

DO NOT FEED WILDLIFE

Do not feed coyotes or wildlife

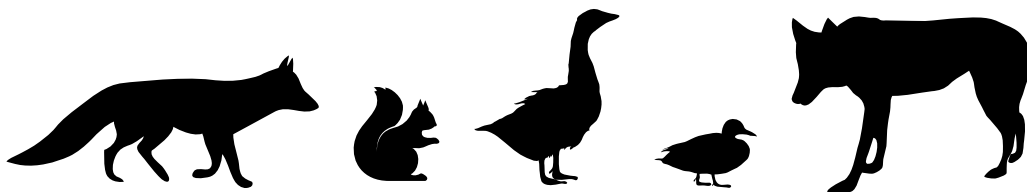

As per City of Brampton by-laws, feeding wildlife is prohibited. Residents should not feed wildlife, including squirrels, geese, ducks, foxes or coyotes, under any circumstances. This creates a dangerous situation for both humans and animals.

Animals may:

- depend on humans for food
- lose their fear and become familiar with humans potentially leading to conflicts
- associate humans with food, which can cause the animal to become assertive or aggressive

The City of Brampton is committed to ensuring a sustainable and resilient community where residents safely coexist with wildlife and natural ecosystems flourish.
