5.3 Applicant Responsibilities

In the delivery of projects, organizations shall comply with all applicable laws, regulations, rules, orders and other requirements of governmental authorities having jurisdiction, including City by-laws and policies including all federal and provincial laws, regulations and orders, municipal by-laws and directives, the guidelines, directives and recommendations of public health authorities to protect public health and safety.

Projects must be appropriate for broad public consumption. Project content must not be offensive, inflammatory, discriminatory, mature, or otherwise controversial in nature. The City reserves the right to determine what is appropriate for public consumption.

Grants made within the Developing and Amplifying Projects Streams are 'matching' grants. This means the budget submitted with each application must show project expenses where the total value is at least double the requested grant amount. The matching 50% from the requesting organization is demonstrated in the Project Close Out Report Budget as matching expenses proven as paid. Volunteer hours and gifts in kind should be tracked as expenses in application and project close out report budgets.

Applicants should notify the Grants Administration Officer of any significant change to project delivery as outlined in their application. Significant changes to project delivery may make a project subject to re-review and may result in an applicant having to return granted funds. Significant changes in projects include but are not limited to changing the location of project delivery to an area outside of Brampton, significantly reducing the number of program participants, and changing the type of project to be delivered or changing the activities undertaken to achieve the project.

Applicants are responsible for completing a Project Close Out Report. This report details project implementation and directly aligns with the application, including project budget. Using the application and budget as a guide, grantees will specify the details of actual project delivery and explain any variance from the application. In the Project Close Out Report budget grantees will verify the amounts spent on the project and submit documented support for the actual expenditures for both the granted amount and, if applicable, the matching amount. Therefore, grantees must track all their expenses and keep detailed records. The City may require payroll documentation, contracts, invoices, point of sale receipts, cheque copies, bank statements and credit statements to prove expenditure. What is required will depend on the expense and method of payment.

Close-out reporting also includes reporting on the actual attainment of outputs selected in the application and it is the grantee's responsibility to ensure an accurate measurement of the outputs selected. Measuring outputs can be done through qualitative or quantitative research/analysis including participant interviews, participant surveys, attendance records, volunteer logs, etc.

The City may, without advance notice, be required to revise the priorities for 2024 funding and project eligibility to ensure compliance with applicable laws and public health guidance.

- Appendix H: Application Questions and Evaluation Criteria Matrix – Developing Projects Stream.
- Appendix I: Application Questions and Evaluation Criteria Matrix – Amplifying Projects Stream.

Applicants are strongly encouraged to refer to the criteria to ensure the preparation of a competitive application.

Funding is dependant on the volume of eligible applications received and the competitive score that reviewers award an application.

Requested grant amounts can be reduced during application review. If an applicant can not deliver the project with less funding than requested, the application can be withdrawn.

The scores awarded to applications by reviewers are considered final. Final approval of funding decisions is made by the Commissioner, Community Services upon written request from the Grants Administration Officer.

Applicants will be notified by email, as listed on the grant application, regarding the final result of their application. All grant streams require signed grant agreements to be executed before funding will be released.

9. Successful Recipients

Successful Advance Brampton Fund recipients are required to enter into a grant agreement with the City. The agreement must be signed on behalf of the applicant(s) by the individual(s) who is/are an authorized member(s) or officer(s) of the organization as indicated in the application or such other document(s) and are deemed acceptable to the Grants Administration Officer. As part of the process of signing this agreement, the grant recipient's obligations in receiving municipal grant funding should be reviewed in detail.

Successful grant recipients are required to have a bank account in the organization's name to receive grant funding and to submit a City of Brampton direct deposit form, completed, signed, and authorized by their bank.

9.1 Payment Schedule

Stream and Funding	Payment Schedule
New/Small Project Stream: Maximum \$5,000	100% of the total grant awarded will be paid following contract execution
Developing Projects Stream: Maximum \$12,500	90% of the total grant awarded will be paid following contract execution. The remaining 10% of approved funding will be released upon receipt of the mandatory Project Close-Out Report and is deemed to meet all criteria by the Grants Administration Officer.
Amplifying Projects Stream: Maximum \$25,000	

9.2 Recognition of City of Brampton Funding

All Advance Brampton Fund recipients must acknowledge the financial support provided by the City of Brampton in all promotional and program materials. Final approval by the Coordinator of all promotional materials is required before release. The following is an example of the displayed acknowledgement required on all promotional materials:

The City will provide logos and their terms of use in various digital formats for inclusion in the promotional and program materials. Grantees can obtain logos from the grants administration officer by emailing abf@brampton.ca.

10. Project Close-Out Reporting

A mandatory requirement of all Advance Brampton Fund streams is submitting a Project Close Out Report following the completion (i.e., full delivery of the project scope as outlined in the grant application and approved by the City in the funding agreement). This report aims to evaluate the success of the recipient's project and to account for the spending of the Advance Brampton Fund grant received.

The Project Close-Out Report template is provided to recipients through the online grant portal. The Project Close-Out Report will address three main areas of focus:

1. A review of actual project delivery and an explanation for any minor change in project delivery as outlined in the application.
2. A review of project goals and objectives as presented in the recipient's application and committed to in the Advance Brampton Fund agreement, including the success of the project in

achieving these goals and objectives (i.e., meeting projects outputs and outcomes) and/or lessons learned as a result of the project.

3. A final completed Project Expense Worksheet, including copies of all costs/expenses incurred in connection with the project. All invoices and receipts are to be itemized (vendor, reason, date paid, etc.) and supported by originals of the invoices. To prove expenses within a project, an applicant is expected to provide proof of charge and payment, which can include point of sale receipts, invoices marked as paid, payroll documentation, cheques, bank statements and/or credit card statements.
 - Organizations that require matching contributions to their grants (all grants in the Developing and Amplifying Streams) must submit proof of the expenses which match the City of Brampton contribution (called matching expenses). These expenses must be proven as outlined above. If a matching contribution is provided through volunteer hours (valued at \$17.00/hr) these can be proven through the provision of a volunteer log sheet, provided for use within the project closeout report and tracked as an expense in the Project Close Out Report Budget. If Gifts-In-Kind are used to match the City contribution, the value of these can be established through an advertisement for the product, online sales posting (such as an Amazon listing), or estimate for services rendered. Gifts-In-Kind should be included as expenses in the Project Close Out Report Budget.

Due to the need to report on final measurements of outputs and the need to financially report to the City of Brampton, it is necessary for organizations to undertake actual measurement of outputs in some way (for example: project participant surveys, participant interviews, attendance records, and/or volunteer logs) and for applicants to keep all necessary documentation that proves an expense was paid (for example: paid invoices, cheque stubs, bank and credit statements).

The report is required in the timelines listed below:

Advance Brampton Fund Stream	Close Out Report Deadline
New and Small Project Stream	February 11, 2025
Developing and Amplifying Streams	6 weeks post project end date in application or December 31, 2024, whichever comes first. <i>*Close out reports in these streams are due by December 31, 2024 in order to obtain the 10% holdback payment.</i>

Not meeting the above timelines may result in:

- Forfeiture of 10% funding holdback where applicable.
- Ineligibility for future funding programs
- Required repayment of awarded grant funding

Recipients who do not intend to apply in subsequent years must complete a Project Close-Out Report as per the signed grant agreement. This will ensure the organization can apply for funding in future years, if they choose to do so, and to close the file for audit purposes (i.e., examination and verification of a recipient's accounts, statements, and other records).

Organizations that do not submit a Project Close-Out Report may have their status revised to 'Concerned Status', resulting in ineligibility for future ABF funds.

11. General Funding Provisions

The following General Funding Provisions will apply to all 2024 Advance Brampton Funding streams and applications.

- Advance Brampton Fund grants awarded should not be viewed as the sole source of funding for an applicant's project. Applicants are encouraged to seek additional sources of funding for their projects, including sponsorships, other grant opportunities, etc., funds from any other City sources, including elected officials must be disclosed and can be deducted from any awarded grant funding.
- Advance Brampton Fund grants may only be used for the project approved as outlined in the original application. The City will cancel funding in cases where the project, venue, or date changes without consultation with and written agreement of the Grants Administration Officer.
- Approved Advance Brampton Fund grant agreements cannot be transferred to another organization without explicit written permission from the City.
- The City reserves the right, at its sole discretion, to deem ineligible for future funding, organizations which do not meet the obligations of their Advance Brampton Fund agreements with the City.
- The City reserves the right to cancel and require repayment of awarded grant funding without notice if the recipients in violation of any of the terms and conditions set forth in the guidelines or other legally binding agreements.
- All recipients must sign an Advance Brampton Fund agreement that includes details regarding reporting, indemnity, accessibility, accountability, insurance, and disclosure of conflict of interest.
- The City reserves the right to request bank statements, credit statements, and cheque copies for the project period and/or audited financial statements.
- Successful applicants will receive funds by electronic transfer to the bank account of the recipient organization noted in the application form.

- In the case of a project cancellation, or recipient default resulting in termination of agreement, the recipient will be required to repay the entire amount of funding issued by the City's Advance Brampton Fund.
- Applicants are responsible for managing expenses in a way that will allow for fulsome reporting on Advance Brampton Fund timelines. Projects must prove expenses 60 days after the project end date or by December 31, 2024, whichever comes first.
- All applicants must comply with all conditions and requirements contained in the *Ontario Human Rights Code* and the *Charter of Rights and Freedoms* and any other applicable laws, City by-laws and corporate policies.
- Projects which have fundraising as the primary activity or objective are not eligible for funding by the Advance Brampton Fund. Any third-party fundraising efforts must be disclosed in the application and be secondary components of the project. Proceeds must be directed back to registered charities and incorporated non-profit organizations within Brampton, as evidenced by an official letter from the organization or Charity confirming this arrangement. It is the responsibility of the applicant to verify the status of the organization as a registered charity or incorporated non-profit. Failure to do so may result in the organization being deemed ineligible for future funding years or an application being declined.
- Recipients cannot use Advance Brampton Fund grant funding towards a donation (i.e., philanthropic donated funds, materials, supplies, or services) to a third party or for a project that collects pledges or registrations towards fundraising for the recipient organization or a third party.
- The City reserves the right to amend or impose additional terms and conditions as is deemed necessary by the City.

12. Access to Information and Protection of Privacy

The City of Brampton collects information required to evaluate Advance Brampton Fund applications, administration of funding agreements, and reporting. All information collected is retained in City records as required by the City's Record Retention By-Law. Records are

maintained according to City policies and in compliance with Provincial and Federal legislation, including the Municipal Freedom of Information and Protection of Privacy Act (MFIPPA).

Additional information may be disclosed to individual members of the public in response to access to information requests made under the Act.

The City limits the collection of personal information to that information necessary for the efficient administration of the program. As a part of the grant application process, the City collects contact information consisting of the name, address, email address and telephone number of the primary point of contact for the applicant and any individuals signing a grant agreement. Where this information constitutes personal information, it is collected under the authority of the Municipal Act S.O. 2001, c.25. This information is used only to contact applicants for purposes related to evaluating, administering, and reporting on grant applications. Questions about the collection of personal information should be directed to the Coordinator.
