

Spring Home Fire Safety Checklist

Install smoke and carbon monoxide alarms

IT'S THE LAW. Replace batteries and test alarms monthly.

Visually inspect electrical cords and outlets

Replace worn or damaged cords. Have a licensed electrical contractor check and repair loose-fitting outlets

Maintain your air conditioner

Get a qualified technician to perform safe and proper maintenance.

Clear the clutter, a clean garage is a safer garage

Clean eaves troughs thoroughly

Use a sturdy ladder and rubber gloves. Work in pairs to ensure safety.

Clean and check BBQ

Clean burner ports and tubes and test for hose leaks with a 50/50 water/soap solution.

Never cook with propane burners or barbeques in the garage or in the house

You could release carbon monoxide into your home.

Store fuel and other combustibles safely

Keep them in a well ventilated shed and away from sunlight and heat sources. Keep no more than 30L total of gasoline in an attached garage. IT'S THE LAW.

Make your house number visible from the road

This may include removing low hanging branches from the front of the home.

Call before you dig. IT'S THE LAW. It's a free call 1-800-400-2255, 24 hours a day, 7 days a week.
