Council deciding who and how Council's representatives represent the City at Peel Regional Council.

Councillor Sprovieri outlined the rationale for his motion.

Council discussion on the motion included:

- need for Council to maintain consistent messaging on its long-standing position on regional governance, as reiterated in the correspondence to the Premier
- indication that the City's wards are currently set up to provide for one Councillor per Ward
- comments in support of and opposition to the motion
- request to Councillor Sprovieri to consider deferring his motion until a response has been received from the Premier, and subsequent agreement from him

During consideration of this matter, the City Clerk outlined the process for changes to ward boundaries, and confirmed that process timelines would not accommodate any changes for the next Term of Council (2018-2022). He also confirmed that this process would not be required should a decision be made directly by the Province.

Rubin-Vaughan, Manager, Government Relations and Public Policy, Office of the Chief Administrative Officer, dated January 24, 2018, to the Committee of Council Meeting of January 31, 2018, re: **Association of Municipalities of Ontario (AMO) – Local Share Campaign** be received; and
3. Whereas Ontarians identify infrastructure and transit as the biggest problems facing their municipal government and Ontarians already pay the highest property taxes in the country; and
- Whereas municipalities have limited authority to make changes that are needed to reduce the cost of delivering municipal services and financing infrastructure projects; and
- Whereas a ten-year projection (2016-2025) of municipal expenditures against inflationary property tax and user fee increases shows there to be an unfunded average annual need of \$4.9 billion to fix local infrastructure and provide for municipal operating needs; and
- Whereas this gap calculation presumes all existing and multi-year planned federal and provincial transfers to municipal governments will be fulfilled; and
- Whereas each municipal government in Ontario faces unique issues, fiscal health is a challenge shared by all municipal governments, regardless of size; and
- Whereas diversifying municipal revenues strengthens municipal long-term infrastructure planning and financing and would reduce the vulnerability of municipal governments to any federal or provincial changes and their own respective fiscal health;

**Minutes
City Council**

Therefore Be It Resolved that the City of Brampton request the leaders of each of the three (3) Provincial political parties provide their position on the Local Share initiative, as proposed by the Association of Municipalities of Ontario (AMO) and/or alternatives for addressing the problem of financing infrastructure renewal; and

16.1. Discussion item at the request of City Councillor Bowman, re: **Missing Persons Advisory**

City Councillor Bowman outlined a recent circumstance regarding a missing Brampton resident, and communications issued on the City's social media accounts to get word out about the missing person. Councillor Bowman confirmed that the resident was subsequently located.

Minutes City Council

A motion, moved by City Councillor Bowman and seconded by City Councillor Whillans, was introduced to request that City staff report back to Committee on ways and means to share information across City departments to alert staff to be on the look out for missing persons when local police authorities formally seek the public's assistance to help find missing persons, and report back to Committee of Council on options and opportunities to strengthen staff awareness to assist during such times to help locate missing persons.

Councillor Bowman outlined the reasons for and purpose of his motion.

Council consideration of the motion included:

- request that the staff report include details from Peel Regional Police on how the City could assist in communications about missing residents
- details regarding previous Amber Alert and Safe Bus programs
- potential community groups, organizations and private companies that may also be able to assist, e.g. Region of Peel, utility companies
- need for staff to report back in a timely manner

The following amendments to the motion were introduced and accepted by the mover:

- to indicate that the staff report be directed to the Brampton Community Safety Advisory Committee instead of Committee of Council
- to identify Peel Regional Police and the Ontario Provincial Police

The motion, as amended, was considered as follows.

C048-2018 Moved by City Councillor Bowman
Seconded by City Councillor Whillans

Whereas, from time to time, persons go missing and local police authorities seek the public's assistance to help find missing persons; and

Whereas, the City of Brampton currently shares social media alerts regarding missing local persons, once assistance is requested by local police authorities; and

Whereas, municipalities like the City of Brampton, have significant resources deployed across the City serving our citizens on a daily basis, who can also be alerted to help find missing persons when the public's assistance is requested;

Therefore Be It Resolved That City staff be requested to report back to the Brampton Community Safety Advisory Committee on: ways and means to share information across City departments to alert staff to be on the look out for missing persons when Peel Regional Police and Ontario Provincial Police formally seek the public's assistance; and on options and

CW075-2018

Whereas on February 9, 2018, the Minister of Transportation announced the Province of Ontario has accepted the Greater Toronto Area (GTA) West Advisory Panel's advice to not move forward with a highway for the GTA West Corridor or the completion of the Stage 2 Environmental Assessment;

And whereas in December 2017 the Ministry of Transportation and the Independent Electricity System Operator, with support from the Ministry of Energy, initiated a joint Northwest GTA Corridor Identification Study that will:

- Assess long-term infrastructure uses for a corridor approximately one-third of the size of the analysis of the environmental assessment in northwest GTA;
- Move forward over the next 9 to 12 months looking at future infrastructure, such as utilities, transit or other transportation options, that will be required to support growth in this area;
- Not be conducted as an environmental assessment, and any infrastructure development in the area would require the completion of an environmental assessment;

And whereas the City of Brampton and the Region of Peel have continually been advocating since 2003 for the completion of the

Minutes City Council

GTA West Corridor EA study, in order to identify and protect a preferred route as soon as possible;

And whereas City of Brampton has been assigned 2031 population and employment targets in the Secondary Plan Areas 52 and 53 (Northwest Brampton) and Area 47 (Northeast Brampton) as prescribed by the Provincial Policy Statement and the Region of Peel and Brampton Official Plans, it is imperative the Province move expeditiously to identify a specific corridor to support development in these secondary plan areas to:

- Allow for the advancement of secondary planning in Secondary Plan Areas 52 and 53 (“Heritage Heights”) where development is contingent on the provision of a major north-south transportation corridor;
- Allow for the completion of a roads EA in Secondary Plan Area 47 and for the release of lands that are designated for employment uses;
- Enhance Brampton’s locational advantage for attracting employment;
- Facilitate the movement of goods and people within Brampton and across the Region of Peel;
- Alleviate future congestion on City and Regional roads expected to ensue from forecasted strong growth in Brampton and the wider Region;
- Include alternative transportation modes (e.g. cycling infrastructure and transit) that could reduce the use of single-occupancy vehicles and greenhouse gas emissions;
- Complete long-range transportation and land-use planning in Brampton;
- Complete an integrated highway network cell by connecting to Highway 410 and Highway 427; and
- Facilitate the flow of goods and people on corridors that are already at capacity (e.g. Highway 401).

Now Therefore Be It Resolved That:

1. The Ministry of Transportation be requested to work with the City of Brampton through the current Northwest GTA Corridor Identification Study, including to expeditiously identify a preferred route in Brampton, to ensure planning can commence concurrently on transportation infrastructure required to service the full development of Northwest and Northeast areas of Brampton;

**Minutes
City Council**

2. The Commissioner of Planning and Development in consultation with the Region of Peel, commence a transportation study, to confirm the long term transportation infrastructure needs for Northwest Brampton in parallel to the Northwest GTA Corridor Identification Study;
3. The Mayor, on behalf of Council, write a letter to the Minister of Transportation to outline the impact this provincial decision has on the City of Brampton;
4. A copy of this resolution be circulated to the Premier of Ontario, the leaders and transportation critics for the other provincial parties, the Minister of Transportation, the Region of Peel, and the Town of Caledon.

CW076-2018 That staff be requested to report back with a list of all media outlets the City pays for advertising, promotions and notices, along with a breakdown of all funds paid this term of Council to external media, including the Brampton Guardian, InBrampton and Bramptonist.

1. That the report from B. Parajuli, Manager, Infrastructure Planning, Public Works and Engineering, dated February 27, 2018, to the Committee of Council Meeting of March 28, 2018, re: **Reforms to the Municipal Class Environmental Assessment (MCEA) Process (RM 6/2018)** be received; and
 2. That, as requested by the Ontario Good Roads Association on January 17, 2018, the following resolution of support be adopted to expedite the review of MCEA process by the Ministry of the Environment and Climate Change:

Whereas a coalition of the Municipal Engineers Association (MEA) and the Residential and Civil Construction Alliance of Ontario (RCCAO) have successfully applied to have a review of the Municipal Class Environmental Assessment process conducted under Part IV (Section 61) of the *Environmental Bill of Rights Act, 1993* (EBR Act);

Whereas impact studies and public meetings required by the MCEA process often take two years or more to complete before construction can commence;

Whereas the MCEA requirements to evaluate alternatives are often not well aligned with prior or municipal land use planning decisions;

Whereas analysis by the RCCAO has demonstrated that the time to complete an EA rose from 19 months to 26.7 months and costs went up from an average of \$113,300 to \$386,500;

Whereas the Auditor General of Ontario has tabled recommendations for modernizing the MCEA process;

Whereas in spite of written commitments made by the Ministry of the Environment and Climate Change between 2013-2015, no action has been taken; and

Whereas local projects that do not have the necessary approvals could lose out on the next intake of Build Canada funding;

**Minutes
City Council**

Therefore Be It Resolved that the City of Brampton requests that the Minister of the Environment and Climate Change take immediate steps to expedite the response process for Part II Orders or Bump-Up requests, as part of the s.61 review to improve MCEA process times and reduce study costs;

And further, that the Minister of the Environment and Climate Change support changes to better integrate and harmonize the MCEA process with processes defined under the *Planning Act*,

And further, that the Minister of the Environment and Climate Change amend the scope of MCEA reports and studies to reduce duplication with existing public processes and decisions made under municipal Official Plans and provincial legislation; and

3. That the City Clerk be requested to communicate the resolution to the Minister of the Environment and Climate Change.

16.1. Discussion at the request of City Councillor Fortini, re: **Snow Clearing.**

City Councillor Fortini referenced calls and complaints he received as a result of the snow storm during the weekend of April 14, 2018, and asked about the possibility of extending future contracts for snow clearing services.

At the request of Council, Joe Pitushka, Commissioner of Public Works and Engineering, outlined the measures taken by staff to prepare for and deal with the snow storm, as well as challenges faced by the municipality due to the unavailability of resources, given that such a weather event is not expected at this time of year. He also provided an update on current snow clearing services.

Minutes City Council

Mr. Pitushka confirmed that staff will be meeting to review what was done right and what could have been done differently to better position the City for addressing such weather events in future, and would report back accordingly.

Council discussion on this matter included:

- acknowledgement that the recent snow storm was an anomaly for April
- challenges to and efforts by staff in responding to this event
- financial and other impacts of extending contracts
- details from Members of Council on calls and complaints they received, and an indication that most residents were understanding once the challenges were explained to them
- lessons learned, including need for better communications to residents during such circumstances

The following motion, moved by City Councillor Dhillon and seconded by City Councillor Fortini, was introduced:

Be it resolved that staff debrief and report back on:

- a) How to tackle climate change issues in the City of Brampton, and how it effects extreme weather events, including changing the way contracts are structured including start and end dates and/or getting contingency funds/plan in place to handle extreme weather situations, and
- b) Developing an appropriate communications strategy to our residents which is timely and incorporates all media outlets and platforms.

An amendment to the motion was requested to specify that staff report back to Committee of Council on this matter. The mover of the motion agreed to the amendment.

Council discussion on the motion included:

- reiteration that the snow storm was an anomaly for April, and that extension of contracts would result in financial and other impacts to the municipality
- acknowledgement that climate change is addressed in the City's Environmental Master Plan
- proposed amendment to the motion to include consultation with the City's Environmental Planners, and an indication from staff that various departments would be engaged in the development of the report
- suggestion that the motion identify specific information to be included in the staff report, such as financial and other impacts, input from the

**Minutes

Environment Advisory Committee, alternate service methods, and a reminder that staff had indicated this type of information would be included in the report

- need for consideration of service levels and any changes thereto during annual budget deliberations

An amendment, moved by Regional Councillor Sprovieri and seconded by Regional Councillor Palleschi, was introduced to add the following clause to the motion:

- c) That in circumstances of extreme weather conditions the Mayor, or designate, be required to provide a media release to the public.

Council consideration of the amendment included questions about the need for this added clause, given that Council and staff have acknowledged the need for enhanced communication in future circumstances and that staff had confirmed this topic would be part of the review of this matter.

A recorded vote was requested on the amendment, with the results as follows:

16.2. Discussion at the request of Regional Councillor Palleschi, re: **University Announcement.**

Regional Councillor Palleschi referenced the Province's university announcement that was to take place at Brampton City Hall on April 16, 2018, but was postponed due to inclement weather. He inquired about the change in venue from City Hall, which would have allowed residents to attend free of charge, to being incorporated into a Brampton Board of Trade (BBOT) event that required an admission fee.

**Minutes
City Council**

Staff clarified that the decision to postpone and relocate the announcement was a provincial one, and the change of venue may have been decided since the Minister of Advanced Education and Skills Development was already scheduled to attend the BBOT event.

Council Members expressed disappointment that the announcement was not rescheduled for another date at City Hall.

18.1. Briefing Report from the Office of the Chief Administrative Officer, re: Government Relations Matters

The subject briefing report was distributed at the meeting.

Rob Elliott, Commissioner of Planning and Development Services, outlined key elements in four reports on growth management that are to be considered at the Regional Council meeting of April 26, 2018.

Mr. Elliott highlighted the importance of Brampton holding to its position on employment and population allocations and outlined City staff's recommendation (page 18.1-13 of the briefing report), as follows:

That Council continues to have a united and firm position in requiring that the Region Council does not reduce the agreed upon 2041 allocations for both employment and population, and that the employment activity rate be held at the agreed upon rate of 37% (and push for 40%) without reducing population forecasts.

Committee of Council Recommendation CW128-2018, which was extracted from the Minutes (Item 10.2), was dealt with at this time.

Mr. Elliott requested Council's consideration for amendments to CW128-2018 to reaffirm the City's position on employment and population allocations.

The following motion, moved by Regional Councillor Moore and seconded by Regional Councillor Gibson, was introduced to adopt staff's proposed amendments.

That Recommendation CW128-2018 be struck out and replaced with the following:

**Minutes
City Council**

WHEREAS recent provincial policy decisions including new requirements for Municipal Comprehensive Reviews and Land Needs Assessment Methodology has an impact to the Region of Peel's integrated approach to growth management;

AND WHEREAS the decision to cancel the GTA West Corridor, the Region will be reviewing the distribution of draft growth forecasts for the area municipalities along with implementation strategies;

AND WHEREAS at the April 26, 2018 Region of Peel Council meeting the following detailed presentation and four comprehensive reports related Growth Management have been added to the agenda to address the impact of the provincial policy decisions:

AND WHEREAS, it continues to be in the interest of the Region to have continued cooperation from its area municipal partners, and the highest integrity in the data used, throughout the Peel 2041 Growth Management ROPA process;

NOW THEREFORE BE IT RESOLVED THAT:

1. It is of utmost imperative that the preliminary, and agreed upon 2041 activity rate for Brampton, based on the draft population and employment forecast, not be adjusted downwards during

the review and that all efforts be made to achieve Council directed 40% activity rate;

2. The City of Brampton continue to work with the Region to ensure this important work continues to progress in a coordinated manner;

4. A copy of this resolution immediately be circulated to the Region of Peel for consideration at its April 26, 2018 agenda.

Mr. Elliott responded to questions from Council with respect to the Region's integrated approach to growth management, Council's approved position on employment and population allocations, and the overall plan for growth management.

Item 8.1 was brought forward and dealt with at this time.

Paul Aldunate, Expeditor, Office of the Chief Administrative Officer, provided a presentation entitled "University Update" and outlined highlights from the staff report (Item 8.1).

In response to questions from Council, staff provided information on the following:

- reasons for the Ryerson University choice of location
- consultation with the Downtown Brampton BIA regarding the parking strategy
- due diligence and site preparation for the new downtown central Library and the Centre for Innovation
- ownership of and financial responsibility for financial costs for the Centre for Innovation (this is a City project, but staff will be working with the future tenants, including Ryerson University, and specific details will be articulated in Memorandums of Understanding)
- location chosen by Metrolinx for GO Transit parking
- studies/reviews of student housing and parking, traffic impacts, shadowing, et cetera.
- future of the Downtown Transit Terminal (to be addressed in the Queen Street Rapid Transit Study)

Council consideration of this matter included:

- need to reinforce in City communications that the City had no responsibility for, nor input into, the choice of locations for the University and GO Transit parking, rather this decision was made by Provincial and Ryerson University officials
- varying comments and opinions on the choice of locations for the University and GO Transit parking
- proposed amendment to Recommendation #3 in the staff report to articulate the parties to be consulted on the City planning processes for this project
- need to ensure that the site for the Centre of Innovation is ready in advance of any funding announcements from the Provincial or Federal Governments to ensure the project meets requirements for funding (i.e. is "shovel-ready")
- need to spread the costs for the Centre for Innovation over several budget years and to build incrementally
- suggestion that the Centre for Innovation be built with as great a density as possible to maximize the City's investment, revenue and opportunities

The subject minutes were distributed at the meeting.

Regional Councillor Moore, Committee Chair, introduced the minutes and provided a summary of matters considered at the meeting.

Council discussion took place with respect to Recommendation PDC060-2018 (Zoning By-law amendment for Royalcliff Developments Incorporated), which was considered at the Committee meeting as follows:

*PDC060-2018

“7. That staff be requested to make best efforts to provide a final recommendation report and corresponding zoning by-law amendment for the Royalcliff Developments Incorporated application proposing 110 townhouse units, 4 semi-detached units and a public road network, for consideration at the June 27, 2018 meeting of Council, or the July 11, 2018 meeting in the alternative if necessary.”

In response to questions and comments from Council, Harry Schlange, Chief Administrative Officer, and Rob Elliott, Commissioner of Planning and Development Services, highlighted the following:

- best efforts made by staff on all development applications
- various iterations of the application over a period of several years
- studies that require updating and revisions
- potential need for reallocation of staff and/or additional staff resources
- challenges for Planning staff in meeting specific dates for development applications, given that not all matters relating to applications are within staff's control
- key projects Planning staff is currently working on

Council Members expressed varying opinions about requesting staff to “make best efforts” to provide a final recommendation report and zoning by-law amendment by a specific date.

Comments in support of the motion included the need to resolve this application given the amount of time it has been active, impacts on area residents who have been engaged in the process for this application over several years, and limited number of Council meetings over the summer and fall months for consideration/approval of applications.

Comments against the motion included the need to stay within the planning process, acknowledgement that best efforts are made by staff for all development applications and that not all matters relating to these applications are within staff's control, the potential for setting a precedent by advancing one development application over another, and the potential impact on staff resources.

A recorded vote was requested and taken on Recommendation PDC060-2018, with the results as follows:

Minutes City Council

Council consideration of this matter included:

- acknowledgement that safety issues need to be addressed by all levels of government, appropriate agencies, and members of the community
- importance of accurate communications about these situations to mitigate false information, such as singling out certain members of the community (international students, those living in certain housing), or accusing municipalities/agencies of not doing their jobs
- need for enhancements at the federal level to assist municipalities, such as higher penalties for violent crimes, enhanced gun control measures, and increased funding
- details from staff with respect to measures being taken at the City level to address public safety matters
- suggestion that a lead individual/agency be identified in the motion
- impact of a growing population on City resources and needs
- opportunity for Regional Councillors to request information from the Peel Regional Police Chief at the Region of Peel Council meeting on June 28, 2018
- concerns about information provided at the recent townhall meeting and contained in a letter from Mr. Sangha to the Mayor

The following amendments to the motion were proposed and agreed to by the mover:

structured, costs are high, and students do not attend classes but still receive a diploma

- E. Request Peel Regional Police to provide regular updates to Council regarding recent attacks

The Mayor, as mover of the main motion, noted that some of the points in the proposed amendment are not related to the Community Safety and Well Being Plan, and suggested that the items outlined in the amendment be added to the list of matters to discuss at an upcoming meeting with MPPs.

In response to a question from Council, staff outlined challenges in meeting the report deadline outlined in the proposed amendment.

Members of Council expressed varying views with respect to the actions outlined in the proposed amendment.

The Mayor, as Chair of the meeting, ruled the amendment “out of order”.

The Mayor’s ruling was challenged by Councillor Dhillon.

The following procedural motion, moved by Regional Councillor Moore, was introduced. As the motion was procedural in nature, a seconder was not required.

That the Mayor’s ruling on Councillor Dhillon’s proposed amendment be upheld.

An amendment to the motion was requested by Councillor Gibson to add the following additional clause. The mover of the motion agreed to the amendment.

3. The Mayor send a letter, on behalf of Council, to congratulate the Prime Minister on his stance on this matter.

The motion, as amended, was considered as follows.

C181-2018 Moved by Mayor Jeffrey
Seconded by City Councillor Gibson

WHEREAS, the North American Free Trade Agreement (NAFTA) governs nearly every aspect of Canada and the United States economic relationship including manufacturing, agriculture, resources industries, and services;

AND WHEREAS, about 80% of all of Ontario's exports go to the United States and Ontario is the top trading partner of half of all American States;

AND WHEREAS, even minor changes to the established trade relationship between Canada and the United States could have significant consequences for workers, consumers, and governments on both sides of the border;

AND WHEREAS, on June 1, 2018, tariffs of 25% and 10% were applied to Canadian steel and aluminum imports, but does not impact products made from steel/aluminum (fabricated products). As this does not impact fabricated products, the number of companies directly impacted is lower but those exporting steel and aluminum are being charged the tariffs, resulting in:

- a) reducing their already tight profit margin;
- b) short term labour disruptions as orders are cancelled or put on hold;
and
- c) resulting in a tightening supply of steel resulting in increased prices

AND WHEREAS, indirectly, these tariffs impact other companies in the supply chain as steel/aluminum companies' ability to pay (i.e. suppliers and service providers). Based on various reports, if tariffs are proposed for the automotive industry (potentially at 25%), these impacts would be seen on a greater scale.

**Minutes
City Council**

AND WHEREAS, the Government of Canada has announced reciprocal counter-tariffs on US steel and aluminum, as well as 10% surtax on several US consumer goods, that will come into effect on July 1, 2018 (the Canadian Government recently finished its consultation with businesses on the impact of these counter-tariffs);

AND WHEREAS, through business visits and industry meetings, the City of Brampton's Economic Development and Culture Department has proactively reached out and discussed the impacts of these tariffs with a number of Brampton companies to understand the impacts across a number of sectors, these discussions will continue; and

AND WHEREAS, Canada's and Ontario's economic future and the continued well-being of communities and their local economies depend on free and fair trading relationships based in current future trade agreements;

AND WHEREAS, the Association of Municipalities of Ontario (AMO) are working with the Federation of Canadian Municipalities (FCM) to ensure that Canadian and Ontario Governments understands the municipal impacts affected by trade disputes and during ongoing trade agreement negotiations.

NOW THEREFORE BE IT RESOLVED THAT:

1. The City of Brampton stands together with the Federal and Ontario governments, AMO and FCM in collaborative efforts to protect Canadian jobs, local economies and support the interests of municipalities and communities affected by trade disputes and during ongoing trade agreement negotiations;
2. A copy of this resolution be sent to the Prime Minister, the Minister of Foreign Affairs for Canada, the Premier-Designate of Ontario, the Association of Municipalities of Ontario, and the Federation of Canadian Municipalities, and sector specific associations including, but not limited to the Canadian Manufacturers and Exporters and Ontario Aerospace Council; and,
3. The Mayor send a letter, on behalf of Council, to congratulate the Prime Minister on his stance on this matter.

Whereas, Brampton continues to face significant population growth; and

Whereas, City Council has endorsed an Environmental Master Plan; and

Whereas, City staff continue to update and ensure conformance to the zoning by-law;

Whereas, it is imperative that the City demonstrate clarity and strengthen its consistency in how growth and property modifications are completed as it pertains to the zoning bylaw;

Whereas, a group of City staff comprised of enforcement and bylaw, building and legal service are working collaboratively on a vexatious complaint policy;

Therefore be it resolved, that staff be directed to continue its work on a vexatious complaints policy and present to council at a future meeting for consideration;

That staff bring a report and recommendations on how to best mitigate historical property modifications (i.e. conditions and rules for grandfathering), and investigate the potential for development of a permit process for minor property modifications (e.g. driveway widening) to ensure residents and contractors are aware of the by-law requirements and to ensure that any work completed adheres to all applicable requirements and restrictions inclusive of any financial and staffing resource implications.

That until such time as a report is brought before Council for consideration, enforcement of Zoning By-law 270-2004, as amended, specifically in regard to residential driveways be suspended; such that all new complaints, and all current complaints under investigation, and all

1. Richard Domes, Principal Planner, Gagnon Walker Domes, on behalf of 1435586 Ontario Inc.;

Minutes City Council

The delegations addressed Council as follows:

Richard Domes, Principal Planner, Gagnon Walker Domes Ltd. (GWD):

- GWD is representing 1435586 Ontario Inc., owner of 30 McLaughlin Road South within the proposed new Brampton Flowertown Secondary Plan
- in 2014, Council approved an application to amend the Official Plan and Zoning By-law for these lands
- the decision of Council was appealed to the Ontario Municipal Board (now Local Planning Appeal Tribunal (LPAT))
- an LPAT settlement hearing is scheduled for October 5, 2018
- the settlement documents prepared for the hearing were based on the current in-force Secondary Plan
- subsequent to deferral of this matter, he worked with staff toward an amendment to the Brampton Flowertown Secondary Plan to reflect the proposed settlement
- GWD's client is in support of the Plan as presented at this meeting

Marc De Nardis, Planning Associate, Gagnon Walker Domes Ltd. (GWD):

- referenced eight items of correspondence from GWD clients (attached to Item 8.7 and listed under Item 11.1-2)
- indicated that GWD's clients are generally satisfied with the proposed Secondary Plans, but are concerned about the impact of new provisions in the *Planning Act* pursuant to Bill 139, specifically Section 22 (2.1 to 2.2), which indicates that "no person or public body shall request an amendment to Official or Secondary Plans before the second anniversary of the first day any part of the plan comes into effect"
- provided an extract from Section 22 of the *Act* for Council's reference
- currently GWD has four active applications in the lands subject to the proposed Secondary Plans
- requested that, sometime in 2019, staff report back to Council with an outline of the requirements for seeking an amendment to Plans within the two-year period (pursuant to the exception outlined in Section 22(2.2) of the *Planning Act*), should any of these four applications be before Council within the two-year period

At the request of Council, Rob Elliott, Commissioner of Planning and Development Services, responded to Mr. De Nardis' concerns, as follows:

- staff has worked with a number of applicants on their concerns about the proposed new Secondary Plans, and have found resolutions to these concerns
- confirmed there are some mechanisms that still need to be resolved as some of these tests have not been completed through the Local Planning Appeal Tribunal process yet, and that Brampton is not the only municipality wrestling with new rules around planning

Minutes City Council

- while the *Act* does speak to a two-year freeze, for applications that are underway, it is staff's opinion that these applications will continue to be processed as they are today and will not be subject to the two-year freeze
- outlined staff's position that Council should proceed with the proposed new Secondary Plans as presented at this meeting

The following motions were considered.

**Minutes

C246-2018 Moved by City Councillor Whillans
Seconded by City Councillor Bowman

That the verbal update from J. Pittari, Commissioner of Corporate Services, to the Council Meeting of September 12, 2018, re: **Driveway Widenings**, be received.

Carried

Council discussion took place with respect to driveway widenings, during which time the following motion, moved by City Councillor Fortini and seconded by City Councillor Dhillon, was introduced.

1. That by-law enforcement with regard to driveway widenings be suspended until such time as a by-law amendment has been considered; and,
2. That the matter be referred back to staff for further consideration.

Council discussion on the proposed motion included:

- varying opinions about suspending enforcement of driveway widenings
- concerns about environmental impacts and related costs to the City as a result of driveway widenings
- indication that this matter had already been referred to staff for consideration

Peter Fay, City Clerk, provided a reminder that a motion to suspend enforcement of driveway widenings was considered, voted on and *lost* at the Council Meeting of July 11, 2018.

Mr. Fay outlined the provisions of the Procedure By-law as they relate to reopening a Council decision, beginning with a motion to temporarily suspend the rules of procedure to waive the notice requirements, which requires a two-thirds majority vote. He indicated that, should the first motion carry, then Council could consider a motion to reopen its decision, which would also require a two-thirds majority vote.

The following motion, moved by Regional Councillor Medeiros, who voted on the prevailing side at the July 11, 2018 Council meeting, was introduced and considered as follows. As the motion was procedural in nature, a seconder was not required.
