

BUILDING DIVISION

Planning, Building and Growth
Management

Year-end report
2025

BUILDING DIVISION OVERVIEW

In 2025, the Building Division issued 6,219 permits with a total construction value of over 2.7 billion dollars. There were 184,469 building inspections conducted in 2025. The Building Division remains integral to community safety, overseeing and verifying that all construction activity adheres to established safety, structural, and regulatory standards. While 2025 saw a decline in Building permit volumes compared to previous years, higher construction values and increased revenue reflect the issuance of several large-scale industrial, commercial and institutional buildings.

In 2025, the Building Division advanced several initiatives to enhance operational efficiency and reduce the average cost per permit through technological modernization and streamlined processes.

One such initiative is the launch of [Brampton Building and Business Portal](#) – Phase 2.0 in July 2025. The portal was expanded with features to improve efficiency and accessibility, such as the ability to submit portable sign applications, guest access for booking inspections and enhanced functionality to respond to reviews.

In addition, Inspection Recall Fees were introduced for Additional Residential Unit (ARU) permits to address ongoing challenges with homeowners and unqualified contractors. This measure is intended to encourage inspection readiness and reduce repeat visits.

Recognizing evolving Council priorities and the City’s broader vision, the Division began a careful review of its organizational structure to ensure alignment with what matters most to residents. This includes introducing new roles and realigning existing ones to strengthen focus on Additional Residential Units, enforcement of the Building Code Act, and supporting the construction of safe and affordable housing. At the same time, efforts continue to reduce red tape, streamline internal processes, and provide a smoother and more seamless experience for applicants seeking building permits.

BUILDING ACTIVITY LEVELS 2017 – 2025

YEAR	CONSTRUCTION VALUE OF PERMITS ISSUED	PERMIT REVENUE	PERMITS ISSUED	INSPECTIONS CONDUCTED
2025	\$2,756,021,830	\$14,181,791.71	6,219	184,469
