only the BFC, but also to various other Brampton arts groups and individual artists.

Mr. McFarlane referenced information in the staff report with respect to Art in the Open at the Brampton Farmers' Market, and interim insurance coverage to be provided by the City. He suggested that reinstatement of Art in the Open be made a priority, and that interim insurance coverage be extended to December 31, 2016.

- need to determine how the Brampton arts community may be served in the future to ensure it remains viable

A procedural motion to extend the meeting beyond 11:55 p.m. was considered as follows.

C245-2015 Moved by Regional Councillor Palleschi
Seconded by City Councillor Whillans

**Minutes
City Council**

That the Special Council Meeting of July 8, 2015 be extended to continue beyond 11:55 p.m.

Carried

The following motion, moved by City Councillor Bowman and seconded by City Councillor Whillans, was presented:

Whereas, Resolution CW282-2014 states: That the Hurontario-Main LRT alignment not proceed as a surface route on Main Street north of the Etobicoke Creek, and that this alignment be removed as an acceptable alignment and not be the subject of further study or consideration; and

Whereas the Metrolinx HMLRT have recommended a route through Brampton to the Downtown GO Station which includes a surface alignment north of the Etobicoke Creek, and

Whereas Mississauga through the course of the TPAP exercise, removed a surface alignment through Port Credit to protect this heritage area; and to prevent business disruption; and

Whereas, Metrolinx is fully funding a loop around Mississauga's City Centre (Square One);

Whereas, Hurontario Street south of the 407 ETR is a major economic corridor for the City of Mississauga; and

Whereas, Brampton's identified major economic corridor is Queen Street, also referred to as the Central Corridor; and

Whereas Brampton's most convincing increased employment creation potential in the broader downtown is reflected in the currently underway, redevelopment of the Peel Memorial Hospital property and adjacent lands; and

Whereas, Council recently approved a 2015-2018 Economic Development Strategy containing 9 Goal streams and Objective 9.1 to "Develop a hospital innovation hub around the new Peel Memorial Centre for Health and Wellness"; and

Whereas, Council recently approved a Recommendation Report for the Peel Memorial Hospital District Economic Development Plan which states that "The PMC will be a catalyst for economic development and urban regeneration of the Downtown and Central Area. The Economic

Minutes City Council

Development Plan is intended to put the City in the best possible position to attract and respond effectively to potential investors and stakeholders in key markets, including education, research and development, industry such as health sciences, and other emerging opportunities"; and

Whereas, the currently proposed LRT surface route from Steeles Avenue north through the historic downtown core has a limited capacity to attract investment; increase assessment, and create jobs; and

Whereas, Brampton's number one transit priority is two-way, all -day GO service from the downtown station, direct to Union Station Toronto; and

Whereas, Brampton's number two transit priority is higher order transit along the Central Corridor, specifically Queen Street; and

Whereas, Brampton taxpayers are paying an additional levy to satisfy a \$60million commitment to the Peel Memorial Hospital redevelopment, where 5000 people are expected to be employed;

Therefore be it resolved:

That Council reaffirm CW282-2014 to once and for all, remove a surface alignment for the HMLRT on Main Street north of the Etobicoke Creek;

Further that, Council approve the Metrolinx HMLRT alignment to Steeles Avenue; and

Further that, the Mayor and Council seek permission from Metrolinx to allocate funds from the approved funding envelope to undertake the necessary studies and assessments on two alternative alignments to better serve Brampton's Central Corridor Queen Street at the Peel Memorial Hospital redevelopment location; and

Further that, the Mayor and Council request Metrolinx to consider reallocation of funds from the approved funding envelope to immediately address Brampton's number one priority of two-way, all-day GO Service from the Downtown Brampton GO Station, serving their objective of providing two-way, all-day GO Service to the KitchenerWaterloo community.

Minutes City Council

The following motion, moved by Regional Councillor Medeiros and seconded by City Councillor Dhillon, was introduced:

Whereas the current Hurontario/Main corridor weekday daily ridership is 14,050 boardings, 32% of these boarding occur between the Downtown Brampton Terminal and Sandalwood Parkway; while 68% of these boardings occur between the Mississauga Terminal and the Downtown Brampton Terminal.

Whereas the anticipated growth on the Hurontario/Main corridor is projected to 5%-10% yearly resulting in an approximate increase of 1,405 boardings per year.

Whereas the council approved land use for the downtown projects population growth to increase from 11,920 to **21,600** by 2031 and the number of jobs from 5,900 to **9,800** by 2031.

Whereas HMLRT supports a regional transportation network that connects Brampton residents to 3 GO rail lines and 5 Mobility Hubs along the route and also supports Two Way All Day GO Rail Service.

Whereas Metrolinx has established that the implementation of the HMLRT will enhance and better support the business case for the Queen Street Higher Order Transit.

Whereas the City of Brampton has already commenced the Higher Order Transit Master Plan for the Queen Street corridor;

Therefore Be It Resolved That the report from C. Duyvestyn, Manager, Infrastructure Planning, Capital Construction, Maintenance & Operations, dated June 9, 2015, to the Planning & Infrastructure Services Committee Meeting of June 22, 2015, re: Recommendation Report-Hurontario-Main Light Rail Transit Project Update (File HA.a (EA 10-3130101)) and the Addendum to the Recommendation Report dated July 3rd 2015 and appendices be received;

Therefore Be It Resolved That Council endorse the Hurontario-Main Light Rail Transit (LRT) surface route recommended in the Transit Project Assessment Process (**TPAP**) and approved by the Minister of the Environment and Climate Change as the preferred alignment for the Hurontario-Main LRT Project, including north of Steeles Avenue to the Brampton GO Station;

Therefore Be It Further Resolved that Council requests Metrolinx establish a local store front project office on the HMLRT route in Downtown Brampton to provide outreach, open and accessible access

Minutes City Council

of support to, and communication with, local businesses and residents in advance of and during the construction phases;

Therefore Be It Further Resolved that Council request that Metrolinx establish the main HMLRT project management office be located in Downtown Brampton;

Therefore Be It Further Resolved that the City of Brampton work with Metrolinx to develop a mitigation strategy that ensures construction is planned and coordinated in such a way as to allow continued access to all businesses along the HMLRT route during the construction period;

Therefore Be It Further Resolved that the City of Brampton request Metrolinx to continue to investigate “off wire” light rail vehicle technology to further minimize the visual impact on the historic landscape of downtown Brampton;

Therefore Be It Further Resolved that Council requests that Metrolinx advance the necessary funding contribution for the downtown Mobility Hub study;

Therefore Be It Resolved That Council re-affirms their request to ensure all Brampton GO stations offer Two Way, All Day GO Rail Service.

Therefore Be It Further Resolved that Council request Metrolinx to expedite the Queen Street Higher Order Transit project in their “next wave” of transit infrastructure investments;

Therefore Be It Further Resolved that City of Brampton staff be directed to report back to Council on a “terms of reference” and associated budget to undertake a Higher Order Transit Master Plan for the Main Street/Hurontario Street corridor north of the Downtown GO Station to the City’s northern boundary;

Therefore Be It Further Resolved that City of Brampton staff be directed to explore Federal funding opportunities to support Brampton’s transit initiatives;

Therefore Be It Further Resolved that the City Clerk be directed to forward a copy of this Council Resolution to all Brampton MPs and MPPs, the Federal Minister of Infrastructure, the Federal Minister of Transportation, the Ontario Minister of Finance, the Ontario Ministry of Transportation the City of Mississauga, Region of Peel, Metrolinx, 407ETR, for information.

- acknowledgement that Council Members are in support of LRT for the City, but are not in agreement with respect to the alignment
- potential deferral of this matter

J 5. Minutes – **Corporate Services Committee – September 23, 2015**
(Chair – Regional Councillor Medeiros)

Regional Councillor Medeiros, Committee Chair, introduced the subject minutes and provided a summary of matters considered at the meeting.

Council discussion took place with respect to Recommendations CS124-2015 and CS132-2015, as follows:

- Recommendation CS124-2015:
 - acknowledgement of the work undertaken by Members of the Council Compensation Committee
 - concerns about the budget impact as a result of the recommended removal of the one-third tax free exempt status for the Mayor and

Minutes City Council

Councillor compensation and the increase in salary and vehicle allowance

- past practice in dealing with recommendations on Council compensation, i.e. to be effective for the next Term of Council

A motion, moved by Mayor Jeffrey and seconded by City Councillor Fortini, was introduced to delete Clauses 2 and 3 of Recommendation CS124-2015 and replace them with the following new clauses:

2. That the one-third tax-free exempt status for the Mayor and Councillor compensation be eliminated (at a cost of approximately \$57,000), effective January 1, 2019, and the necessary actions be implemented to repeal the one-third tax-free exempt status pursuant to the requirements of subsection 283(6) of the Municipal Act, 2001; and,
3. That, the following be implemented effective December 1, 2018 for the 2018-2022 term of Council, pending further review by the Council Compensation Committee and recommendations to Council on the appropriate compensation and benefits structure for Brampton City Council for the long term:
 - (a) the Mayor and Councillor vehicle allowance, effective December 1, 2018, be established based on Option 3 as considered by the Council Compensation Committee (i.e., 100% taxable grossed-up rate and equivalent to a \$14,927.52 annual vehicle allowance); and,
 - (b) the Mayor and Councillor remuneration rate, effective December 1, 2018, be established based on the equivalent gross remuneration for the Mayor and Councillor in the City of Mississauga (i.e., \$139,374.00 for the Mayor and \$84,495.00 for a Councillor based on 2015 rates);
4. That the current Mayor and Councillor salary freeze remain in effect for the current term of Council.

Council discussion on the motion included:

- position of many Brampton residents that the one-third tax free exempt status for the Mayor and Council compensation should be removed
- confirmation from staff that if Council supports the proposed motion to remove the one-third tax free exempt status effective in 2019, the associated by-law to appeal this exemption could not be passed until

Minutes City Council

2018, but that Council could pass a resolution at this meeting to approve removal of the exemption and direct staff to bring forward the by-law in 2018

- information from staff on the Elected Officials compensation options and the resulting financial impact on the City and Elected Officials' net pay and other compensation
- confirmation that the recommendation from the Council Compensation Committee would result in a reduction in Elected Officials' net pay
- concerns about the potential impact on the Members of the Council Compensation Committee should Council not support this recommendation
- advice from the City Clerk related to the proposed amendment to Recommendation CS124-2015

The motion was considered as follows:

Whereas the Ontario and global economy is still underperforming and not yielding the results that we all had expected.

Whereas Council has and will continue to have to make tough decisions with regards to the City's fiscal situation.

Whereas Council, at its December 10, 2014 meeting, passed the following Resolution to reduce and freeze the Mayor's salary:

"C317-2014 Whereas in previous terms of Council, decisions have been made by Council to establish a remuneration structure for the Mayor and Councillors, in accordance with the *Municipal Act, 2001*, and based on recommendations received from a citizen-based Council Compensation Committee;

Whereas Section 283 of the *Municipal Act, 2001*, authorizes a municipal council to establish its own remuneration structure;

Whereas it is deemed appropriate for the Mayor to demonstrate leadership and fiscal restraint to establish a new remuneration scale for the position of Mayor that reflects other comparable municipal, regional, provincial and federal leaders and representatives, as well as prevailing economic conditions, and which is more appropriate for the Mayor of Canada's ninth largest municipality;

**Minutes
City Council**

Now Therefore Be It Resolved That the salary for the position of Mayor of The Corporation of the City of Brampton be \$165,850 being a combination of the City of Brampton and Region of Peel salaries and remuneration effective January 1, 2015;

And Further That any change to the salary for the position of Mayor after 2015 be subject to further consideration and approval by Council during 2015. “

Whereas Council, at its December 17, 2014 meeting, passed resolution C326-2014 to establish a Council Compensation Committee to review Council’s current compensation structure and benefits program, and more specifically approved Clause 16 to freeze Councillor salaries, as follows:

- “16. That the current salary rate for all Councillors be maintained at the existing compensation level until such time as Council considers the compensation recommendations from the Compensation Committee”;

Whereas Council, at its April 8, 2015 meeting, passed Resolution C113-2015, and specifically Clause 28, further affirming Council’s immediate freeze of their salaries, as follows:

- “(28) Whereas a motion has been put forward to 2015 Budget Committee that a wage freeze be imposed for all non-union employees at the management level and higher pending a completion and council consideration of the core services review;

Whereas throughout the 2015 Budget Sub-Committee the Mayor and Council have been discussing a non-union management wage freeze to show the citizens of Brampton that City Hall is willing to take on some of the fiscal burden to ensure the public dollars are spent wisely;

Whereas Mayor Linda Jeffrey has shown leadership by reducing her salary by \$50,000 immediately upon taking office;

Minutes City Council

Whereas Council recognizes the need for sound fiscal management;

Whereas this Council believes they should lead by example;

Therefore be it resolved that the Mayor and Council immediately freeze their salaries for a period to be determined by this council in the 2016 Budget process.”

Whereas the Council Compensation Committee, at its September 10, 2015 meeting, passed recommendation CCC015-2015, and specifically Clauses 2 and 3 as follows:

- “2. That the one-third tax-free exempt status for the Mayor and Councillor compensation be eliminated, effective January 1, 2016, and the necessary actions be implemented to repeal the one-third tax-free exempt status pursuant to the requirements of subsection 283(6) of the *Municipal Act, 2001*; and,
3. That,
 - (a) the Mayor and Councillor vehicle allowance, effective January 1, 2016, be established based on Option 3 as considered by the Council Compensation Committee (i.e., 100% taxable grossed-up rate and equivalent to a \$14,927.52 vehicle allowance); and
 - (b) the Mayor and Councillor remuneration rate, effective January 1, 2016, until the end of the current term of Council (November 30, 2018), be established based on the equivalent gross remuneration for the Mayor and Councillor in the City of Mississauga (i.e., \$139,374.00 for the Mayor and \$84,495.00 for a Councillor based on 2015 rates), subject to an annual review by the Council Compensation Committee and recommendation back to Council during this period;

pending further review by the Council Compensation Committee and recommendations to Council on the appropriate compensation and benefits structure for Brampton City Council for the long term.”

**Minutes
City Council**

Whereas the Corporate Services Committee, at its September 23 meeting, approved these Clauses as part of Recommendation CS124-2015;

Therefore be it resolved Clauses 2 and 3 of Recommendation CS124-2015 be deleted and replaced with the following new Clauses:

2. That the one-third tax-free exempt status for the Mayor and Councillor compensation be eliminated (at a cost of approximately \$57,000), effective January 1, 2019, and the necessary actions be implemented to repeal the one-third tax-free exempt status pursuant to the requirements of subsection 283(6) of the Municipal Act, 2001; and,
3. That, the following be implemented effective December 1, 2018 for the 2018-2022 term of Council, pending further review by the Council Compensation Committee and recommendations to Council on the appropriate compensation and benefits structure for Brampton City Council for the long term:
 - (a) the Mayor and Councillor vehicle allowance, effective December 1, 2018, be established based on Option 3 as considered by the Council Compensation Committee (i.e., 100% taxable grossed-up rate and equivalent to a \$14,927.52 annual vehicle allowance); and,

N. Notices of Motion

N 1. Notice of Motion re: **Reconsideration of Council’s Decision on the Council Accommodation Strategy on the 4th Floor, City Hall**

Mayor Jeffrey introduced the subject motion to re-open Council’s decision on the Council Accommodation Strategy on the 4th Floor, City Hall, and outlined her reasons for doing so.

The motion was considered as follows, with the required two-thirds majority vote achieved.

C297-2015 Moved by Mayor Jeffrey
Seconded by Regional Councillor Medeiros

Whereas City Council approved Resolution C170-2015 (May 20, 2015) to direct staff to proceed with a phased approach to renovate the fourth floor, City Hall, to accommodate all of Council;

Whereas due to budgets constraints and in light of internal infrastructure staffing, monitoring and enforcement that we have recently learned requires attention that Council was not aware of previously and considering the serious economic situation we continue to experience in Ontario and in Brampton, Council is requested to re-consider a previous decision.

Whereas Members of Council can request Council to reconsider a decision of Council made during the current term, in accordance with the Procedure By-law 160-2004, as amended; and

Therefore Be It Resolved That the matter of Resolution C170-2015, as follows, be re-opened and reconsidered:

C170-2015 Moved by Regional Councillor Moore
Seconded by Mayor Jeffrey

Whereas it’s important to have accommodations that allow Councillors to provide effective customer service to Brampton residents in the present and the future;

Whereas Council and Mayor office staff require more cohesive adjacencies;

**Minutes
City Council**

Whereas Council has already decided and approved in the 2015 budget adding additional staffing resources;

Whereas the current configuration does not allow the introduction of additional required workstations;

Whereas the current Council office space is not accessible to today's standards; (AODA)

Whereas Council's desire is to have accommodations that not only meet the needs of today but also have the ability to respond to future demands of our high growth City;

Whereas it's important to resolve health and safety issues identified and suspected building maintenance issues such as HVAC;

K 1. Corporate Services Committee Recommendation CS142-2015, re: **City of Brampton Mayor's Remuneration Rate**

A copy of the Mayor's motion regarding the City of Brampton Mayor's remuneration rate, which was referred from the Corporate Services Committee Meeting of October 7, 2015, was distributed at the meeting.

At the request of Council, Peter Fay, City Clerk, Corporate Services, confirmed that he stood by his advice provided to Corporate Services Committee that a reopening of the subject matter was not required for Council to consider the subject motion.

The Mayor accepted the City Clerk's advice.

Council consideration of the subject motion included:

- suggested amendment to add "fully taxed" to the last clause of the motion
- advisory from staff that if By-law 243-2015 is passed to eliminate the one-third tax free allowance for members of Council in accordance with s.283(6) of the Municipal Act, 2001, the amendment would not be required
- request that By-law 243-2015 be voted on before the motion

**Minutes
City Council**

Council agreed to vary the order of business and consider the by-law before the subject motion.

The following motion was considered.

C315-2015 Moved by Mayor Jeffrey

243-2015 To eliminate the one-third tax free allowance for members of Council in accordance with s.283(6) of the *Municipal Act, 2001* (see Corporate Services Committee Recommendation CS124-2015 – September 23, 2015 (CCC015-2015)); and,

2. **Whereas** in previous terms of Council, decisions have been made by Council to establish a remuneration structure for the Mayor and Councillors, in accordance with the *Municipal Act, 2001*, and based on recommendations received from a citizen-based Council Compensation Committee;

Whereas Section 283 of the *Municipal Act, 2001*, authorizes a municipal council to establish its own remuneration structure;

Whereas the City of Brampton Mayor's remuneration rate, effective January 1, 2016, until the end of the current term of Council (November 30, 2018), has been established as equal to the gross remuneration for the Mayor in the City of Mississauga, subject to an annual review by the Council Compensation Committee and recommendation to Council during this period;

Whereas it is deemed appropriate for the Mayor to demonstrate leadership and fiscal restraint to establish a remuneration scale for the position of Mayor that reflects other comparable municipal, regional, provincial and federal leaders and representatives, as well as prevailing economic conditions, and which is more appropriate for the Mayor of Canada's ninth largest municipality;

Now Therefore Be It Resolved That the salary for the position of Mayor of The Corporation of the City of Brampton be \$165,850.00, being a combination of the City of Brampton and Region of Peel

C325-2015 Moved by City Councillor Bowman
Seconded by City Councillor Whillans

Whereas Council has previously resolved that any commitment to construct the Hurontario Main Light Rail Transit HMLRT, within Brampton and the alignment of the HMLRT north of Steeles Avenue be subject to Council approval;

And whereas, the proposed HMLRT route north of Steeles Avenue is a surface alignment along Main Street through the Heritage district and Downtown Brampton, which Council has twice declined to approve by way of a Council resolution;

And whereas the Minister of Transportation has declared that funding for the HMLRT will take it to Steeles Avenue and not beyond unless the Main Street route alignment is approved by the City of Brampton;

And whereas, the City has established and built the Gateway Terminal on Hurontario Street at Steeles Avenue as a Regional Transit Terminal;

And whereas, Brampton has established as its primary rapid transit priorities, first as two way all day GO rail service from all Brampton stations to Toronto Union Station, and second, high-order rapid transit along the central corridor and specifically Queen Street East;

And whereas, Council has established as a priority that a light rail transit system LRT in Brampton also continue to serve its northern boundary;

Minutes City Council

And whereas, Council wishes to more fully study, analyse and fully cost alternative LRT routes that will provide greater economic benefit to Brampton while preserving the downtown and heritage district;

And whereas, Brampton, as the fourth largest city in Ontario, has demonstrated its commitment and ability to effectively deliver higher order transit to its residents and is recognized as one of Canada's best public transit systems;

And whereas, Brampton has a desire to work with our Provincial and Federal funding partners, to assist with building on our many successes achieved in public transit over the past 12 years;

Therefore be it resolved that:

1. the Hurontario-Main Light Rail Transit (HMLRT) surface route recommended in the Transit Project Assessment Process (TPAP) and approved by the Minister of the Environment and Climate Change as the preferred alignment for the Hurontario-Main LRT Project, be approved only from Brampton's south municipal boundary limit north to Steeles Avenue (Gateway Terminal);
2. Any extension of the LRT in Brampton beyond Steeles Avenue be subject to further approval of Council;
3. A surface alignment for any LRT on Main Street north of the Etobicoke Creek through Downtown Brampton is permanently removed as an acceptable alignment;
4. The Mayor and Council immediately engage in active discussions with senior levels of government to seek funding partners to assist Brampton in building on our transit successes and to achieve Brampton's transit priorities, including all day two way GO rail service, and to develop and implement a "Made in Brampton" high order rapid transit plan within Brampton;
5. The Brampton Transportation and Transit Master Plan respecting LRT be revised to reflect this resolution;
6. The City of Brampton staff be directed to organize the Brampton project office and work with Metrolinx and the City of Mississauga to implement Council's decision on the Council-endorsed HMLRT route to Steeles Gateway Terminal, leading to the development and construction of the HMLRT, with appropriate regular project update and implementation status reports provided to Council;

**Minutes

7. That the City Clerk is directed to forward a copy of this resolution to, the Honourable Kathleen Wynne, Premier of Ontario, the Honourable Steven Del Duca, Minister of Transportation for Ontario, Mr. Robert Pritchard, Chair of the Board of Directors of Metrolinx, Mr. Bruce McCuaig, President and CEO of Metrolinx, and the City of Mississauga, for information.

CS148-2015 That staff report back to the Corporate Services Committee Meeting on November 4, 2015 with respect to a potential change in the start time for Regular Council Meetings.

CS149-2015 Whereas Robert's Rules of Order under the subsection "Reconsider" speaking on parliamentary procedure that allows for a member to move to "reconsider the vote", and "that motion must be made, excepting when the vote is by ballot, by a member who voted with the prevailing side;"

Whereas the Region of Peel's Procedural By-law 100-2012 allows for Council to make a Motion to Reconsider (a decision made in the same meeting) which includes language allowing council to bring back for consideration a decision on a motion previously voted on during the same meeting regardless of whether or not the previous motion was carried as long as it was "made by a member who voted with the prevailing side;" and

Whereas the Corporation of the City of Mississauga's Council Procedural By-law 139-2013 includes language allowing for a motion to reconsider that "can only be made by a member who voted on the prevailing side;" and

Whereas the Corporation of the Town of Caledon's By-law to Govern the proceedings of Council 2009-088 also allows for a motion to be made to reconsider a decision or motion of Council only by a member of Council "who voted with the prevailing side;" and

Whereas the City of Brampton's Procedural By-law 160-2004 includes under section 13 the ability for Council to "Reopen a Question At the Same Meeting" or "Reopening a Question After the Matter has been Dealt with by Council", but lacks additional language within the by-law for the motion to be made ***by a member who voted with the prevailing side;***

Therefore, Be it resolved that the language of the City of Brampton's Procedural By-law 160-2004, section 13 "Reopening a Question", subsection 13.1 "Reopening a Question at the Same Meeting" and subsection 13.2 "Reopening a Question After The Matter Has Been Dealt With By Council" be revised to include the requirement that "any Motion made for Reconsideration must be put forward by a member on the prevailing side"; and

A. Approval of the Agenda

Discussion took place with respect to amendments to the agenda.

The following items were proposed for addition to the agenda:

- announcement re: Two Nations College Prep Series
- announcement re: C.D. Howe Report
- discussion item and delegation re: taxicab issues
- discussion item re: video recordings of Committee meetings on the City's website
- two Closed Session items re: personal matters about an identifiable individual

Concern was expressed with respect to the addition of a delegation on a matter for which there is no report on the agenda. It was indicated that should the delegation be added, a motion would be introduced to refer the matter for consideration at the Corporate Services Committee Meeting of December 2, 2015, in keeping with the provisions of the Procedure By-law.

With respect to the proposed Closed Session items, Peter Fay, City Clerk, Corporate Services, outlined the provisions of the Procedure By-law that items for consideration during Closed Session must be approved by the City Solicitor or designate.

Mr. Fay suggested that the proposed additions to Closed Session not be added until the Councillors requesting the additions consulted with the City Solicitor.

Later in the meeting, following discussions with the City Solicitor, on a two-thirds majority vote to reopen the question, the Approval of Agenda was reopened and Item U 4 was added to the agenda.

It was noted that the other proposed item for Closed Session would not be considered for addition to this agenda, and that the Councillor requesting the addition would provide a written description of the item to the City Solicitor for the purpose adding it to the Closed Session agenda for the Council Meeting of December 9, 2015.

F. Delegations

F 1. Mr. A. Grewal re: **Taxicab Issues.**

See Item P 1

Regional Councillor Sprovieri introduced Mr. A. Grewal who had contacted him with respect to the installation of new safety cameras in taxicabs.

Mr. Grewal referenced the City's requirement for taxicabs to be equipped with new cameras by November 28, 2015 and expressed concern about the costs of this new equipment, particularly during a time when the industry is experiencing difficulties as a result of increasing costs and competition from companies like Uber.

Mr. Grewal indicated that all taxicabs are currently equipped with cameras and it is only the City of Brampton that requires this new technology. He outlined the cost of the new cameras, and expressed his view that "it is not a good idea to continue installing these cameras at a time when business is down". He requested Council's consideration for an extension to the deadline for installation of the new equipment.

At the request of Council, James Bisson, Manager, Enforcement and Licensing, Corporate Services, provided information on this matter as follows:

- the deadline for installation of the new cameras was established by Council in 2013 in response to a staff report
- a one year extension was previously granted
- the original request for the new cameras was received from Peel Regional Police (PRP) because some of the older cameras failed during the PRP's forensic investigations
- new cameras have been installed in about two-thirds of taxicabs in the City
- staff recognizes the difficulties the industry is experiencing, but this is a safety issue

A motion was introduced to refer the subject matter of the delegation to the Corporate Services Committee Meeting of December 2, 2015.

Minutes City Council

Council discussion on the motion included:

- suggestions for matters to be included in the staff report, and clarification from staff that the motion is for referral of the subject matter and does not include a request for a staff report
- possibility of an extension to the deadline in the referral motion, and an advisory from the City Clerk that if the motion to refer does not carry, a motion for extension could be considered under Item P 1

In response to questions from Council, Mr. Bisson outlined the penalty for non-compliance with the deadline and the possibility of no action being taken until consideration of the matter by Corporate Services Committee.

The motion was considered as follows. As the motion was procedural in nature, a seconder was not required.

C366-2015 Moved by Regional Councillor Gibson

1. That the delegation of Mr. A. Grewal, to the Council Meeting of November 25, 2015, re: **Request for Extension to the Deadline for Installation of Cameras in Taxicabs**, be received; and,
2. That the subject matter of Delegation Item F 1, requesting an extension to the deadline for installation of cameras in taxicabs, be referred to the Corporate Services Committee meeting on December 2, 2015.

Carried

Following consideration of the above, a procedural motion was introduced to reopen the question to provide for consideration of an extension to the deadline. The required two-thirds majority vote was not achieved, and the matter was not reopened.

That the Brampton School Traffic Safety Council do now adjourn to meet again on Thursday, December 3, 2015 at 9:30 a.m. or at the call of the Chair.

P&IS287-2015

Whereas Brampton City Council is committed to building a city with exceptional economic, social and post-secondary educational opportunities for all its residents, and,

Whereas Brampton Council, at its meeting of October 27, 2015, in a 7 to 4 vote, determined the provincial priority route north of Steeles Avenue was not acceptable and would not receive approval of this Council, and that any LRT surface alignment on Main Street north of Nanwood Drive/Etobicoke Creek be considered permanently removed from consideration; and,

Whereas the Council of the Corporation of the City of Brampton recognizes that participating as a 'connected community' within an

City Council**

integrated regional transit network within the Greater Toronto Hamilton Area is integral to delivering this future success; and,

Whereas Brampton is a proven leader in municipal transportation and transit systems with measurable success so that as Brampton continues to grow and prosper, it will plan, design and deliver the necessary higher order, public transit solutions necessary to make ours a keystone city within the GTHA; and,

Whereas Council had not had the benefit of debating or endorsing the 10 alternative alignments to the HMLRT previously explored by staff that had been peer-reviewed by SNC Lavalin; and,

Whereas there may be an opportunity for a Council approved alignment that could be considered by Metrolinx and the Province, and may be compatible with the construction deadlines of the HMLRT, and

Whereas the City of Brampton's Planning and Infrastructure Services Department has already undertaken a broadly scoped review of higher order transit alternatives north of Steeles Avenue, and

Whereas each of these alternative routes was examined in comparison to a specific, simplified, route developed on provincial, as opposed to local Brampton priorities which conform with the Provincial Places to Grow Legislation for Brampton's Urban Growth Centre, and

Whereas the motion passed on October 27, 2015 directs staff to make the necessary adjustments to the Transportation and Transit Master Plan.

Therefore be it Resolved:

1. That the Planning and Infrastructure Services Department reframe its review of the alternative, higher, order public transit routes previously examined, with a view to recommending up to three preferred alternative routes to connect to the Downtown GO station, for Council's consideration; and
2. That the three preferred alternatives presented, take into account Brampton's Strategic Plan, Transportation and Transit Master Pan, Council's priority of Regional connectivity, both north-south and east-west, long term

financial plan, Provincial Policy Statement, Provincial Growth plan, and Brampton's economic and job growth objectives; and

3. That a report presenting staff's best professional recommendations be brought forward for public review and debate on or before March 31, 2016.

P&IS288-2015 That staff report back at the next Economic Development Committee with a recommendation on amending the Sign By-law during the 2015 Santa Claus Parade.

P&IS289-2015 That staff report back at a future Planning and Infrastructure Services Committee meeting with a recommendation on amending display requirements of the Sign By-law and the creation of a sign display fee.

6.3. **Delegation – Mario Russo, Agent for the Property Owner, re: Central Area Community Improvement Plan – Extensions of Deadlines and Request for Payment for Façade and Building Improvement Grant – 23-27 Queen Street East – Ward 3**

Item 8.3 was brought forward and dealt with at this time.

Mario Russo, Agent for the Property Owner (Rucareal Ltd.), referenced recommendation #4 in the staff report that payment of the Façade Improvement Program grant for 23/27 Queen Street East be made only when the project is fully completed as set out in the program implementation guidelines.

Mr. Russo expressed his view that 95% completion has been achieved, that the property owner has full intention to complete the project 100%, and that seasonal and other issues have interfered with completion of the project to date.

Mr. Russo requested Council's consideration for full payment of the program grant, and outlined measures that could be implemented to ensure full completion of the project, i.e. letter of understanding, lien if not completed.

In response to questions from Council, Mr. Russo provided an approximate value of the incomplete work.

Council consideration of this matter included:

- review of the Mr. Russo's request
- substantial financial commitment to this project by the property owner
- evidence of good faith by the owner which meets the intent of the program

**Minutes

P&IS029-2016 That the following items be **referred** to a Council “Lunch and Learn” session, to take place before April 30, 2016:

- Item 6.1 – Report from Brian Lakeman, Growth Management Policy Planner, Planning and Infrastructure Services, dated January 4, 2016, re: City of Brampton and Region of Peel Population and Employment Forecast Updates (File BEX PEF13)
- Proposed motion from Regional Councillor Palleschi:

Whereas it is the City’s desire to ensure that the 2041 growth forecasts for Brampton achieve a minimum activity rate of 37% in 2041;

Minutes City Council

Whereas a realistic expectation ought to be forecasted for future residential intensification in the Downtown and the Queen Street Corridor areas in the City;

Whereas staff recommended 2041 population forecast of 919,000 persons is significantly higher than what has been approved by Council for the City's 2014 Development Charges By-law of 890,000 persons and such a large increase in population if not realized will have significant shortfall to the expected revenues to recover the capital and infrastructure costs;

Whereas the City has assured the landowners in the Heritage Heights community that the Secondary Plan will be planned based on a potential design of 43,000 people and 20,000 jobs to be mostly built out by 2031;
Whereas staff recommended 2041 population forecast for Brampton at 919,000 people will not achieve the desired activity rate, realistic expectation of Downtown and Queen Street Corridor intensification, development charge revenues and will not have any bearing on the secondary planning for the Heritage Heights community;

Whereas the alternative 2041 population forecast for Brampton at 885,000 people and supporting staff recommended 2041 employment forecast for Brampton at 329,000 jobs achieve the City's desired minimum activity rate, establish a more realistic residential intensification for the Downtown and the Queen Street Corridor areas, is more fiscally manageable from a development charge perspective;

Therefore Be It Resolved, that recommendation #2 in the staff report be deleted and replaced with the following:

"That 2041 population and employment forecasts for Brampton of 885,000 persons and 329,000 jobs be endorsed for use in future Regional Official Plan Amendment 27".

Minutes City Council

- Development Charges By-law 167-2014, including application and definitions
- clarification regarding the use status of units 6, 7 and 8 of the property
- clarification that the use of the building did not change, but the use of only a part of the building changed

Mr. Moore cited provisions of the City's Development Charges By-law 167-2014 and the *Development Charges Act* in support of his client's complaint, including the purpose of the By-law and the Act, and definitions relating to development and redevelopment, and expressed his client's view that an error was made by the City in the calculation of the charges.

Mr. Moore responded to questions of clarification from Council regarding his submission.

John Zingaro, Legal Counsel, City of Brampton, made a submission on behalf of the City, and advised Council that:

- a complaint under section 20 of the *Development Charges Act* is not an appeal of the development charges by-law
- a complaint does not allow Council to waive or reduce charges correctly determined in accordance with the Act and by-law
- Council's authority under section 20 is limited to correcting errors in:
 1. the calculation of the charge
 2. the applicability of credits, and
 3. the application of the by-law

Mr. Zingaro cited provisions in By-law 167-2014 and the *Development Charges Act* in response to Mr. Moore's submission, including clarification regarding the definition of a building or structure under By-law 167-2014 and application of development charges, including the correct calculation of the development charge and application of the by-law.

Mr. Zingaro responded to questions of clarification from Council regarding his submission.

Mr. Moore and Mr. Zingaro provided closing arguments on the subject complaint in support of their submissions.

During Council's consideration of this matter, City staff reminded Council of the purpose of the Special Meeting and the options available to Council in making its decision on this hearing, as defined under the *Development Charges Act*.
