identify opportunities to consistently clarify and standardize in-kind funding by the City as part of the application process, in addition to cash-based funding, with best efforts to report back to Council on May 11, 2016 on this matter, including the implications of the following motion:

Whereas the City of Brampton benefits from the richness of its diverse multicultural population representing more than 209 distinct ethnic backgrounds and over 89 different languages that adds to the quality of life in Brampton and is a significant part of our national and international reputation; and

Whereas our residents are justifiably proud of their heritage and contribute to our community by learning and sharing the diversity that is truly Brampton's strength, an asset we have celebrated since 1982, through Carabram; an award-winning festival committed to the preservation, development and promotion of Brampton's cultural diversity; and

Whereas Carabram provides family-friendly events encouraging positive cultural exchange and will generate a positive economic impact of more than \$440,000 this year, its future success is dependent upon the continued support of the City of Brampton which has reduced its grant to Carabram by more than \$60,000 in two years while doubling facility rental costs by; and

Whereas other municipalities are increasing their participation and expanding their partnerships with volunteer multi-cultural festivals within their community; therefore, be it resolved

That the City of Brampton adds \$15,000.00 'in-kind' City services support to the 2016 Carabram Festival in addition to the \$49,440.00 recommended in the Community Grant Program Committee Recommendations for Funding 2016; and further

That the City of Brampton commit to exploring opportunities to support a strong and successful future for Carabram, a festival that unambiguously falls within the City's approved "Strong Communities" strategic objective by (i) supporting diversity and (ii) celebrating our citizens and creating partnerships through arts, culture and social interaction.

10.3. **Minutes – Corporate Services Committee – May 4, 2016**

Regional Councillor Medeiros, Committee Chair, introduced the minutes and provided a summary of matters considered at the meeting.

Minutes City Council

Staff responded to questions from Committee with respect to the Health Care Spending Account (Recommendation CS063-2016) and the role of the Council Compensation Committee.

The following motion was considered.

C154-2016 Moved by Regional Councillor Medeiros
Seconded by City Councillor Bowman

1. That the **Minutes of the Corporate Services Committee Meeting of May 4, 2016**, to the Council Meeting of May 11, 2016, be received; and,
2. That Recommendations CS061-2016 to CS073-2016 be approved, as outlined in the subject minutes.

Carried

The recommendations were approved as follows.

CS061-2016 That the agenda for the Corporate Services Committee Meeting of May 4, 2016 be approved, as amended, to add the following item:

- 10.1. The following matter was referred to this meeting, pursuant to Council Resolution C136-2016.

C136-2016 That the following motion be **referred** to the next meeting of the Corporate Services Committee and, in the meantime, the City Clerk contact Brampton's Integrity Commissioner to obtain a "ruling" on whether the motion losing at Committee (Recommendation CS052-2016) on April 20, 2016 is contrary to the provisions of Council's Code of Conduct:

"That staff be directed to research and report to the two Ward Councillors regarding the disappearance of the corporate twitter account for Wards 7 and 8."

CS062-2016 1. That the report from R. Rao, Executive Director/Chief Information Officer, Information Technology, Corporate Services, dated March 30, 2016, to the Corporate Services

**Minutes
City Council**

Committee Meeting of May 4, 2016, re: **Annual Public Sector Network (PSN) Update and New Agreement Authorization** be received; and,

2. That the Financial Results for 2015, as outlined in Appendix A, and PSN Proposed Budget for 2016, as outlined in Appendix B, be approved with no impact to the overall City budget; and,
3. That the Mayor and City Clerk be authorized to execute a new Public Sector Network (PSN) agreement between the Town of Caledon, City of Mississauga, Region of Peel, and the City of Brampton for an initial term of 10 (ten) years plus a 10 (ten) year renewal option, in a form acceptable to the City Solicitor and the Content approved by the Chief Information Officer (CIO).

CS063-2016

Whereas Council passed Resolution C055-2013 to establish a Health Care Spending Account (HCSA) for elected officials who have achieved 65 years of age, and have served four (4) consecutive terms of Council as follows:

- “3. That the retirement allowance/severance provisions for elected officials, effective with the 2010-2014 term, be established based on the following:
 - c. for elected officials who have achieved 65 years of age, and have served four (4) consecutive terms of Council, a Health Care Spending Account administered through the Corporation’s benefits provider, of up to \$5,000 per year (indexed annually based on the Ontario Consumer Price Index for Health and Personal Care) for a coverage period of one (1) year for each two (2) years of service, with such Health Care Spending Account program to be reviewed by staff every two years to ensure adequate coverage;

except that such provisions do not apply where a Member of Council leaves office as a result of a judicial determination;”

Whereas a Health Care Spending Account (HCSA) is not a benchmarked post 65 years of age (out of office) benefits program established by other comparable municipal jurisdictions afforded to elected officials after leaving office;

**Minutes
City Council**

Therefore be it resolved that the HCSA for elected officials who have achieved 65 years of age be eliminated, effective January 1, 2017, on a go forward basis.

CS064-2016
Lost

Be it further resolved that the existing HCSA for elected officials who have achieved 65 years of age be continued only for the four (4) current eligible Members of Council, as established by Council Resolution C055-2013, subject to the following revisions:

- a. Reducing the annual benefit from \$5000 (pre-indexed amount) to \$1000 per year;*
- b. Elimination of the one (1) year rollover provision;*
- c. Elimination of the annual benefit indexing based on the Ontario Consumer Price Index for Health and Personal Care.*

CS065-2016
Lost

That the Council Compensation Committee be disbanded for the remainder of this term of Council.

CS066-2016

1. That the **Minutes of the Council Compensation Committee Meeting of March 31, 2016**, to the Corporate Services Committee Meeting of May 4, 2016, be received, as amended to delete Recommendation CCC008-2016; and,
2. That Recommendations CCC003-2016 to CCC007-2016 and CCC009-2016, be approved as printed and circulated.

CCC003-2016

That the agenda for the Council Compensation Committee Meeting of March 31, 2016, be approved as printed and circulated.

CCC004-2016

Whereas the Corporation of the City of Brampton has established a policy on vehicle allowance, as set out in Corporate Policy 13.1;

Therefore be it resolved that the Mayor and Councillor vehicle allowance be established, on a go forward basis, based on Corporate Policy 13.1, with respect to any annual rate of increase.

CCC005-2016

Whereas Council passed Resolution C295-2015 and By-law 243-2015, to eliminate the one-third tax-free exempt status for Mayor and Councillor salaries, effective January 1, 2016; and

**Minutes
City Council**

Whereas Council decided in 2013, through Resolution C055-2013, adopting Recommendation CCC005-2013, to establish a new pension program by adopting the following clause:

“4. That the City of Brampton replace the RRSP program and provide a retirement pension cash amount, based on the City’s annual OMERS contribution rate and the current formula for determining the income base, subject to statutory deductions, representing the annual retirement pension contribution for all elected officials regardless of their circumstances, effective January 1, 2010.”

Whereas not all Councillors opted into the new pension program based on the OMERS program;

Whereas Council’s decision was predicated on a salary structure based on the one-third tax-free exempt status being in effect, which has since been eliminated, necessitating a change to pension program Council resolution wording so it is applicable to the current salary structure based on the eliminated one-third tax-free exemption status;

Therefore be it resolved that, for clarification and housekeeping purposes, the application of Clause 4 be amended to replace the words “and the current formula for determining the income base” with “and is based on the prior year pensionable income” such that Clause 4 now reads as follows:

“4. That the City of Brampton replace the RRSP program and provide a retirement pension cash amount, based on the City’s annual OMERS contribution rate and is based on the prior year pensionable income, subject to statutory deductions, representing the annual retirement pension contribution for all elected officials regardless of their circumstances, effective January 1, 2010.”

CCC006-2016

Whereas benchmarking information for comparator municipalities establishes a group benefits program for elected officials while actively serving in office;

Therefore be it resolved that the benefits program for active elected officials (while in office) continue to be established based on the current non-union active employee group benefits program.

**Minutes
City Council**

- CCC007-2016 Whereas benchmarking information for comparator municipalities establishes a group benefits program for elected officials, between the ages of 55 and 65, when no longer in office;
- Therefore be it resolved that the benefits program for elected officials, between the ages of 55 and 65, when no longer in office, continue to be established based on the current non-union employee early retirement group benefits program until the age of 65, subject to eligible elected officials who have achieved 55 years of age, at time of retirement, having served three (3) consecutive terms of Council, except that such provisions do not apply where a Member of Council leaves office as a result of a judicial determination.

14. Notices of Motion

14.1. Notice of Motion – Brampton Calls on Province to Impose a Ban on Door-to-Door Sales Activities in the Home Services Sector

A revised Notice of Motion was distributed at the meeting.

City Councillor Dhillon provided an overview of the proposed motion.

Council consideration of this matter included:

- benefits of the proposed ban on door-to-door sales, particularly for vulnerable residents (seniors, those new to Canada)
- concern about legitimate sales people, e.g. realtors, being banned from door-to-door sales
- indication from staff that if the ban is adopted by the Province, consideration would be given to the sectors to be covered by the ban and that the legislation process would likely include stakeholder consultations

The motion was considered as follows.

C156-2016 Moved by City Councillor Dhillon
Seconded by Regional Councillor Medeiros

Whereas the Provincial Government implemented the Stronger Protection for Ontario Consumers Act in April, 2015 to address, among other things, aggressive and misleading door-to-door sales tactics;

Whereas over the last 12 months, the residents of Brampton continue to experience unsolicited, aggressive and misleading sales tactics at their

**Minutes
City Council**

door from companies seeking to sell home energy products, despite this provincial legislation;

Whereas the door to door agents acting on behalf of these companies misrepresent their purpose and/or identity, often posing as utility inspectors and government agents needing to gain access to the homes of Brampton residents;

Whereas people across Ontario, and in particular vulnerable Brampton residents, have been targeted by these door-to-door misrepresentations and misleading sales tactics;

Whereas one such Peel Region-based company has been recently charged with 142 breaches of the Consumer Protection Act due to this fraudulent and misleading sales conduct, previous attempts by the Province to protect Ontarians have failed;

Whereas the province has adopted a ban on door-to-door sales for electricity and natural gas contracts by passing the Strengthening Consumer Protection and Electricity System Oversight Act, 2015;

Whereas a private member's bill, Bill 193, Door-to-Door Sales Prohibition Act, 2016 has recently received first reading in the Provincial Legislature and the proposed law would among other things prohibit the door to door sales of air conditioners, water heaters, furnaces, water treatment devices and any other prescribed product;

Therefore be it resolved that Council moves to:

1. Urge the Provincial Government to ban all door-to-door sales in the home services sector (more specifically the sale or lease of HVAC equipment, water heaters, water filtration systems and other related home energy products and services by door-to-door sales agents) as soon as possible;
2. Issue an alert via media release and other forms of communication to Brampton residents to warn them about ongoing door-to-door sales activities;
3. Encourage other municipalities across Ontario through the Association of Municipalities of Ontario, to join with Brampton and Mississauga in calling on the Province to act.

The lost motion, in its entirety, is as follows.

C186-2016 *Moved by City Councillor Dhillon*
Lost *Seconded by Regional Councillor Medeiros*

Whereas the Brampton City Council needs to focus on and reflect the 2016-2018 Strategic Plan when making decisions affecting the City and its residents;

Whereas Brampton is expected to grow to a 2041 forecasted population in the order of 890,000 with a forecasted employment number in the order of 329,000 which, despite the city's competitive advantages, will only achieve an activity rate of approximately 38%;

Whereas in 2015 the City of Brampton's residential construction rate comprised 89% of the \$388 million in total building permits, and in 2016, 71% of the \$420 million in building permits, compared to Mississauga's 47% of the total \$1.3 billion total building permits;

Whereas the initial report on the Municipal Comprehensive Review for Employment Lands (May 25, 2015) prepared by Hemson Consulting Ltd. states that "it is important to retain as much employment land as possible, both inside the built boundary and in the greenfield lands designated for growth to 2031 and beyond" [because] these lands and their related employment cannot be replaced, once redesignated;"

Whereas Brampton currently has a lower activity rate compared to other large urban municipalities across the GTA significantly – provincially and nationally, at 33% , creating a larger gap in residents compared to job opportunities in the City, resulting in significant net out-commuting;

Whereas in the City of Brampton's Official Plan, consideration needs to be given to where the City can strengthen and clarify policies to reduce the opportunities for the conversion of employment lands to other uses that may be permitted within existing policy;

Whereas the final Hemson report (May, 2016) concludes that there is sufficient land for residential use and no need for more conversions because it is important to protect employment lands and green fields;

Whereas the supply of employment land is finite;

Whereas the City of Brampton Economic Development Master Plan will determine our economic direction for the next 25 years;

**Minutes
City Council**

Therefore be it resolved that:

1. *Recommendation PISC128-2016 be amended to refer back to the Planning and Infrastructure Services Committee for further consideration after the City's Economic Development Master Plan is completed and adopted by Council, the following Clause 2 of the Recommendation:*
 2. *The following requests for conversion to non-employment uses in the Official Plan be supported, in principle, as described in the following reports:*
 - a) *Ouray Development Inc.: Redesignation to Residential (3ha/7.4 acres);*
 - b) *Alpa Stone: Redesignation to Residential (2.06 ha/5 acres);*
 - c) *Castlemore Country Properties: Redesignation to Residential (4.8ha/11.8 acres);*
 - d) *10534 Hurontario St.: Redesignation to Business Corridor (12.06 ha/29.8 acres);*

- questions about the potential impact of Ontario’s *Smart Growth for our Communities Act* and the proposed 40% activity rate objective, and details from staff in response
- general agreement that the 40% activity rate objective is achievable
- need for a close alignment with the Economic Development Division toward identifying and implementing incentives to attract businesses to Brampton

C211-2016 Moved by City Councillor Dhillon
Seconded by Regional Councillor Sprovieri

Whereas a majority of residents in the last election gave Council a strong mandate to focus on increasing job opportunities in Brampton;

Whereas the 'activity rate' is a key indicator of a municipality's job-to-population ratio;

Whereas our Economic Development Master Plan will assist us in attracting more jobs from the Health and Life Science, Advanced Manufacturing, Information Technology, and Food & Beverage sectors;

Whereas employment growth and increased employment lands add to the non-residential assessment base, providing for a more balanced tax base;

Whereas a more balanced activity rate will result in a potentially lower residential tax rate;

Whereas a strong economic base established on employment lands is the kind of foundation that helps to attract higher order jobs and new assessment opportunities particularly as greenfield opportunities diminish;

Whereas a potential university site locating to Brampton will spur greater economic growth in higher order jobs in existing and new sectors;

Whereas increasing the City's forecasted 2041 activity rate to 40% would equate to an increase of approximately 15,000 – 25,000 net new job opportunities for the residents of Brampton, above and beyond the number of jobs in the existing forecasts;

Therefore be it resolved that:

- a. City of Brampton staff be directed to work with the Region of Peel, and area municipalities, during the Growth Plan Forecast compliance exercise, toward achieving a forecasted minimum activity rate in the order of 40% for Brampton by 2041;
- b. The City of Brampton accommodate the additional jobs required to achieve the forecasted 40% activity rate by 2041 through appropriate employment land designations in the remaining greenfields, intensification, and/or increasing the proportion of office uses over time.

**Minutes
City Council**

Note: Recommendation CYC065-2016 below was referred to staff pursuant to Recommendation P&IS219-2016.

- CYC065-2016 Whereas the Provincial Government implemented the Ontario Climate Change Strategy to reduce greenhouse gas emissions to 80% below 1990 levels by 2050, and build a prosperous low-carbon economy;
- Whereas increasing cycling can play an important role in meeting our climate change goals;
- Whereas Ontario's daily cycling mode share is currently 1%;
- Whereas an Ontario wide poll shows that 4.5% of Ontario residents ride a bike at least monthly and that 54% of Ontario residents want to cycle more than they currently do;
- Whereas of the 54% polled, 67% would be encouraged to cycle more if there were more and better cycling infrastructure available (Share the Road, 2014);
Whereas the Brampton Cycling Advisory Committee (BCAC) recognizes cycling as a way of addressing climate change;
- Whereas the BCAC have implemented a successful Community Ride Program which has increased cycling awareness in the City of Brampton;
- Whereas the City of Brampton has an Environmental Master Plan, Pathways Master Plan, and a Transportation Master Plan of which the BCAC feels cycling needs to be a major component;
Whereas there is a strong interest among municipalities in building and investing in cycling infrastructure, as demonstrated during the first funding round of the Ontario Municipal Cycling Infrastructure Program, which received 150 applications from municipalities;
- Whereas Brampton is addressing gaps in cycling infrastructure, and that closing these gaps will increase the safety of our residents and encourage more cycling as a means of transportation;
- Whereas an investment in cycling infrastructure will complement the investments in public transit being made at both the provincial and federal levels;
- Whereas an investment in cycling infrastructure will improve and enhance the multi-use trail system;

**Minutes
City Council**

Whereas cycling plays an important role in promoting public transit, helping Ontarians make the journey to and from the nearest transit stations more convenient and accessible;

Whereas an investment in cycling would support and promote cycling for all trips under 5k including walking and cycling routes to schools;

Whereas a funding commitment will help to achieve the goals set out in Ontario Climate Change Strategy and also contribute to meeting objectives in the Province's CycleOn Strategy and Action Plan 1.0;

Whereas these funds would be in addition to and not impact any other funding provided by the Province for infrastructure;

Therefore be it resolved that it is the position of the Cycling Advisory Committee that:

1. The Provincial Government be urged to recommend that the provincial cap and trade programs be leveraged to provide \$200 million for cycling infrastructure across Ontario over the next 4 years;
2. Mayor Jeffrey be asked to write a letter of support to the minister of the Environment and Climate Change;
3. Other municipalities across Ontario through the Association of Municipalities of Ontario be encouraged to join with Brampton in calling on the Province to act.

Regional Councillor Sprovieri and City Councillor Dhillon outlined concerns from residents about the closure of the Northeast Interim Library and the delay in the opening of the new permanent library.

The Councillors outlined their position that the Interim Library should remain open until the new one is operational, particularly given the longer than expected delays in construction. They inquired about the possibility of City staff working with the Library to extend the use of the Interim Library, and determining a source for additional funding to do so.

In response to questions from Council, staff confirmed that the new library is delayed approximately 15 months at this time, due to unforeseen site conditions and other factors, provided estimated costs to extend interim library services, and outlined measures being taken to mitigate the delays.

At the invitation of Council, Rebecca Raven, Chief Executive Officer, Brampton Library, provided information on the following:

- Library Board's consideration of this matter and its decision on an extension of the lease and the closure of the Interim Library on October 1, 2016 (lease expires on October 31, 2016, the October 1st date would provide the time required to decommission the space and turn it back to the property owner)
- options considered by the Library Board to extend interim library services to the community, including an extension of the current lease
- reallocation of funding and staff resources from the Interim Library to other library branches
- current use of the Interim Library by residents (activity has slowed down), and the need to allocate resources to the libraries that have more activity
- financial and staffing impacts on other library services as a result of an extension of the Northeast Interim Library

The following motion, moved by Regional Councillor Sprovieri and seconded by City Council Dhillon, was introduced:

That City staff work with the Library Board in finding a solution to maintain interim library services in the Springdale community.

The motion was subsequently amend and the following was added "and report back to Council by September 28, 2016".

Council discussion on this matter included:

- potential use of schools in the Springdale community or a temporary trailer to provide for an extension of interim library services
- concern about the costs to maintain services at the Northeast Interim Library in relation to the small number of residents utilizing it

**Minutes
City Council**

- concern about staff time requirements for investigation of this matter with the Library Board and reporting back
- acknowledgement that the Northeast Interim Library was never intended to be operational for long as it has been, and was always scheduled for closure
- proximity of Springdale residents to other library branches
- confirmation that the City does not have a role in making decisions on library services

The following motions were considered.

C261-2016 Moved by Regional Councillor Sprovieri

That the delegation of Rebecca Raven, Chief Executive Officer, Brampton Library, to the Council Meeting of September 14, 2016, re: Closure of Northeast Interim Library, be received.

Parks, Director, Road Maintenance, Operations and Fleet, Public Works and Engineering, dated November 1, 2016, to the Corporate Services Committee Meeting of November 2, 2016, re: **Implications of Transfer of Jurisdictional and Financial Responsibility for Regional Roads – City of Brampton – Update** be received; and,

CS148-2016

Whereas Brampton City Council passed resolutions in April and June of this year requesting the Province and Region of Peel Council to change the composition of Regional Council in a fair and equitable manner to increase representation by the City of Brampton Council at the Regional Council through having all 11 Members represented at the Region;

Whereas the Region of Peel Council agreed with Brampton City Council and passed a resolution in June 2016 to increase Regional Council representation and request an enabling regulation from the Minister of Municipal Affairs;

Whereas the Minister of Municipal Affairs, on October 31, 2016, released a draft regulation to authorize the Region of Peel Council to exercise its power under the *Municipal Act, 2001*, to pass a by-law to change the composition of Regional Council, and specifically to increase the size of Regional Council, as requested by Peel Region and City of Brampton Councils, subject to the required triple-majority decision-making process as prescribed in the *Municipal Act, 2001*;

Whereas Mississauga City Council, at its September 14, 2016 meeting, passed a resolution to reject the increased regional representation option supported by Brampton City Council and Peel Regional Council, thereby effectively ensuring the required triple-majority approval process for regional governance composition change will be unsuccessful;

Therefore Be It Resolved That:

The Premier of Ontario, the Minister of Municipal Affairs and the Provincial Government be requested to enact the necessary legislative amendments, including amendments to the *Regional Municipality of Peel Act, 2005* and *Municipal Act, 2001*, to increase City of Brampton representation at the Region of Peel Council to include all 11 Members of Brampton Council, effective from the commencement of the 2018-2022 term of Council.

6. Delegations

6.1. Possible Delegations re: **Notice of Intention to Amend Mobile Licensing By-law 67-2014 to Suspend the Requirements for Training and the Written Exam for a Taxicab Driver's Licence**

The Mayor announced that notice regarding this matter was given on the City's web portal on November 18, 2016. In response to an inquiry from the Mayor, Milton Bhangoo, General Manager, Brampton Bramalea Kwik Kab, indicated his interest in addressing Council.

Mr. Bhangoo expressed concern about the impact on Brampton's taxicab industry as a result of the City's requirement for English language testing for drivers. While he supports the requirement that drivers be able to communicate in English, it is his position that the need for testing has resulted in the loss of drivers to municipalities that do not have this requirement.

Mr. Bhangoo requested Council's consideration for an amendment to the by-law to remove the provision for English language testing, and responded to questions of clarification from Council regarding his concern and request.

Recommendation CS157-2016 was brought forward at this time.

Council consideration of this matter included:

- consideration of this matter at the Corporate Services Committee meeting on November 16, 2016
- concern about the loss of drivers to other municipalities
- acknowledgment that some drivers choose to move to larger municipalities because there is more business for them
- need for drivers to be able to communicate in English
- potential safety issues for drivers and passengers in circumstances where drivers cannot communicate adequately in the English language
- indication that the taxicab industry as a whole has not raised concerns about English language testing
- competition on the taxicab industry as a result of transportation network companies operating in Brampton

**Minutes
City Council**

- suggestion that the City investigate self-regulation of the taxicab industry (see added Item 16.2)

The following motion was considered.

Carried

During consideration of this item, a procedural motion, moved by City Councillor Fortini, was introduced to defer this matter to a future meeting.

The motion was considered as follows.

C334-2016 *Moved by City Councillor Fortini*
Lost

*That the request from Milton Bhangoo to remove the requirement for English testing for taxicab drivers from Mobile Licensing By-law 67-2014, as amended, be **deferred** to a future meeting.*

Lost

A motion, moved by Regional Councillor Medeiros and seconded by City Councillor Fortini, was introduced to suspend the requirement for English language testing from the Mobile Licensing By-law.

At the suggestion of staff and with the approval of the mover, the motion was amended to indicate that taxicab drivers "be able to communicate in English".

A point of order was raised that the motion was contrary to what was voted on at the Corporate Services Committee meeting of November 16, 2016. The Mayor granted leave for the point of order. The City Clerk provided his opinion that the motion was not contrary to the motion that lost at the Corporate Services Committee.

In response to questions from Council, staff outlined the testing requirement for taxicab drivers, and confirmed that if testing is removed from the by-law, staff would still have the option to evaluate a driver's ability to communicate in English during the license application process.

**Minutes
City Council**

The motion was considered as follows.

- CS160-2016 Whereas Brampton is Canada's ninth largest city and attracts a large number of foreign and domestic dignitaries from public, private, non-profit and religious institutions who visit the city in an official capacity;
- Whereas the Mayor, Members of Council and senior City Staff often meet with foreign and domestic dignitaries, and diplomatic / business etiquette dictates that an exchange of gifts is either common courtesy or a requirement;
- Whereas the City of Brampton lacks a formal gifting policy and quick access to various levels of gifts that reflect the level of dignitary being honoured / acknowledged;

**Minutes
City Council**

Whereas Brampton has a number of unique artisans and gift suppliers (i.e. Sheridan's 3-D printing) that could be showcased on a national or international level;

Therefore Be It Resolved that City of Brampton staff be directed to create and propose a gifting policy that corresponds accordingly to the various levels of dignitaries that require gifts, while respecting value for money and promoting local talent; and

That City of Brampton staff consult with local artisans and unique gift suppliers that could be showcased.

CS161-2016

That the following motion be **referred** to staff for review and a report back to Committee with a legal opinion on this matter:

Whereas the City of Brampton has a wide range of souvenirs for purchase and several free items for distribution and gift-giving;

Whereas the City of Brampton should promote the most effective use of funds while trying to prioritize purchases made in Canada and promote Canadian manufacturing;

Therefore Be It Resolved that City of Brampton staff be requested to investigate and report back to Committee on opportunities to purchase and offer "Made in Canada" products for sale and distribution through the City's souvenir website; and

That the City of Brampton's souvenir website clearly state where products were made or produced for consumer information.

CS162-2016

That the correspondence from Lynn Dollin, President, Association of Municipalities of Ontario (AMO), dated October 6, 2016, to the Corporate Services Committee Meeting of November 16, 2016, re: **Request for a Council Resolution of Support for AMO's "What's Next Ontario?" Project to Recognize and Close the Fiscal Gap for Ontario Municipalities** be received; and,

Whereas recent polling, conducted on behalf of the Association of Municipalities of Ontario indicates 76% of Ontarians are concerned or somewhat concerned property taxes will not cover the cost of infrastructure while maintaining municipal services, and 90% agree maintaining safe infrastructure is an important priority for their communities; and

**Minutes
City Council**

Whereas infrastructure and transit are identified by Ontarians as the biggest problems facing their municipal government; and

Whereas a ten-year projection (2016-2025) of municipal expenditures against inflationary property tax and user fee increases, shows there to be an unfunded average annual need of \$3.6 billion to fix local infrastructure and provide for municipal operating needs; and

Whereas the \$3.6 billion average annual need would equate to annual increases of 4.6% (including inflation) to province-wide property tax revenue for the next ten years; and

Whereas this gap calculation also presumes all existing and multi-year planned federal and provincial transfers to municipal governments are fulfilled; and

Whereas if future federal and provincial transfers are unfulfilled beyond 2015 levels, it would require annual province-wide property tax revenue increases of up to 8.35% for ten years; and

Whereas Ontarians already pay the highest property taxes in the country; and

Whereas each municipal government in Ontario faces unique issues, the fiscal health and needs are a challenge which unites all municipal governments, regardless of size;

Therefore Be It Resolved that this Council supports the Association of Municipalities of Ontario in its work to close the fiscal gap; so that all municipalities can benefit from predictable and sustainable revenue, to finance the pressing infrastructure and municipal service needs faced by all municipal governments.

CS163-2016 That the Corporate Services Committee do now adjourn to meet again on Wednesday, December 7, 2016 at 3:00 p.m. or at the call of the Chair.

CYC072-2016 That the Presentation by Lisa Stokes, Member, to the Cycling Advisory Committee Meeting of October 20, 2016, re: **Cycling Infrastructure – Mississauga, Oakville, Burlington and Hamilton be received.**

CYC073-2016 Whereas curb depressions are being installed in other municipalities, such as Mississauga, Caledon, Oakville, Burlington and Hamilton, wherever multi-use paths and recreation trails meet roadways;

Whereas the City of Brampton faces a legal environment similar to other municipalities such as Mississauga, Caledon, Oakville, Burlington and Hamilton with respect to the installation of curb depressions;

Whereas cuts currently have no specific budget allocation and are completed within the scope of future pre-planned construction opportunities, such as the road rehabilitation projects, and missed opportunities to install cuts adds to future cost of implementing curb depressions;

Therefore be it resolved that it is the position of the Cycling Advisory Committee that the policy regarding curb cuts be updated to allow consideration at any location where multi-use paths or recreation trails meet roadways, which are being reconstructed during 2017 road rehabilitation projects, while a more comprehensive and proactive framework is being developed during the ATMP process.

Community Services

- 8.3. Report from A. Meneses, Commissioner of Community Services, dated December 12, 2016, re: **Request to Begin Procurement – Purchasing By-law Section 4.0, Brampton Beast – Three Year Advertising and Sponsorship Agreement – Ward 3** (File DB.X).

Council consideration of this matter included questions about the economic impact from the City's contribution to the Brampton Beast Hockey Club. Staff advised that information on the economic impact was provided to Council at its meeting of March 9, 2016, and the purpose of the subject report is to address an agreement between the City and the Beast.

The following motion, moved by Regional Councillor Medeiros, was introduced to request that staff report back on repurposing the funding from the Beast toward a program to invest in Brampton's youth:

Whereas youth unemployment remains a major issue for those between the ages of 16 of 24 living in Brampton;

Whereas the Region of Peel and the Province of Ontario have invested \$45,000 and \$730,000 in a Summer Job Challenge program to assist 150 Peel youth in finding summer employment with the Regional municipality and in providing bursaries for post-secondary education;

Whereas the City of Brampton should invest in programs that enable youth to enhance their education, employment and gain valuable work experience;

Whereas the proposed sponsorship of \$1.5 million to the Brampton Beast provides no long-term value or community benefits to residents and essentially subsidizes a private, for-profit enterprise at the expense of tax payers;

Therefore be it resolved that Brampton City Council withdraw its \$1.5 million sponsorship of the Brampton Beast and that the funds be allocated to support and create programs that address youth unemployment, skills development and education for Brampton residents;

Therefore be it further resolved that City of Brampton invest in a Summer Job Challenge to assist youth in our community with unemployment;

Therefore be it further resolved that City of Brampton staff provide recommendations to Council about options for the above items.

**Minutes
City Council**

The City Solicitor proposed that Council move into Closed Session to receive legal advice before proceeding on the motion.

A Point of Order was raised by Regional Councillor Moore that repurposing of the funds would require a reopening of Council's March 9, 2016 decision. The Mayor granted leave for the Point of Order. The City Clerk provided background on Council's consideration of this matter, indicated that some actions have already been taken as a result of Council's decision, and agreed that further consideration of this matter may require consideration in Closed Session.

The following motion was considered.

The Mayor granted leave for the Point of Order, but allowed some latitude for Members to express their views.

Regional Councillor Gibson, Committee Chair, introduced the minutes.

Council discussion took place with respect to Recommendation MS030-2016 (Council Office Accommodation Opportunities on the 6th Floor).

The following motion, moved by City Councillor Bowman and seconded by Regional Councillor Miles, was introduced to amend Clause 2 of Recommendation MS030-2016:

That Recommendation MS030-2016 be approved, as amended, to delete Clause 2 and replace it with the following:

2. That staff be directed to proceed with the plan to relocate all Elected Officials to the 6th Floor, based on:
 - a. a first phase relocation of six Councillors to the former Departmental Chief's area; and,
 - b. followed by a second phase relocation of the remaining four Councillors to the CAO's office area with minimal reconfiguration to the existing office at this time; and,
 - c. a third phase reconfiguration of the CAO's office area in 2018, prior to the start of the new term of Council, to renovate the space to establish four Councillor offices consistent with the six other Councillor offices.

In response to questions from Council, staff outlined its recommendation to undertake all necessary work to reconfigure the current CAO's Office space at one time, and provided details on the proposed costs and funding sources for this work. With respect to the proposed motion, staff outlined challenges with an interim solution, i.e. would not meet current corporate standards, necessary HVAC and AODA work would not be completed, and additional costs would be incurred in the future to undo the interim work and reconfigure the space prior to the start of the next term of Council.

Council consideration of the proposed motion included:

- possibility that the interim solution may work for the long term and therefore no further renovations would be required
- need to consider adequate working space for the Constituency Assistants
- additional costs as a result of the need for future renovations
- potential need for deferral of this matter to get additional information on the project scope and costs

**Minutes

Regional Councillor Palleschi, Chair, Community Services Section, introduced the minutes and provided a summary of matters considered under that section.

Regional Councillor Miles referenced Recommendation CW006-2017 regarding the establishment of a Community Safety Advisory Committee. Councillor Miles noted that, in order for the City to retain its World Health Organization Safe City Designation, the proposed advisory committee would need representation from broader sectors of the community.

Regional Councillor Palleschi, who introduced the motion at Committee, advised that it was his intention to include all required representation, and the City Clerk confirmed that representation, including those required to retain the designation, would be addressed in the Terms of Reference.

City Councillor Dhillon, Acting Chair, Corporate Services Section, provided a summary of matters considered under that section.

Councillor Dhillon referenced comments made at the January 18th Committee meeting and other recent meetings, and introduced the following motion:

Moved by City Councillor Dhillon
Seconded by Regional Councillor Medeiros

That the City Clerk be requested to schedule “lunch and learn” sessions for interested Members of Council on training for chairing meetings and general meeting procedures related to the Council’s Procedure By-law.

An amendment to the motion was introduced to include general discussion and training on conduct and behaviour by Members of Council.

Minutes City Council

Council Members commented on the proposed motion and amendment, outlined their views on comments made at the January 18th Committee and other recent meetings, and inquired about the appropriateness of the motion being dealt with under the subject minutes.

The City Clerk confirmed that the motion was appropriate for consideration under the minutes, as it relates to discussion at the Committee meeting.

A procedural motion, moved by City Councillor Whillans, to call the question was introduced.

A Point of Order was raised by Regional Councillor Medeiros about some of the comments made during discussion on this matter. Before the Chair granted leave for the Point of Order, the Member outlined his concerns regarding these comments. The Chair subsequently granted leave for the Point of Order, but acknowledged that the Councillor had already made his point.

With respect to the procedural motion to call the question, the City Clerk advised that, in accordance with the Procedure By-law, Members who had not spoken on this matter were to be given the opportunity to do so. No other Members wanted to address this matter.

The motion to call the question was voted on and carried.

The motion regarding “lunch and learn” sessions, as amended, was voted on and carried, as outlined below (Resolution C012-2017).

Following consideration of the motion, the City Clerk responded to a suggestion that the discussion proposed for the lunch and learn sessions be held instead during the February 6, 2017 Council Workshop. The Clerk confirmed that there is a full agenda for the workshop and that staff would be looking for alternate dates for the sessions.

The subject report was distributed prior to the meeting.

Item 9.2 was brought forward and dealt with at this time.

Minutes City Council

Harry Schlange, Chief Administrative Officer, provided a presentation entitled "City of Brampton Response to 'Procuring Progress' Report from the Office of the Ombudsman". Mr. Schlange highlighted that the Ombudsman's Office focussed solely on procurement and not real estate, planning or other matters, with the outcome being positive for the City.

Council consideration of this matter included:

- reasons for the Ombudsman's investigation
- acknowledgement of the diligence of staff in providing information and assistance with the investigation
- review of over 10,000 documents by the Office of the Ombudsman
- positive results for the City
- suggestions outlined in the Ombudsman's report

The following motion, moved by Mayor Jeffrey and seconded by City Councillor Dhillon, was introduced:

Moved by Mayor Jeffrey
Seconded by City Councillor Dhillon

Whereas the Ombudsman of Ontario released a report in early March 2017 with respect to his findings and recommendations after conducting an investigation of the City of Brampton's procurement practices;

Whereas the Ombudsman of Ontario's report proposed 15 "best practices" to enhance transparency and public confidence;

Whereas the Ombudsman of Ontario has stated that "*Establishing an independent, permanent auditor general would help re-establish the public's confidence in the city and ensure that the public trusts the city to act fairly, accountably and transparently;*"

Therefore be it resolved that City Council endorse the creation of the Office of a permanent Auditor General that is independent from the Chief Administrative Officer and Council.

Council discussion on the motion included the need for additional information on the justification, role, functions and cost implications of establishing a permanent and independent Auditor General for the City.

A motion, moved by Regional Councillor Sprovieri and seconded by Regional Councillor Moore, was introduced to refer the Mayor's motion to staff for further review and a report back to Committee of Council.

Regional Councillor Gibson, Committee Chair, introduced the minutes.

The following amendment, moved by Regional Councillor Miles, and seconded by Regional Councillor Moore, was introduced:

That Recommendation MS010-2017 be deleted and replaced with the following:

That staff be requested to implement a Council reception/ concierge function on the 6th floor, City Hall, to greet visitors and staff arriving to meet elected officials at City Hall as well as fulfil other administrative support duties for the Council Office, to be funded from within the existing Council Office budget for the remainder of 2017 and subject to Council approval for full service funding as part of the 2018 budget approval process.

Minutes City Council

Council discussion on the motion included:

- purpose of the amendment to provide for easier access to Members of Council, back up support to the Constituency Assistants, and a waiting area for visitors
- consideration of this matter at the Special Member Services Committee meeting, and the subsequent recommendation to approve staff's proposal for addressing visitors to Members of Council on a trial basis
- concern about changing the process before the trial period has been completed and staff has reported back to Committee
- proposed amendments to the motion to request that information on construction costs for the proposed reception/concierge station be provided before any work is undertaken, and that a portion of the Mayor's Office budget be used toward the reception/concierge (later in the meeting, it was indicated that the mover of the motion did not accept these amendments)

In response to Council discussion and questions, staff provided the following:

- clarification that the staff report on this matter will provide the results of the pilot project (including statistics on the number of and reasons for the visits), and cost estimates for a reception/concierge station on the 6th floor
- details on how a reception/concierge station could be accommodated on the 6th floor
- reminder of Council's approved administrative staffing model that provided for two Constituency Assistants per Ward pairing and the elimination of the reception position
- confirmation that, while there is no funding in the base budget for this position, it could be accommodated for the balance of 2017, and that any future funding would be subject to Council approval during 2018 budget deliberations

A Point of Order was raised by Councillor Miles, who expressed her position that funding was available in the base budget for the position. The Chair granted leave for the Point of Order.

Staff clarified that the receptionist was not an approved position, and that funding was taken from other elements of the Council Office budget to provide for the position on a contract basis.

A motion, moved by Regional Councillor Medeiros, was introduced to refer the amendment to the Member Services Committee Meeting of May 8, 2017. As the motion was procedural in nature a seconder was not required.

18.1. Briefing Report from the Office of the CAO, re: **Government Relations Matters**

The subject briefing report was provided at the meeting.

Regional Councillor Palleschi referenced motions on this topic on the agenda for consideration at the Regional Council Meeting of April 13, 2017. He introduced the following motion to provide for a consolidated Brampton position on fair and equitable regional governance.

The motion was subsequently seconded by City Councillor Whillans.

Minutes City Council

WHEREAS the principles and objectives espoused in the Honourable Justice George W. Adams' report of December 2004 regarding regional representation remain valid and were supported by Brampton City Council; and

WHEREAS since that time, the Region of Peel has, and continues to, experience significant population growth, reinforcing the need for balanced regional representation to ensure equitable governance of the region; and

WHEREAS recent discussions regarding the composition of Regional Council have demonstrated that Caledon, Brampton and Mississauga are seeking a governance model for Peel that is responsive to the interests and aspirations of their local municipalities; and

WHEREAS some members of Regional Council have voiced a willingness to investigate 'weighted voting' as a means of providing Brampton with full local representation at Regional Council while retaining the current balance of voting power resulting in Proposed Resolutions:

- Item 13.3, moved by Regional Councillor Moore and Regional Council Thompson; and
- Added agenda items 13.4 and 13.5, Resolutions from Regional Councillors Palleschi and Tovey, respectively,

regarding the composition of Regional Council, for consideration at the April 13, 2017 Regional Council Meeting; and

WHEREAS since the publishing of the Proposed Resolutions for the April 13, 2017 Regional Council Agenda, there have been discussions between elected representatives from all three area municipalities regarding ways and means to reach a consensus to improve fair and equitable regional representation at the Region of Peel Council for the 2018-2022 term, including possible amendments to the Proposed Resolution by Councillors Moore and Thompson (Item 13.3 above); and

WHEREAS the City of Brampton provided a submission to the Province's Standing Committee on Social Policy on April 10, 2017, in regard to Bill 68, Modernizing Ontario's Municipal Legislation Act, 2016, presenting the City of Brampton's case for equitable and fair representation at the Region of Peel Council, and the Committee Members invited the City to propose substantive amendments to Bill 68 to effect the regional representation change requested by the City of Brampton;

Therefore, Be It Resolved That:

**Minutes
City Council**

1. It is the position of the Council or The Corporation of the City of Brampton that the Proposed Resolutions (Item 13.3, 13.4 and 13.5), for consideration at the April 13, 2017 Regional Council Meeting, be deleted and replaced with the following Resolution to achieve the same desired outcome of equitable and fair representation at Region of Peel Council:

THAT the composition of Regional Council be changed for the purpose of the 2018 municipal election and 2018-2022 term of council to include 12 representatives from the City of Mississauga, five (5) representatives from the Town of Caledon, 11 representatives from the City of Brampton, and one Regional Chair; and further

THAT a weighted voting system be implemented while retaining the current balance of voting power among the constituent municipalities (Mississauga at 50%, Brampton and Caledon at 50%); and further

THAT, without limited the generality of the foregoing, the effect and outcome of increasing the number of representatives from the City of Brampton from 7 to 11, maintaining the same representation from the City of Mississauga and the Town of Caledon for a total of 28 Regional Councillors plus the Regional Chair, shall include a weighted voting system for Council decision-making based on the definition of majority vote to reflect the threshold for a 'weighted majority vote' of one half of the total, eligible weighted votes plus one (i.e. $32/2+1 = 17$) as follows:

Representatives	Number of Members	Vote Weight per Member	Total Vote Weight
City of Mississauga	12	1.3333	16
City of Brampton	11	1	11

**Minutes
City Council**

THAT within 30 days of the new regulation coming into effect, Regional staff be requested to report to Regional Council with recommendations regarding:

THAT Regional Council review the composition of council immediately after the 2018 municipal election, based on appropriate criteria to make any and all necessary representation adjustments to the size and composition of council for subsequent council terms.

2. 14 (3) Subsection 1 (1) of the Act is amended by striking out the subsection and substituting:

Composition of council and voting

1. (1) The council of The Regional Municipality of Peel is composed of the following 29 members on the day that the new council is organized following the regular election in 2018:

Minutes City Council

1. A chair who is elected.
2. Eleven persons representing the City of Brampton, comprised of the head of council and ten other persons in accordance with subsection (6).
3. Five persons representing the Town of Caledon, comprised of the head of council and four other elected persons as selected in accordance with subsection (7).
4. Twelve persons representing the City of Mississauga, comprised of the head of council and eleven other persons in accordance with subsection (8).

(2) The council of The Regional Municipality of Peel shall implement a weighted voting method for council decision-making which allows for a total vote distribution where the City of Mississauga receives fifty-percent of the total voting distribution and the combined City of Brampton and Town of Caledon receives fifty-percent of the total voting distribution, based on all twenty-eight members present at a meeting.

3. THAT, in the event Clauses 1 and/or 2 are not implemented, the Council of The Corporation of the City of Brampton re-affirm Council's Resolutions of April 2016 (Resolutions C116-2016, C117-2016 and C118-2016) and request the Premier of Ontario to intervene to urge the Legislature to enact legislation to enable all 11 Brampton Council representatives to be representatives at the Region of Peel Council, to ensure fair, balanced and effective regional representation for the City, to be effective for the 2018 municipal election and 2018-2022 term of Regional Council.
4. That the City Clerk be requested to forward a copy of this Resolution to the Premier of Ontario, the Minister of Municipal Affairs, all members of the Provincial Standing Committee on Social Policy, all Brampton area Members of Provincial Parliament, the Regional Chair and Clerk of the Region of Peel, and the Mayors and Clerks of the City of Mississauga and Town of Caledon.

At the request of Council, staff provided a line-by-line review of the motion, and details on discussions on this topic at a recent City of Mississauga Council meeting.

Council discussion on the motion included:

Minutes City Council

- confirmation that the motion is for Brampton Council's consideration, and not intended to be introduced at the Region of Peel Council meeting on April 13, 2017
- unlikelihood of Brampton receiving the support (triple majority) it needs at the Region under the current process for determining regional representation
- pros and cons of weighted voting and questions about whether this would make a difference in the level of support required for increased Brampton representation at the Region
- need for Brampton to put forward a strong and united position to the Province on regional governance
- Brampton Council's recent delegation to Ontario's Standing Committee on Social Policy that is reviewing Bill 68, which includes a provision for representation by population, and the potential for the Standing Committee to introduce a motion in support of increased regional representation for Brampton
- proposed amendments to the motion to clearly state Brampton's position on regional representation

The motion was subsequently withdrawn, revised, reintroduced and considered as follows.

19. Public Question Period

1. Cody Vatcher, Brampton resident, referenced the winning artwork for National Public Works Week to be printed on a Public Works vehicle and promotional materials. He outlined details on a program in a municipality in Nova Scotia whereby students have the opportunity to paint the buckets of snowplows servicing their schools, and wondered if such a program would be possible in Brampton.

Joe Pitushka, Commissioner of Public Works and Engineering, indicated staff could look at such a program along the lines of “adopt a plow” to determine if it would be feasible in Brampton.

Minutes City Council

The following motion, moved by Regional Councillor Moore and seconded by Regional Councillor Miles, was introduced.

Regional Councillor Moore noted corrections to the motion, based on information from staff, to clarify the City's tri-party contributions referenced in paragraph two and the project timelines outlined in paragraph five. The motion, as corrected, was presented as follows.

Whereas, recent media accounts of past and present actions taken by Brampton City Council on transportation and transit priorities demonstrate a lack of understanding and appreciation for the work Council and staff have done to advocate for provincial funding participation on major regional transportation projects;

Whereas, Brampton's Zum Transit, a tri-party transit initiative (\$300 Million) has by all accounts been one of the country's most successful transit projects, resulting in one of the highest increases in transit ridership across the country with a ridership increase of 67% outpacing population growth of 18%; demonstrating Brampton's pro-active commitment to an effective public transit system.

Whereas, Brampton Council's role has historically been to identify needs and approve Council's priorities and position on Regional transportation initiatives, and for the Mayor as the Head of Council as defined under the Municipal Act of Ontario, to take the lead on meetings and advocacy with the Province and Federal Government as potential funding partners and report back to Council through Head of Council Reports;

Whereas, the City of Brampton has an obligation and responsibility to ensure our locally elected MP's and MPP's are informed on Council approved transportation and transit priorities so they can effectively advocate on our behalf.

Whereas the Government of Ontario continues to make funding announcements in critical infrastructure to alleviate congestion with the Greater Toronto and Hamilton Area, including GO Regional Express Rail (GO RER) that would bring all day two way GO service between Toronto and Bramalea, with construction scheduled to begin between 2018-2025; and

Whereas on May 19, 2017 the Province of Ontario announced plans to begin preliminary design work to bring high speed rail (HSR) through Toronto to Windsor, along Ontario's innovation super corridor; and

Minutes City Council

Whereas, the City of Brampton, one of the largest and fastest growing municipalities along the proposed HSR route alignment, was not appropriately consulted through the process, resulting in not being identified as a stop amongst the seven (7) proposed station stops that include Toronto, Pearson(Malton), Guelph, Kitchener/Waterloo, London (Phase 1 proposed to be completed by 2025), Chatham, Windsor (Phase 2 proposed to be completed by 2031);

Therefore be it resolved that Council establish a Transit Council of Chairs comprised of the Mayor and Councillors Bowman, Miles, Moore, Whillans and Palleschi; representing the Chairs of Economic Development, Corporate Services, Planning & Development, Public Works and Community Services, and staff from Planning, Transit, Public Works and Government Relations; and whose mandate will be to take the lead on promoting and advocating on major regional transportation and transit files;

Be it further resolved that the Province, through the Special Advisor to High Speed Rail, be requested to include the City of Brampton in future consultations on HSR; and

Be it further resolved that the Province be requested to include a Brampton HSR stop along the Toronto to Windsor Corridor to serve the needs of Brampton residents and business community and to accommodate future growth and congestion within the GTAH;

Be it further resolved that the Mayor, in the interest of transparency and effective communication be required to include at least one Council appointed members of the newly established Transit Council of Chairs in all meetings, teleconferences and discussions with senior levels of government, and report a summary of all such meetings to Council in a timely fashion; and,

Be it further resolved that the Members of the Transit Council of Chairs, in consultation with the appropriate City staff and City Clerk, report to the June 21 Council meeting, with terms of reference for Council approval, in accordance with Section 2.6 of Council's Procedure By-law, and,

Be it further resolved that the newly established Transit Council of Chairs invite our locally elected MPP's and MP's and their staff, to a lunch and learn on Council Strategic priorities for the City of Brampton.

Be it further resolved that the City Clerk be requested to forward a copy of this resolution to the Premier of Ontario, the Minister of

**Minutes

Transportation, Metrolinx, all Brampton area MP's and MPP's and the Honourable David Collenette, Special Advisor for High Speed Rail.

Council consideration of the motion included:

- suggested changes to the membership of the proposed Transit Council of Chairs to include Metrolinx, transit experts, community stakeholders/ residents, and a Council representative from each Ward
- need for staff input on the membership, identification of transit experts, function, resources and costs
- concerns about the requirement for the Mayor to include at least one member of the Transit Council of Chairs in all meetings, teleconferences and discussions with senior levels of government

The following motion, moved by Regional Councillor Medeiros, was introduced:

That the motion regarding a Transit Council of Chairs be referred to staff for a report back to Council on June 21, 2017 on resource impacts resulting from the motion.

Council discussion on the referral motion included:

- need for a referral of the matter, given that additional discussion on membership and resource impacts could take place during consideration of the Terms of Reference
- comments in support of and opposed to the referral

During discussion on the referral, a procedural motion to Call the Question was introduced. In accordance with the Procedure By-law, Members who had not spoken on this matter were given the opportunity to do so.

Minutes City Council

That the main motion be amended as follows:

“Therefore be it resolved that the CAO be directed to retain independent external legal counsel to investigate whether there is evidence of any misconduct regarding the Out of Policy Request (OPR) practices identified in the Internal Audit program review; and

That the CAO be directed to report back to Council with the results of the independent external legal counsel investigation findings.”

The amendment was subsequently seconded by City Councillor Whillans.

Councillor Moore outlined the purpose of her amendment.

Council consideration of this matter included:

- concerns about some of the reasons for which OPRs were approved
- proposed additional amendment to the main motion to specify that the Ontario Provincial Police investigate this matter
- protocol for requests for police investigations, specifically that any requests must first go through Peel Regional Police
- position of the Internal Auditor as outlined in the report to Audit Committee regarding further investigation of this matter and a follow-up audit
- questions about timelines and potential costs to the City for an investigation
- current plans for modernization of the City’s salary administration policy projected to be completed in the third or fourth quarter of 2017
- varying opinions about the need for a police investigation versus review by external legal counsel
- recognition of staff for informing Council of the Out of Policy Request (OPR) practices
- acknowledgement of subsequent staffing changes at the City

During consideration of this matter, Regional Councillor Gibson moved a procedural motion to call the question. As the motion was procedural in nature, a seconder was not required. A vote was taken, and the motion to call the question did not carry.

A motion, moved by Regional Councillor Palleschi, was introduced to refer all motions placed on this matter to the Internal Auditor for consideration within a follow-up secondary audit, with the outcome to be reported to Audit Committee in due course. During consideration of the main motion, amendments were requested to the operative paragraph to specify that the request for an investigation be sent to Peel Regional Police, to remove reference to “related discretionary and non-discretionary”, and to add “any other illegal activity” after “Municipal Act”. The mover of the motion agreed to these amendments.

The main motion, as amended, was considered as follows.

C200-2017 Moved by Regional Councillor Medeiros
Seconded by City Councillor Dhillon

Whereas integrity, ethics, transparency and accountability in the administration of services and the management of public monies must be at the core of all city practices;

Whereas elected officials and municipal staff are expected to perform their duties in a manner that promotes public confidence;

Whereas a recent City Auditor’s report and management cited that \$1.25 million in additional salary expenditures to 167 non-union staff under a program named Outside Policy Requests (OPR);

Whereas the \$1.25 million in additional salary expenditures were approved by management outside of Corporate policies, and lacked the proper, if any, coding for tracking and compliance purposes per City corporate standards;

Whereas the reported internal audit was based on information provided by internal staff and further disclosure and investigation might lead to further discoveries of the OPR practise and additional salary expenditures;

Therefore be it resolved that City Council hereby requests Peel Regional Police to conduct an investigation on the Outside Policy Requests program and salary increases granted to City employees between January 1, 2009 and May 14, 2014 and whether this program contravened the Municipal Act or any other illegal activity.

6. Delegations

6.1. Delegation from Joseph Tramble, Brampton resident, re: **Item 16.2 – Coyotes in Residential Neighbourhoods – Ward 3**

Minutes City Council

Item 16.2 was brought forward at this time.

Joseph Tramble, Brampton resident, referenced his correspondence and photographs that were distributed at the meeting, and provided an overview of the concerns outlined within regarding coyotes in his neighbourhood. Mr. Tramble highlighted the larger number of coyotes present in the neighbourhood over the past couple of weeks, impact on the coyote population and behaviour as a result of people feeding the coyotes, and requested Council's consideration for a motion to ask the Province to remove the coyote den in the neighbourhood.

Mr. Tramble responded to questions of clarification from Council regarding his concerns.

Council consideration of this matter included:

- details from area Councillors Bowman and Medeiros about similar concerns from other residents in the neighbourhood
- acknowledgement of the behaviour of the coyotes, in that they are not exhibiting fear of humans, and are present outside of the usual dawn or dusk timelines
- need for Council and the City to be forward-thinking in finding a solution, including a high level awareness campaign to include information on what residents can/cannot do under provincial legislation, tips for discouraging coyotes, fines for people who feed coyotes
- suggested measures toward discouraging coyotes in residential neighbourhoods, including potential fencing or enclosures, additional signage to educate residents on behaviours that attract coyotes, use of air horns
- suggestion that this matter be referred to the Brampton Community Safety Advisory Committee

In response to questions from Council, Kathy Duncan, Manager, Animal Services, Community Services, provided information on the following:

- process by Property Standards staff for addressing reports of people feeding coyotes
- City by-laws as they relate to feeding of wildlife (currently there are no provisions in the by-laws to prohibit this behaviour)
- outreach to Brampton residents on measures to discourage coyotes
- use of fencing or enclosures to contain the coyotes (not realistically feasible, given that the coyotes run along the rail line, that fencing would require a gap no bigger than six inches and be high enough so the coyotes cannot climb over, and cost prohibitive)

The following motion was considered.

**Minutes
City Council**

C211-2017 Moved by City Councillor Bowman

6.2. Delegation from Reagan Hayward, Executive Director, Beaux-Arts Brampton, re: **Beaux-Arts Brampton – 70-74 Main Street North – Ward 1**

Reagan Hayward, Executive Director, Beaux-Arts Brampton, on behalf of the Board of Directors and membership, provided information on the following:

- efforts by Beaux-Arts toward positive change, which has resulted in increased membership, inclusivity and diversity among the membership
- impact on Beaux-Arts as a result of the City's decision to sell the Heritage Theatre Block, including the loss of income potential as a result of not being able to book shows for 2018 and beyond, and inability to build confidence with potential sponsors
- effect of the centre's heat and hydro costs on the operating budget
- issues regarding the availability of funding, including the requirement for municipal support in order to qualify for funding from the Ontario Trillium Foundation, the Ontario Arts Council, etc.
- comparison of Beaux-Arts funding versus other artist-run centres in Ontario
- potential closure of Beaux-Arts within the next two to three months

Ms. Hayward requested Council's consideration for the following toward the Centre's preservation:

- \$50,000 in funding
- one-year lease extension transferable to a new location, once identified

Ms. Hayward responded to questions of clarification from Council regarding operating costs, funding requirements, existing and potential funding sources, and timelines relating to possible closure.

Minutes City Council

Council consideration of this matter included:

- acknowledgement of the success of Beaux-Arts Brampton
- indication that the current location was to be temporary for a period of one-year, but has been extended for 16 years
- suggested referral of this matter to staff and timelines for a report back
- need for bridge financing to extend the Centre's operations for another two to three months, pending a staff report

A motion, moved by Regional Councillor Gibson and seconded by Regional Councillor Medeiros, was introduced to receive the delegation and to provide direction to staff regarding bridge financing and reporting back.

6.3. Delegation from Suzy Godefroy, Executive Director, Downtown Brampton Business Improvement Area (BIA), re: **Item 16.4 – Display of Wares Program and A-Frame Signs**

Suzy Godefroy, Executive Director, Downtown Brampton BIA, outlined a request from the BIA Board of Directors, pursuant to the following motion which was passed at a recent Board meeting:

Minutes City Council

“That the BIA requests a pilot encroachment program as part of the Display of Wares Program through the City of Brampton.”

Ms. Godefroy specified that the BIA Board is requesting Council consideration for a regulated program, taking into consideration all accessibility and insurance requirements, to allow downtown merchants to use a-frame signage in front of their businesses to help with overall promotion.

The following motion, moved by Regional Councillor Moore, was introduced:

That the delegation from Suzy Godefroy, Executive Director, Downtown Brampton BIA, be received and the request of the BIA Board be referred to staff for review and report back to Committee on a possible pilot program for allowing a-frame signs in the downtown area.

The motion was subsequently seconded by Regional Councillor Miles.

Council consideration of this matter included:

- timelines for a report back should the matter be referred to staff
- suggested motion to direct staff to work with the BIA to find the ways and means to allow a-frame sign usage for downtown businesses
- request from staff that the matter be referred for a report back, given the complex issues around the use of a-frame signs in the downtown, and the many departments that need to be engaged
- need for a solution now to help downtown businesses promote their services and make people aware of their existence
- suggestion that each request for a-frame signs be reviewed by staff to determine if the requested location is feasible for a-frame signage
- agreement from staff to work collaboratively with the BIA toward the possible use of a-frame signs in the downtown

A procedural motion, moved by Regional Councillor Miles and seconded by Regional Councillor Palleschi, was introduced to waive the rules of the Procedure By-law to allow Council to consider the delegation request and take substantive action on the matter without the benefit of a staff report.

The procedural motion was voted on and carried.

An amendment to Councillor Moore’s motion was proposed by Regional Councillor Miles to give staff the authority to look for opportunities to grant the BIA’s request for a-frame signage, in advance of a staff report.

The motion, as amended, was considered as follows.
