## Legend:

- 1. Proposed Tiny Forest/Outdoor Classroom**  
This space is proposed for a tiny forest, with an outdoor classroom located at the perimeter. This will facilitate learning in and around nature, and could include a community supported seed library.
- 2. Proposed Play Node**  
Proposed in a large clearing of trees, this could be an interactive "mini-park," a space where parents can sit around the perimeter, while children enjoy a natural themed play experience.
- 3. Proposed Signage**  
Signage along the trail could include information about the channel restoration, tiny forest, climate change, and self-guided park activities (such as fitness activities, bird watching, and plant identification).
- 4. Proposed Art**  
Community-led art projects could be incorporated along the trail, such as painted asphalt art, or small stand-alone art installations.
- 5. Proposed Bridge**  
Bridge location to be confirmed.
- 6. Existing Bridge**
- 7. Proposed Playground Revitalization (Completed)**

-  **Proposed Pollinator Habitat**  
Large areas for the creation of habitat, including host species, food sources, and other habitats (i.e. logs, rocks for water sources, etc.) Pollinator areas to be implemented and maintained in collaboration with the local community.
-  **Mimico Creek Channel Restoration (in progress)**  
Mimico Creek channel restoration area, stipulated by TRCA and including removal of the concrete lining and re-naturalization of the creek and its banks.
-  **Existing Lawn**  
Sodded areas for passive human recreation.
-  **Proposed Naturalized Area**  
Marginal spaces that can be added to naturalization projects (i.e. No Mow Program)
-  **Existing Trees**
-  **Proposed Trees**
-  **Proposed Creek Lookout**
-  **Proposed Log Benches**
-  **Existing Standard Park Bench**
-  **Existing Flower Bed**
