SMILE! YOU CAN PROTECT OUR HOME!

@ DEEP SEA DR

Inspired by the phrase "Smile :) You Are on Camera!", this mural twists the common security sign to read "Smile :) You Can Protect Our Homes!" as a positive twist. This echoes through the animals' posing for photos or capturing the spectator - making them stop and think before pouring a pollutant down the grate.

SAVE OUR LAKES

@ SESQUICENTENNIAL PARK

"Save Our Lakes" at Sesquicentennial Park features text from local students as the main focus, surrounded by the region's native wildlife and plant life. Around it, you can find local animals (ex. redside daces, loons, spotted turtles, boreal chorus frogs) and flora (ex. marsh marigold, swamp aster, phragmites) featured throughout a body of water.
